Feedback on Infrastructure.....	226
Suggestions for Improvement	228

From Principal's Desk

I have great pleasure in expressing my thoughts as the Principal of Sardar Patel Institute of Technology (S.P.I.T.), the Numero Uno, self-financed, autonomous Institution of Maharashtra. We are a constituent of Bharatiya Vidya Bhavan, not just a conglomeration of more than 300 institutions, but a culture, a saga, a holy journey, started by Dr. K.M. Munshi with the support of Mahatma Gandhi in 1938. Imparting value-based education with Indian cultural ethos has always been the motto of Bhavan.

Engineers & technologists form the backbone of any nation's economic development. The world is presently undergoing very unprecedented, extraordinary, challenging time. A new normal is anticipated in many walks of life, including education. Such disruptions will come again and again in one or the other form. Engineers will work for 40-50 years of their life; they will have 3 to 4 diversified careers in technologies we are even unaware of. **To make aspiring minds confident and future-proof, education must prepare them for a “marathon” rather than a “sprint”.** S.P.I.T. makes continuous, sincere efforts towards this.

We focus on “How to learn?” rather than “What to learn?”. We believe in multi-disciplinary exposure to the learners, yet ensuring growth in one vertical, cherishing human sensitivity and empathy. We have thoughtfully articulated a unique academic model towards this. Our splendid academic performance, sparkling placements (quantitative and qualitative), enrollment for higher studies at the best places of the world, prizes won by our students in national/international level technical competitions, in past many years are the true testimonials for this.

With the support of a dedicated and hardworking faculty and staff, the institute has achieved enviable visibility and ranking in a short span. On behalf of all stakeholders of S.P.I.T., I welcome you to this family and look forward to your valuable association with us for a better tomorrow. Four years of engineering education at Sardar Patel Institute of Technology or two years post-graduation, will undoubtedly empower you to lead a successful life.

Let's grow together...

Dr. Bhalchandra Chaudhari

Principal, Sardar Patel Institute of Technology

Acknowledgement

It gives us great pleasure and immense satisfaction to present the Annual Report of Sardar Patel Institute of Technology for the academic year 2021-22. The consistent growth of the institute visible in this report is made possible due to the unstinted guidance and focused direction of Dr. Seshu Iyer, Director, Sardar Patel Institute of Technology, and Dr. B. N. Chaudhari, Principal, Sardar Patel Institute of Technology.

Motivating guidance from Dr Y. S. Rao, Vice Principal, and administrative help from Mrs. Pallavi More, Registrar has always been the strength of S.P.I.T.

We express our sincere gratitude to respective deans and head of the departments for extending their tireless support all throughout the course of rising this Annual Report.

We also express our sincere thanks to all Criteria In charges of NAAC and NBA and their respective team members for their timely response referring to data collection required for the compilation of the Annual Report.

We also acknowledge the contributions of student bodies and chapters with their faculty mentors for providing data in aesthetic representation.

We express our heartfelt gratitude to all S.P.I.T. faculty members for their timely cooperation. Last, but not the least, we sincerely thank all our student chapter members, administrative staff and all others who have directly or indirectly contributed to making this Annual Report.

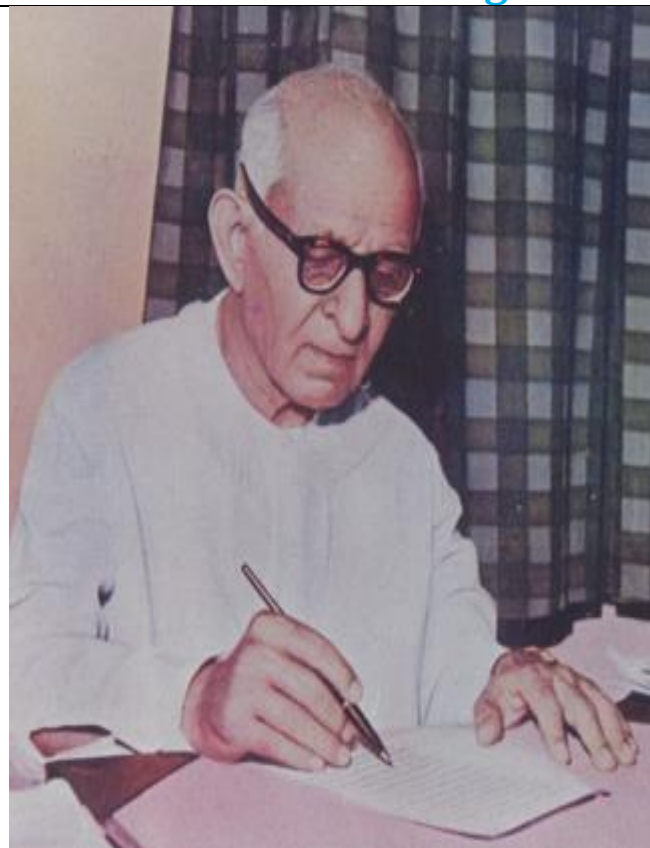

Finally, a deep gratitude towards the dedicated efforts of Dr. D. M. Patil (Convenor Annual Report Preparation Committee), Prof. Pramod Bide, Prof. Swapnali Kurhade, Dr. P. V. Kasambe, and Prof. M. M. Parmar (Annual Report Preparation Committee members), and dedicated student team. This report has seen the light of the day due to their sincere efforts.

Dr. Pooja Raundale,

IQAC Coordinator

Introduction

The Heritage- Beliefs and Values

“Education would fail ignominiously in its objective, if it manufactures only a robot..... A university cannot afford to ignore the cultural aspects of education whatever studies it specializes in. Science is a means, not an end. Whereas culture is an end in itself. Even though you may ultimately become a scientist, a doctor, or an engineer, you must while in college absorb fundamental values which will make you a man of culture. An engineer has not merely to build bridges; he has to be a devoted husband, a kind father, a friendly neighbour, a dutiful citizen, and a man true to himself. He will have trials and tribulations; his heart will fail him at times; he will then need the strength which true culture alone can give.”

- Kulpati Dr. K.M. Munshi

Institutional Values

Bhartiya Vidya Bhavan prides itself in following the beliefs and values upheld by the founder members and the management.

1. **Integrity:** Integrity is defined as the quality of being honest and having strong moral principles. In an educational institution, where the sole aim of the organisation is to life the mindset of the students to soar new heights, integrity is of paramount importance. Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology takes pride in working with integrity and a sense of righteousness to hold itself to consistent moral and ethical standards.

2. **Excellence:** Excellence is the hallmark of consistency. Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology has consistently ranked among the top educational institutions in the city and state. It currently occupies a position in the 101 to 150 brackets of the National Institute Ranking Framework (NIRF). All this has been possible with dedicated input from the management and faculty members, who consistently try to mould the institution towards constant improvement and progress.

3. **Social Sensitivity:** The prime goal of an educational institution like Sardar Patel Institute of Technology, under the aegis of management like Bharatiya Vidya Bhavan, strives to make the society better in all respects by providing quality education. One of the highlights of the new curriculum under autonomy has been to provide relevant education that would make a difference to the society. The institution also tries to instill the values of social service among its students and faculty members by being a part of various social welfare schemes, and tie-ups with NGOs from time to time.

4. **Globalization: Vasudev Kutumbakam: The whole universe is our family.** With a strong belief in Vasudev Kutumbakam, Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology extends its services in education to one and all without any discrimination on any grounds whatsoever. It strives to consistently uplift the standard of education provided, with relevance to the current global trends and standards.

Vision & Mission

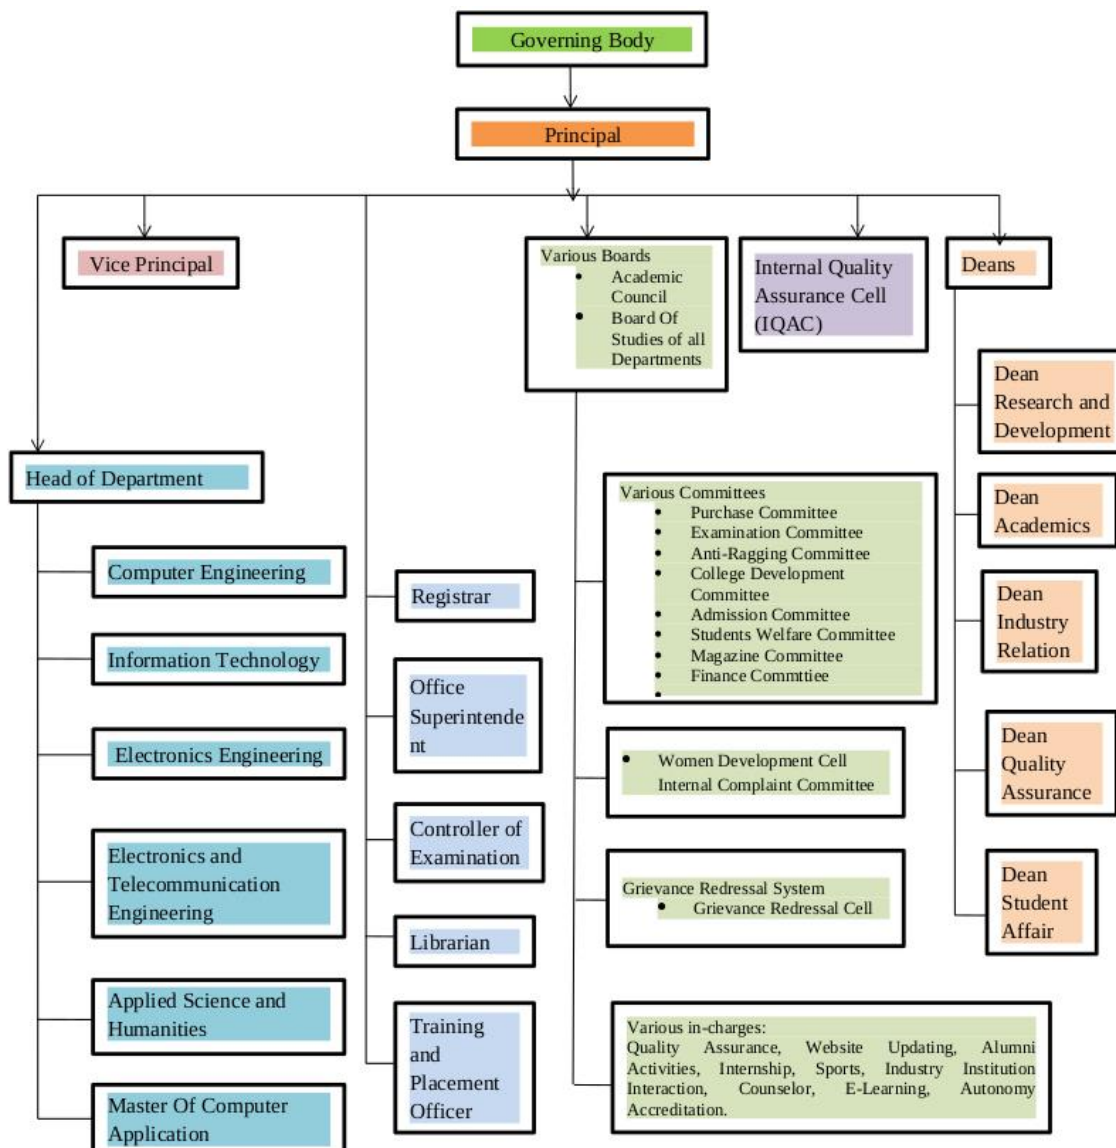

Vision

“To build a renowned institute which will produce graduate engineers with global competency and social sensitivity.”

Mission

- Provide high quality education in engineering and technology promoting the Indian Values and Ethos that will prepare the participants to lead lives of personal integrity and civic responsibility in a global society.
- Promote an Educational Environment that combines academic study with the excitement of intellectual curiosity for engineers of tomorrow.
- Enhance career opportunities for students through Industry-Institute interaction, value-added courses, and projects in cutting edge technology.
- Inculcate Entrepreneurial mindset in students to make them job creators.
- Focus on applied research to create next generation technologies.

Organization Structure

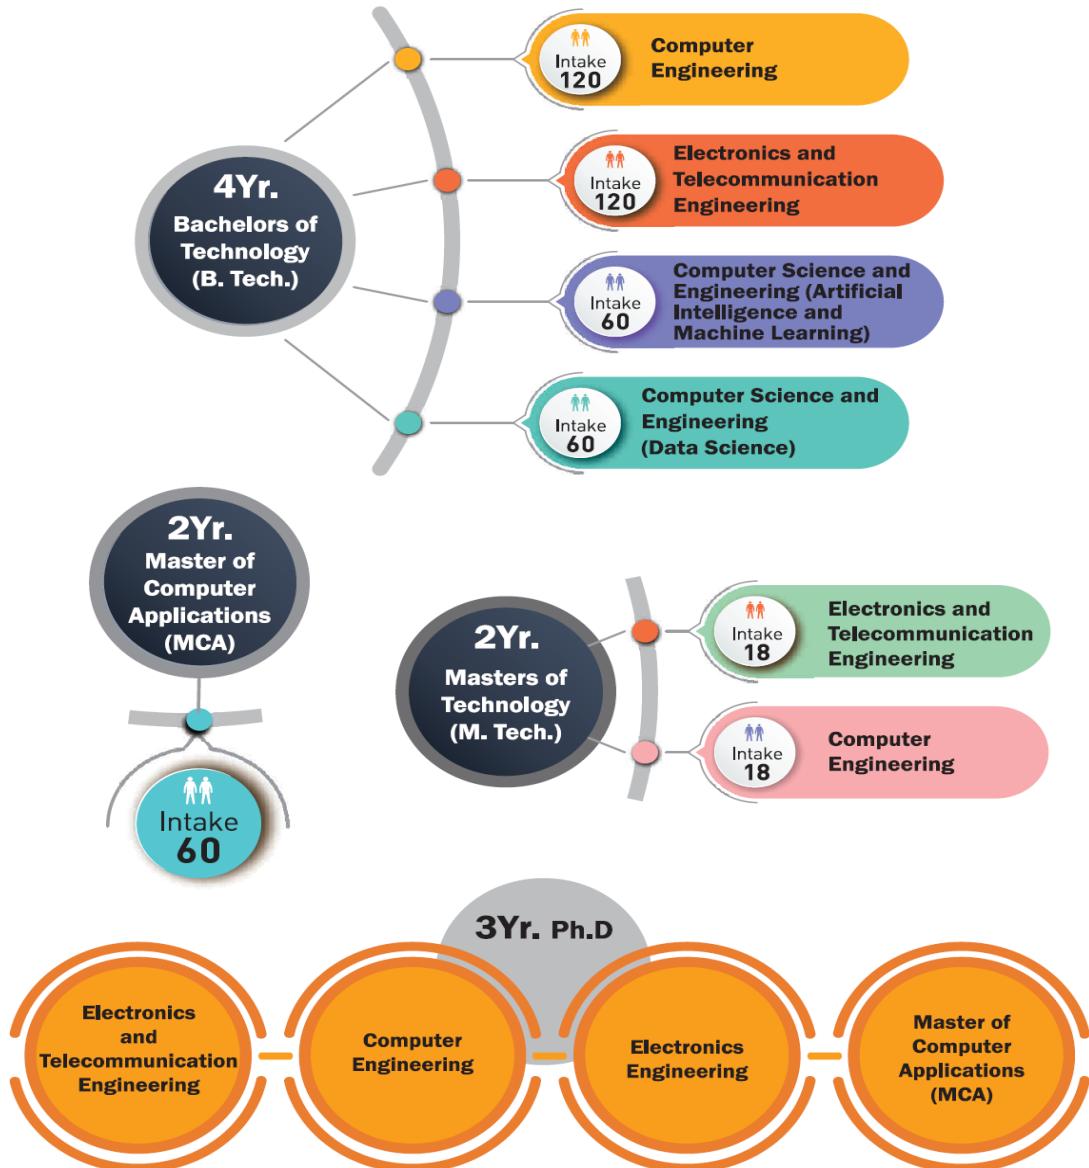

Board of Governance

Name of the Committee: - Governing Body		
Structure of the committee		Composition of the committee (2021-22)
Chairman of the Committee	Nominated by the Society / Trust	1. Dr. Sesha Iyer
Members	Five members nominated by the Society / Trust	2. Dr. Prachi Gharpure 3. Dr. Ranjan Banerjee 4. Shri. Asif Mulla 5. Shri. Suresh Mhatre
	Two members teachers of the college based on seniority	6. Dr. Y. S. Rao 7. Dr. Surendra Rathod
	One member educationalist	8. Dr. Vikram M. Gadre
	One member Industrialist/Alumni	9. Shri. Rahul Chari
	One UGC nominee	10. Dr. Manju Singh
	One Affiliating University Nominee	11. Prof. Sunil Bhirud
	One State Government Nominee	12. Ex-Officio of Director of Technical Education
	All India Technical Education	13. AICTE Representative
Member Secretary	Principal of the Institute	14. Dr. B. N. Chaudhari

Academics

Programs Offered

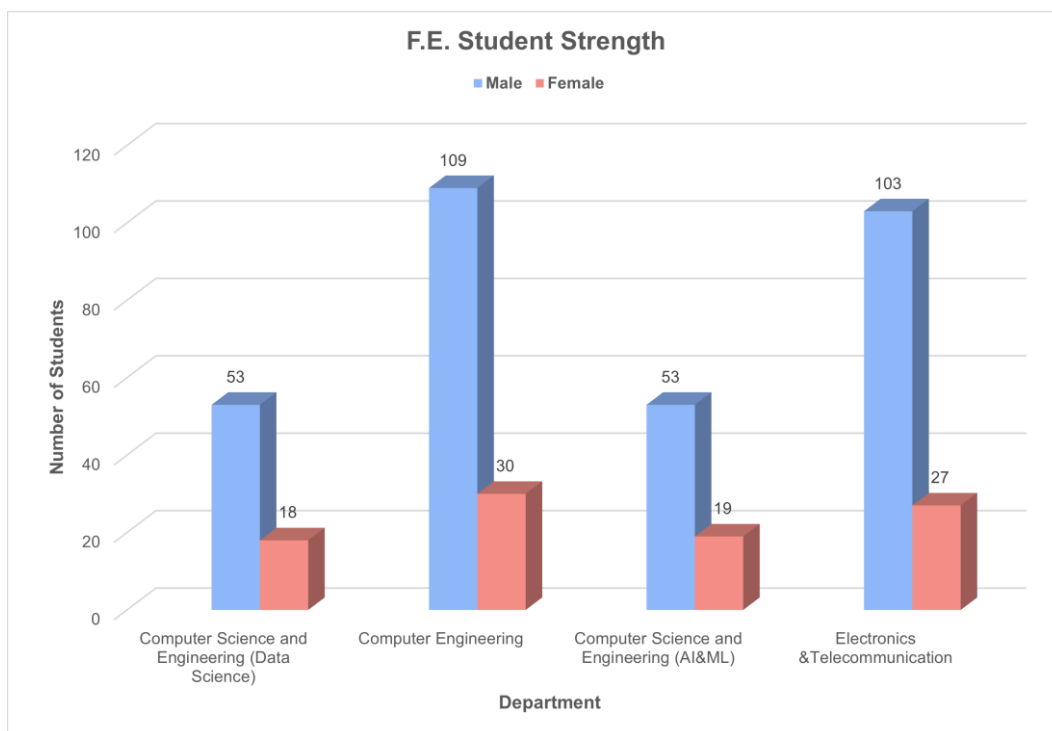

"To give real service, you must add something which cannot be bought or measured with money" - Mokshagundam Visvesvarayya

Faculty

Faculty members are well experienced in their respective domains and consistently make efforts to stay updated. The college also deputed the faculty members to Faculty Development Programmes, Short Term Training Programmes and developmental programmes to ensure continuous up gradation. Many faculty members are also actively engaged in research work. Several faculty members regularly publish papers and research articles in leading journals nationally and internationally.

List of Faculty

Principal

Dr. Bhalchandra Nemichand Chaudhari

Electronics Department

1. Dr. Surendra Rathod (Professor)
2. Dr. Rajendra Sutar (Associate Professor)
3. Dr. Deepak Karia (Associate Professor)
4. Mr. Kiran Talele (Associate Professor) (Pursuing PhD)
5. Dr. Narendra Bhagat (Associate Professor) (Awarded PhD)
6. Dr. Prashant Kasambe (Assistant Professor) (Awarded PhD)
7. Mrs. Payal Shah (Assistant Professor) (Pursuing PhD)
8. Mrs. Manisha Bansode (Assistant Professor) (Pursuing PhD)
9. Mr. Govind Haldankar (Assistant Professor) (Pursuing PhD)
10. Mrs. Priya Deshpande (Assistant Professor) (Pursuing PhD)
11. Mr. Najib Ghatte (Assistant Professor)

Electronics and Telecommunication Department

1. Dr. Yerramreddy Srinivasa Rao (Professor)
2. Dr. Rajendra Sawant (Professor)
3. Dr. Dayanand Amabawade (Associate Professor) (Awarded PhD)
4. Dr. Reena Sonkusare (Associate Professor)
5. Mr. Manish Parmar (Associate Professor) (Pursuing PhD)
6. Dr. Sukanya Kulkarni (Associate Professor)
7. Dr. Sujata Kulkarni (Associate Professor)
8. Dr. Anand Mane (Assistant Professor) (Awarded PhD)
9. Mrs. Vijaya Kamble (Assistant Professor) (Pursuing PhD)

- 10.Mr. Milind Paraye (Assistant Professor) (Pursuing PhD)
- 11.Dr. Amol Deshpande (Assistant Professor)
- 12.Mrs. Pallavi Malame (Assistant Professor) (Pursuing PhD)
- 13.Mrs. Sneha Weaky (Assistant Professor)

Computer Department

1. Dr. Dhananjay Kalbande (Professor)
2. Dr. Sudhir Dhage (Professor)
3. Dr. Preetida Jani (Professor)
4. Dr. Anant Nimkar (Associate Professor)
5. Mr. Anand Godbole (Associate Professor) (Pursuing PhD)
6. Dr. Surekha Dholay (Associate Professor) (Awarded PhD)
7. Mrs. Kiran Gawande (Assistant Professor)
8. Mrs. Jyoti Ramteke (Assistant Professor) (Pursuing PhD)
9. Dr. Nataasha Raul (Assistant Professor) (Awarded PhD)
10. Mrs. Reeta Koshy (Assistant Professor)
11. Mrs. Soni Bhambar (Assistant Professor)
12. Mr. Abhijeet Salunke (Assistant Professor) (Pursuing PhD)
13. Mr. Sunil Ghane (Assistant Professor)
14. Mr. Pramod Bide (Assistant Professor) (Pursuing PhD)

Information Technology Department

1. Dr. Prasenjit Bhavathankar (Associate Professor)
2. Dr. Kailas Devadkar (Associate Professor) (Awarded PhD)
3. Dr. Rupali Sawant (Assistant Professor) (Awarded PhD)
4. Mrs. Renuka Pawar (Assistant Professor) (Pursuing PhD)
5. Mr. Jignesh Sisodia (Assistant Professor) (Pursuing PhD)
6. Mrs. Sheetal Choudhary (Assistant Professor) (Pursuing PhD)
7. Mrs. Swapnali Kurhade (Assistant Professor) (Pursuing PhD)
8. Mrs. Varsha Hole (Assistant Professor)
9. Mrs. Nikahat Mulla (Assistant Professor) (Pursuing PhD)
- 10.Mrs Aparna Halbe (Assistant Professor)

Applied Science and Humanities Department

1. Dr. Rita Das (Associate Professor)
2. Dr. Dnyanraj Patil (Associate Professor)
3. Mr. Chandrashekhar Gajbiye (Assistant Professor)
4. Ms. Nida Bakerywala (Assistant Professor)
5. Dr. Hemant Vasaikar (Assistant Professor) (Awarded PhD)
6. Mrs. Meghana Naik (Assistant Professor) (Pursuing PhD)
7. Mr. Kaisar Katchi (Assistant Professor)
8. Mrs. Ananthalakshmi V (Assistant Professor)
9. Mr Udayan Chakraborty (Assistant Professor)
10. Mrs Nilima Choudhary (Assistant Professor)
11. Mrs. Sparsh Vyas (Assistant Professor)
12. Mrs. Prajakta Ashok Jadhav (Assistant Professor)
13. Mrs. Firdous Praveen Imran (Assistant Professor)

Master of Computer Application Department

1. Dr. Pooja Raundale (Professor)
2. Mr. Harshil Kanakia (Assistant Professor)
3. Dr. Aarti Karande (Assistant Professor)
4. Mrs. Nikhita Mangaonkar (Assistant Professor)
5. Mrs. Sakina Salmani (Assistant Professor) (Pursuing PhD)
6. Mrs. Pallavi Thakur (Assistant Professor)
7. Mrs. Prachi Dalvi (Assistant Professor) (Pursuing PhD)

Research Publications and Patents by Faculty

Research activity is one of the pillars in any institute that contributes to the solutions of the problems of academic interest as well as society. Apart from imparting motivation from the institute, our faculty are self-motivated for various research activities. One such activity is the publications in reputed international journals and conferences. The details of all these publications by various departments have been presented for reference.

Patent Publications (02)

1. Patent Title: SMART WEARABLES FOR TRAINING
Applicant/Inventors: Talele Kiran, Benn Melita, Pulapaka Anay, Pulapaka Atharv
Application No. 202121046623
Date of filing of Application: 13/10/2021
Publication Date :29/10/2021
2. Patent Title: GUIDED VISION CONTROLLED PROCTORING SYSTEM FOR DISTANT EXAMINATION
Applicant: Jay Mehta, Vaidehi Vatsaraj, Jainam Jain, Kiran Talele
Inventors: Jay Mehta, Vaidehi Vatsaraj, Jainam Jain
Application No. 202121036663
Date of filing of Application: 13/08/2021
Publication Date :27/08/2021

Electronics and Telecommunications

Journal Publications (04)

1. Rushali R. Thakkar, Y. Srinivasa Rao and Rajendra.R. Sawant "Performance Analysis of Electrical Equivalent Circuit Models of Lithium-ion Battery", Special Issue on Innovation in Computing, Engineering Science & Technology organized by Advances in Science, Technology and Engineering Systems Journal (ASTESJ).
2. D N Sankhe, R R Sawant, Y S Rao, "FPGA-Based Hybrid Control Strategy for Resonant Inverter in Induction Heating Applications" IEEE JOURNAL OF EMERGING AND SELECTED TOPICS IN INDUSTRIAL ELECTRONICS, VOL. 3, NO. 1, JANUARY 2022, PP 156-165.

3. Ashwini Sawant, Sujata Kulkarni, Ultrasound Image Enhancement using Super Resolution, Biomedical Engineering Advances, Volume 3, 100039, ELSEVIER Journal, June 2022, <https://doi.org/10.1016/j.bea.2022.100039>
4. Surya Prakash, Sujata Kulkarni "Alert System of Earthquake Detection", International Journal in Applied Science and Engineering Technology, ISSN 2321-9653; vol 9, Issue VIII, IC Value 45.98; SJ impact factor 7.429, August 2021.

International Conference Publications (38)

1. Leena Ladge and Dr Y S Rao "Temperature Estimation in Multi-Core Processors using Statistical Approach for Task Scheduling", 3rd ICCIS-2021
2. Rushali R Thakkar, Yerramreddy Srinivasa Rao and Rajendra Sawant, "Comparative Performance Analysis on Passive and Active Balancing of Lithium-Ion Battery Cells" INDICON-2021
3. Sagnik Mukherjee and Dr Y S Rao, "Auto-ML Web-application for Automated Machine Learning Algorithm Training and Evaluation," in 7th International Conference for Convergence in Technology (I2CT), 7th to 9th April 2022.
4. Rajiv Philip, Tejas M. Puthran, Dr. Y.S. Rao and Prof. Manish Parmar, "Autonomous Ball-point Pen Making Machine," ICCICT-2021.
5. Chinmayi Rane, Amol Lashkare, Aarti Karande and Y.S. Rao, "Image Captioning based Smart Navigation System for Visually Impaired," ICCICT-2021
6. Anita B. Jadhav and Y. S. Rao, Dynamic Cooperative Multi-Cell Selection using Time Difference of Arrival in LTE network, ICCICT-2021
7. R. R. Thakkar, Y. S. Rao and R. R. Sawant, "Comparative Performance Analysis on Passive and Active Balancing of Lithium-Ion Battery Cells," 2021 IEEE 18th India Council International Conference (INDICON), 2021, Indian Institute of Technology Guwahati 18-21st December-2021, pp. 1-5, doi: 10.1109/INDICON52576.2021.9691538.
8. Mohammed Aftab Shaikh and Rajendra R Sawant, "LIFI based Wireless Communication through VLC for Navigation systems", International Conference on Advanced Communication, control and Computing (ICACCCT-22), SIMATS, Chennai, Tamil Nadu, India 28-30 June 2022.
9. U S Giridhar, Nikhil Prajapati and Reena Sonkusare, "Analysis and Determination of Magnitude of Earthquake Using STA-LTA Algorithm," 12th International Conference on Computing Communication and Networking Technologies (ICCCNT), Kharagpur, India. July 6 - 8, 2021. ISBN Information: INSPEC Accession Number: 21338500 DOI: [10.1109/ICCCNT51525.2021.9579939](https://doi.org/10.1109/ICCCNT51525.2021.9579939), Publisher: IEEE.
10. Vansh Jain, Kshitij Parab, Sharvari Kalgutkar and Reena Sonkusare, "EEG Brainwave Emotion Detection Using Stacked Ensembling Method," 12th International Conference on Computing Communication and Networking Technologies (ICCCNT), Kharagpur, India. July 6 - 8, 2021. ISBN Information: INSPEC Accession Number: 21461538 DOI: [10.1109/ICCCNT51525.2021.9579818](https://doi.org/10.1109/ICCCNT51525.2021.9579818), Publisher: IEEE.

11. Gokul Nair, Kaustubh Venkatesh, Dipankar Sen, Reena Sonkusare, "Identification of Multiple Copy-move Attacks in Digital Images using FFT and CNN," *12th International Conference on Computing Communication and Networking Technologies (ICCCNT)*, Kharagpur, India. July 6 - 8, 2021. ISBN Information: INSPEC Accession Number: 21274915, DOI: 0.1109/ICCCNT 51525.2021.9580052, Publisher: IEEE.
12. Alvan Dmello, Aishwary Jadhav, Jui Kale and Reena Sonkusare, "Marathi and Konkani Speech Recognition using Cross-Correlation Analysis," *12th International Conference on Computing Communication and Networking Technologies (ICCCNT)*, Kharagpur, India. July 6 - 8, 2021. ISBN Information: INSPEC Accession Number: 21274926 DOI: [10.1109/ICCCNT51525.2021.9579566](https://doi.org/10.1109/ICCCNT51525.2021.9579566), Publisher: IEEE.
13. Mrityunjay Joshi, Shubham Chavan, Aayush Bagrecha, Reena Sonkusare, "Comparative Analysis of Deep-Learning techniques for Depressive Text Classification," *2022 IEEE 7th International conference for Convergence in Technology (I2CT)*, Mumbai, India ,07-09 April 2022. Date Added to IEEE Xplore: 18 July 2022. ISBN Information: INSPEC Accession Number: 21882901. DOI: 10.1109/I2CT54291.2022.9824573, Publisher: IEEE.

Summary: Research Publications by Faculty

Publications

Faculty Activities

In the year 2021-22 Covid 19 hadn't completely vanished. Everything was coming very slowly to new normal with great care in each field of the society including our education field. At various institutes, the students were deprived of lectures as well as laboratory sessions. But, in our institute, very innovative techniques and tools were made to use by faculty to have no negative impact on student's schedule. One of the powerful tools is the innovation of "Virtual Lab" that has assisted to conduct hands on laboratory sessions as if it is done in off-line mode. So many such innovative teaching learning practices have been implemented by faculty. Also, to be with the modern and recent trends in the technology, they have participated in various faculty development programs, webinars, workshops, tutorials, etc. To impart technological knowledge to society, many workshops and short-term training programs were also conducted by faculty. The detailed report of each department has been exhibited.

Innovative Teaching Learning Practices

In order to ensure overall development of the students the Institution motivates and empowers the faculty to practice innovative methods of Teaching Learning Processes (TLP). The Institution has also evolved many best practices with student centric methods. The Institution provides an opportunity for faculty to innovate in the TLP of the course and through on-campus activities beyond curriculum. The institution believes on Learning by doing policy which starts with framing the curriculum to incorporate a balance of 158-Credit liberal AICTE's model based Engineering Education curriculum with a strong program core courses, choice based program electives, special tracks for "Minor" Certification, multi-track model of "Honors" Certification, and special sequel of optional industry floated "SCOPE" courses (Skilled Certification for Outcome-based Professional Education) for interested learners, ensuring high technical skills, in the diversified cutting-edge technologies. Moreover, first-of-its-kind-in-education blend to Engineering Curriculum. "ABLL@LLC"® (Activity Based Liberal Learning about Life, Literature and Culture) all semesters, ensuring all dimensional holistic growth of the learner with full semester industry internship to interested students.

To deliver the contents of this balanced yet aggressive curriculum, institution has equipped itself with modern, state of the art ICT enabled air-conditioned classrooms and laboratories for effective teaching and learning. The overall teaching learning best practices adopted by the institute can be broadly categorized as use of ICT to deliver lectures, innovative methods of teaching and evaluation, enhanced laboratory experience, project-based or case study-based learning, activity-based learning, collaborative learning and lifelong learning. The Outcome Based Education (OBE) is practiced in true spirit resulting in more focussed all-round development of teaching-learning and evaluation standards.

Each Faculty frequently uses internet enabled Smart-TVs (**ICT enabled Smart Boards**) to present PPTs, demonstrate real life examples, or simulations other than use of traditional chalk and board method of teaching. Few of the classrooms are developed for flip-class room activities. The various innovative or best practices of teaching-learning adopted by faculty over the several years is presented in the tabular form.

The “Think-Pair-Share” is implemented in the class rooms. Quizzes are conducted regularly. The Assignments are given to the students to nurture their problem-solving abilities. The Moodle, an open-source learning platform is used to share information, to create quizzes, to build modules etc. Remedial Classes for the slow learners, encouraging fast learners to participate at various technical events/conferences, co-curricular activities, extra-curricular activities, arranging inter collegiate competitions, Bridge courses for lateral entry students is a key aspect of the TLP.

The laboratories are equipped with the cutting-edge proprietary tools and software. The faculty members use these platforms to develop challenging problem statements for a very limited batch size and emphasizes on an individual assessment of learners. The students are also trained on virtual labs and modern simulation tools. In some of the laboratories, faculty use inhouse developed activity-based learning Mobile Lab boards to every single student which can be used to perform hardware experiments from various subjects. It does not require any more test and measuring instruments and has an additional feature of remotely access so that students sitting at any place can have the access to these laboratories 24x7. Some of the departments have developed virtual labs in various domains which is used by the faculty for leading the path towards upgrading students’ skills in those respective subjects. In principle, key aspects of this **enhanced experiential learning** are effectively designed open ended experiments are adopted. These experiments challenge the student’s critical thinking, analysis and design capabilities.

In some of the subject faculty use **project based or case study-based learning** methods in which the students have to do projects pertaining to a comprehensive course or conduct case study. The minor and major project as a separate credit course, its allocation, monitoring and evaluation system is also in place. Rubrics for project evaluation covers all the quality criteria. The final year major projects are mentored and evaluated by externals from professional body and industry. The students are also trained towards abstract writing, technical paper writing and literature survey. These projects are evaluated by a well-defined detailed rubrics framework to ensure quality of the projects. The best projects are awarded prizes.

In order to effectively deliver the **activity based liberal teaching-learning**, institution appoints professionals form respective domains/industries and has procured the equipment, and accessories to deliver the contents of these courses.

In order to have **collaborative learning** with the industry personnel for enhancing the learning levels of the graduates, institute has adopted the various policies such as mandatory Guest Lecture/ workshop slot in the time-table, exhibition of research projects of UG/PG students and industrial visits in coordination with industries, offering elective along with the experts from the industry.

For enhancing the **life-long learning** graduate attribute, institute practice self-learning methods like the use of MOOCs and Blended MOOCs technology, NPTEL courses, a self-learning module in the courses and establishment of a Coder’s Club for students with an aim to inculcate the culture of innovation amongst students and encourage them to generate new ideas.

Summary of Innovative Teaching Learning/Best Practices

Sr. No.	Name of the Faculty	Department	Academic Year	Title	Class	Sem

Electronics Engineering

Detailed Report of the Innovative Teaching Learning Practices for some of the above is presented herewith:

1. Report on Innovative Teaching Learning method adopted for ISE evaluation of Project Demonstration on given Microcontroller development board by Prof. Priya Deshpande and

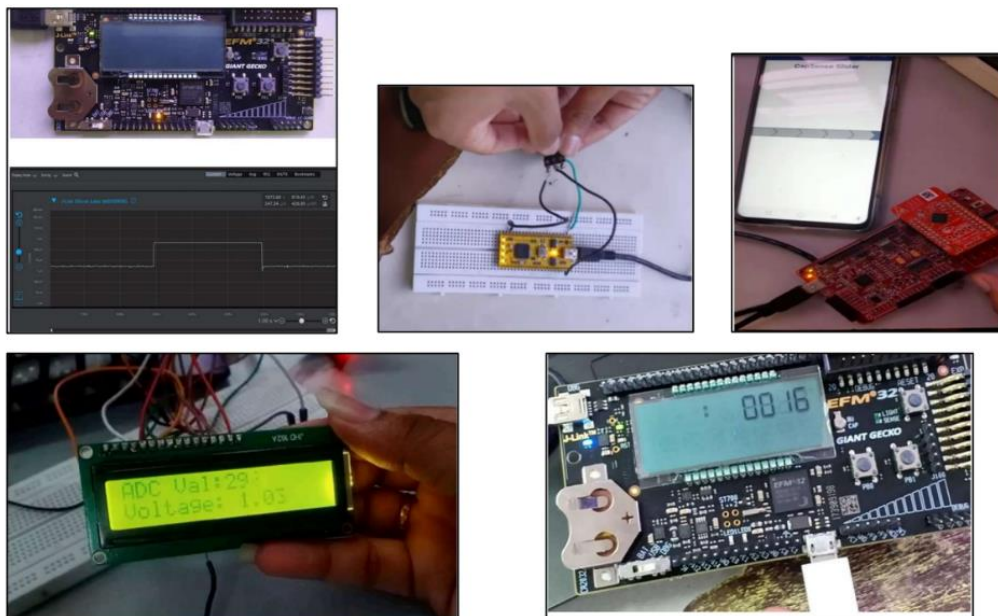

As a part of Internal Assessment of Microcontroller Lab students were given various development boards and assessment is done on the basis of level of understanding and level of experiments done on that development boards.

Group of 2 students consist of one slow learner and fast learner (decision taken on basis of first 6 experiment evaluation marks) were made for this ISE.

Following boards were given to students

- 1) PSOC 5
- 2) PSOC 4
- 3) PSOC 3
- 4) MSP ultra-low power board
- 5) MSP 432
- 6) Silicon Lab's Giant Gecko EFM32
- 7) FRDM board
- 8) Embed NXP LPC11U24

Some of screenshots of Projects:

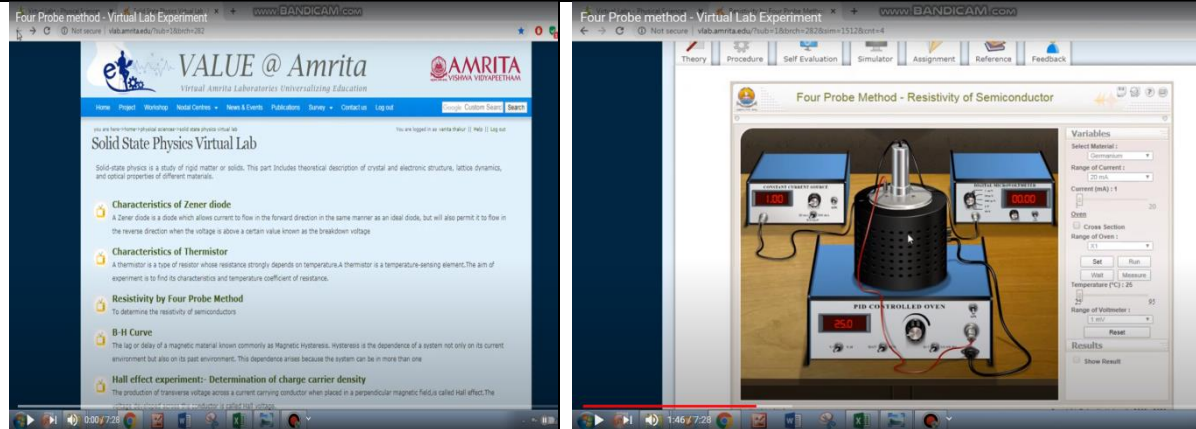

Student has explored the given board properly	Not at all <i>0 points</i>	Moderately <i>1 points</i>	Very well <i>2 points</i>
Student has run multiple problem statements on the board	Not at all <i>0 points</i>	Moderately <i>1 points</i>	Very well <i>2 points</i>
Student is able to design its own experiment	Not at all <i>0 points</i>	Moderately <i>1 points</i>	Very well <i>2 points</i>
Student has demonstrated the board to his/ her class mates	Not at all <i>0 points</i>	Moderately <i>1 points</i>	Very well <i>2 points</i>
Student has submitted the report with proper conclusion and design in moodle	Not at all <i>0 points</i>	Moderately <i>1 points</i>	Very well <i>2 points</i>

In a class of 76 students, 49 students go marks above average i.e 7 marks

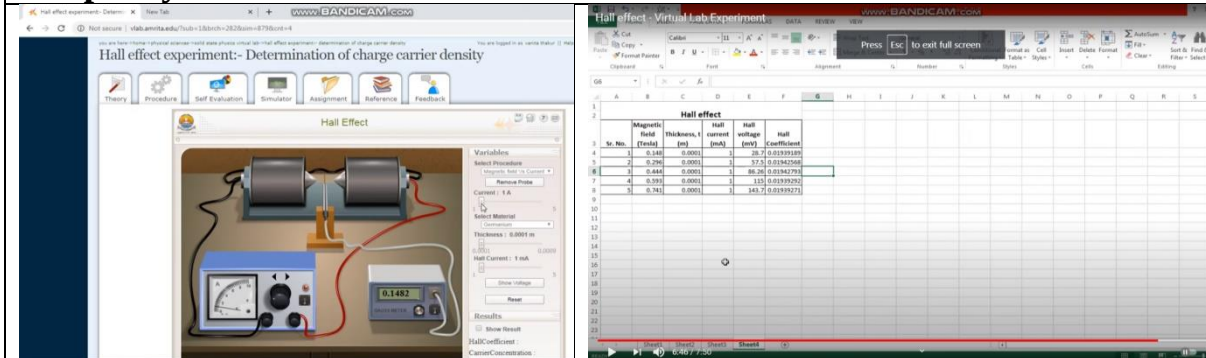

[illegible]

2. Report on Virtual Lab developed by Amrrita Vishwa Vidyalya (Vlab) for conducting labs on Semiconductor material characterization techniques.

To determine the resistivity of semiconductors by Four probe Method.

To determine the mobility of charge carrier density of semiconductors sample by Hall Effect Method.

Impact Analysis:

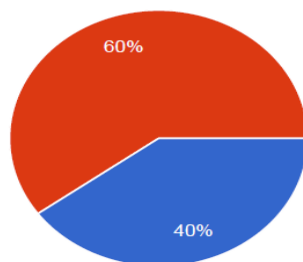

9/10/22, 6:50 PM

Sardar Patel Institute of Technology, Electronics Department, Course Exit Form category 2: IC & MEMS Technology Sem VII ...

3. Can you use demonstrate the use of characterization tool like Four Probe, Hall Effect sensor etc., through Virtual Platforms like Virtual Labs to characterize given MEMS /Semiconductor device?

Copy

How is your experience of Online Teaching Learning?

 Copy

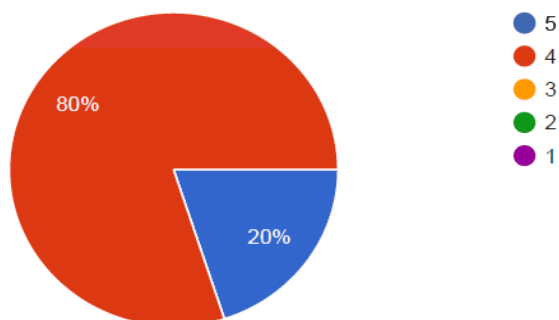

5 responses

Did you like the use of open source tools and platforms to perform Experiments in online mode.

 Copy

5 responses

9/10/22, 6:50 PM

Sardar Patel Institute of Technology, Electronics Department, Course Exit Form category 2: IC & MEMS Technology Sem VII ...

How do you rate yourself considering the description of the task given below, task assigned to you and your contribution to that?

5 responses

Moderately good. Should take more efforts to finish the task assigned.

We worked in team and contributed almost equally to task given.

Good

The course and it's assessments were good

4

3. Case Study: ISE Component

Purpose:

Evaluation of an individual student is an integral part of the academics to know how much is his/her involvement in the subject. It helps teachers also to know which learner needs more attention and who may be given the challenging task/tasks to be solved. Marks for the task completed should be taken positively by the learner and may not just do the task for the award of marks. Simple assignment work which does not require any creativity to solve does not help an individual student to learn the subject better. It is also important to know the rubrics of evaluation; the exact expectation of the evaluator for the assigned task. In online education; evaluation of such tasks becomes more challenging due to issues like one-to-one engagement of long duration. Working in a team is an integral part of an Engineering profession. Therefore; tasks need to be framed which take optimum duration to solve, should reflect creativity and experiential learning through teamwork who attempts it. If a learner pursues higher education or wish to do research in the same domain to which the course contents are aligned then these kinds of tasks undertaken builds a confidence on his/her capacity. Further to work and execute it in his/her profession.

Case Study: Applications using Integrated Circuits:

Mapping: CO1 to CO6

This is a group activity. Students will form a group of minimum 5 students. Each group will be given the problem statement from the case studies listed above but not limited to these. Students will develop the block diagram of the system first, then design each block using ICs and discrete components. Simulate the complete block diagram using any circuit simulator like TINA, Multisim or Proteus. The duration of this activity is a complete semester but evaluation will be done in Phases and rubrics designed as follows.

Phase I: In the first phase students will develop the block diagram for the given problem statement.

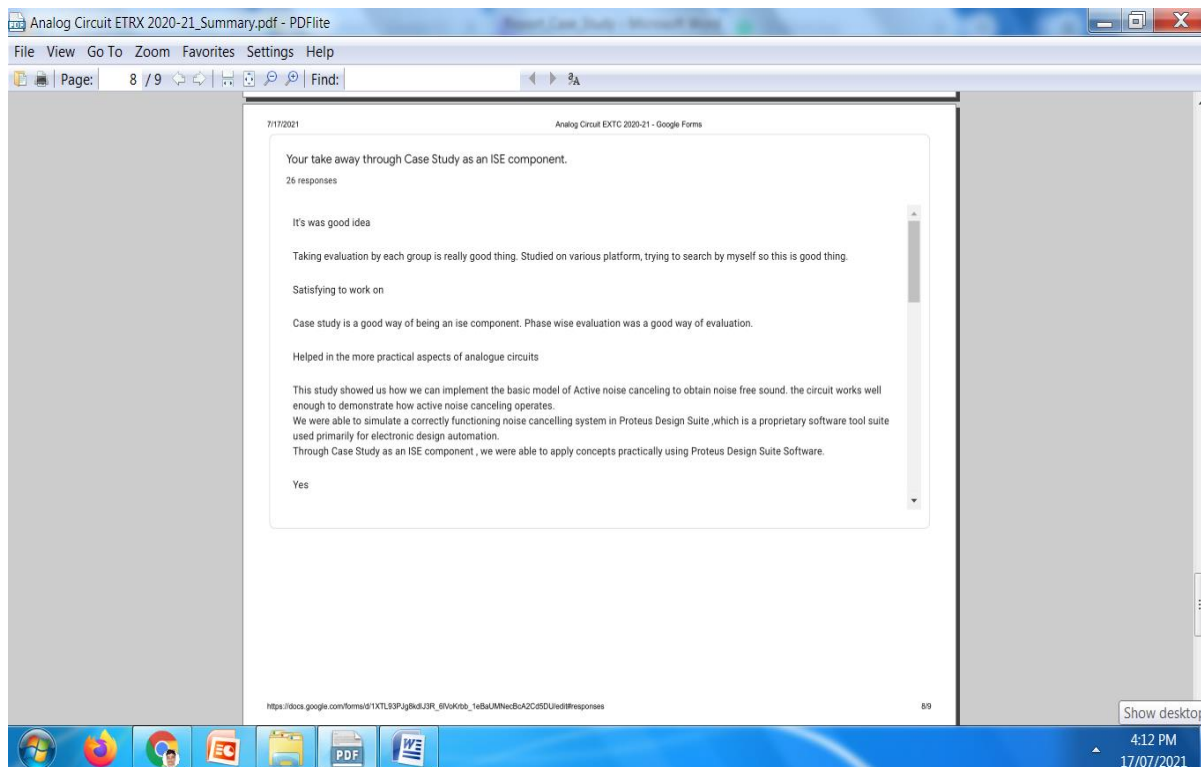

Phase II: In the second phase students will develop the circuit diagram and simulate each of the circuit diagrams and test it for input-output relationship.

Phase III: In the third phase students will interface all the designed circuits to obtain the final input-output relationship of the system. Hardware implementation is optional.

Outcome:

The main objectives of conducting this activity was to motivate students to search for various ICs, read data sheets of ICs, interface various ICs and discrete circuits to realize an electronic system represented by a block diagram. As it is a group activity it helped students to also build team work spirit. Looking at the feedback it has also impacted on students' performance.

Feedback:

Analog Circuit ETRX 2020-21 - Google Forms

7/17/2021

Your take away through Case Study as an ISE component.

26 responses

It's was good idea

Taking evaluation by each group is really good thing. Studied on various platform, trying to search by myself so this is good thing.

Satisfying to work on

Case study is a good way of being an ise component. Phase wise evaluation was a good way of evaluation.

Helped in the more practical aspects of analogue circuits

This study showed us how we can implement the basic model of Active noise canceling to obtain noise free sound. the circuit works well enough to demonstrate how active noise canceling operates.

We were able to simulate a correctly functioning noise cancelling system in Proteus Design Suite ,which is a proprietary software tool suite used primarily for electronic design automation.

Through Case Study as an ISE component , we were able to apply concepts practically using Proteus Design Suite Software.

Yes

Faculty Development Programs, Workshops and Tutorials

Electronics Engineering

FDP attended by the faculty of ETRX department:

Sr. No.	Name of teacher who attended the program	Title of the program	Duration	Dates	Organizing
1	Dr. Deepak C.Karia	“Consumer Electronic Product Design, Testing, Reliability and Patenting”	12 Days 2-Weeks	1st July 2019 to 13th July 2019	AICTE, SPIT
2	Dr. Deepak C.Karia	Biosimilar Technologies	5 days	23-11-2020 to 27-11-2020	AICTE-ATAL, SPIT
3	Dr. Deepak C.Karia	IETE Technical Training Program on Cyber Security	5 days	07-09-2020 to 11-09-2020	IETE Mumbai
4	Dr. Deepak C.Karia	Strategic Planning for Higher Educational Institutions: Challenges, Tools & Techniques	6 days	June 7, 2021 to June 12, 2021	AICTE-MIET-Jammu
5	G T Haldankar	AICTE Sponsored STTP on "Control System Design- Classical and Modern with Hands-on"	One week	March 22, 2021 to March 27, 2021	COEP Pune, AICTE sponsored
6	G T Haldankar	Online teaching learning tools and Pedagogies	5 (one week)	15th June 2020 to 19th June 2020	FICCI Future
7	G T Haldankar	Renewable Energy System & EV Design using MATLAB	1 Month	28th June 21 to 25th July 21	IETE
8	Manisha R. Bansode	National Level online industrial training program on "FUTURE SCOPE OF ENGINEERING IN GLOBAL DEVELOPMENT"	5 days (one week)	27-07-2020 to 31-07-2020	Dept of Electronics and Communication Engineering, Velalar College of Engineering and Technology, Erode, Tamilnadu in association with Pantech Solutions, Chennai
9	Priya Deshpande	Coursera course on "Machine Learning for All"	4 weeks of study, 4-5 hours per week	07-05-2020 to 07-06-2020	Coursera
10	Payal Shah	Design Thinking- A Primer	4 weeks	01-02-2020 to 01-03-2020	NPTEL

Sr. No.	Name of teacher who attended the program	Title of the program	Duration	Dates	Organizing
11	Payal Shah	RESEARCH IN ENGINEERING - A Way Forward	5 days	06-07-2020 to 10-07-2020	A. P. Shah Institute of Technology, Thane
12	Payal Shah	Interactive-Impactful E-Learning Techniques	3 days	18-07-2020 to 20-07-2020	K.C. College of Engineering And Management Studies & Research, Thane
13	Payal Shah	Excel Skills for Business: Essentials	6 weeks- 2 to 4 hours per week	01-08-2020 to 01-09-2020	Coursera
14	Payal Shah	AICTE Sponsored One Week Short Term Training Program on "VLSI Design Using Cadence Tools: Analog CMOS VLSI Design"	1 week	2nd November 2020 to 7th November 2020	Electronics Engineering Department, Sardar Patel Institute of Technology
15	Payal Shah	AICTE Training And Learning (ATAL) Academy Online FDP on "Biosimilar Technology"	5 days	23rd November 2020 to 27th November 2020	Department of Electronics and Telecommunication Engineering, Sardar Patel Institute of Technology
16	Payal Shah	AICTE Sponsored One Week Short Term Training Program on "VLSI Design Using Cadence Tools: Mixed Signal VLSI Design"	1 week	30th November 2020 to 5th December 2020	Electronics Engineering Department, Sardar Patel Institute of Technology
17	Najib Ghatte	Signal Processing Techniques for Advanced Wireless Communication	1 week	26th October 2020 to 31st October 2020	Jayamukhi Institute of Technological Sciences, Warangal, Telangana
18	Najib Ghatte	Implementation of Artificial Intelligence for Solving Digital Signal and Image Processing Problems	2 weeks	16-11-2020 to 28-11-2020	Department of Electronics and Communication Engineering, Vidya Jyothi Institute of Technology (Autonomous) in association with AICTE

Sr. No.	Name of teacher who attended the program	Title of the program	Duration	Dates	Organizing
19	Priya Deshpande	AICTE Training And Learning (ATAL) Academy Online FDP on "Biosimilar Technology"	1 week	23-11-2020 to 27-11-2020	Department of Electronics and Telecommunication Engineering, Sardar Patel Institute of Technology
20	Priya Deshpande	AICTE Sponsored One Week Short Term Training Program on "VLSI Design Using Cadence Tools: Digital CMOS Design and Verification"	1 week	12-10-2020 to 17-10-2020	Department of Electronics Engineering, Sardar Patel Institute of Technology
21	Manisha R. Bansode	AICTE Sponsored One Week Short Term Training Program on "VLSI Design Using Cadence Tools: Digital CMOS Design and Verification"	1 week	12-10-2020 to 17-10-2020	Department of Electronics Engineering, Sardar Patel Institute of Technology
22	Narendra A Bhagat	AICTE Sponsored One Week Short Term Training Program on "VLSI Design Using Cadence Tools: Mixed Signal VLSI Design"	1 week	30th November 2020 to 5th December 2020	Electronics Engineering Department, Sardar Patel Institute of Technology
23	Payal Shah	Effective Writing	4 weeks	18-01-2021 to 12-02-2021	NPTEL (IIT Roorkee)
24	Payal Shah	Effective Engineering Teaching In Practice	4 Weeks	18-01-2021 to 12-02-2021	NPTEL (IIT Madras)
25	Priya Deshpande	Artificial Intelligence in Contemporary Biomedical & Healthcare Applications: Fundamentals & Hands on Matlab	5 Days	21-06-2021 to 25-06-2021	ATAL (GBU University)
26	Prashant V. Kasambe	Advancement in Material Processing Technologies	5 Days	09-08-2021 to 13-08-2021	ATAL
27	Prashant V. Kasambe	One Week FDP on Entrepreneurship Development in Academic Campus	5 Days	20th June 2021 to 24th June 2021	SPTBI, Mumbai
28	Prof. Manisha Bansode	National Level Personal Development Program on "Achieving Excellence through Self Awareness: Upbeat your Life Skills"	5 Days	26th June 2021 to 30th June 2021	Online National Level Personal Development Program

Sr. No.	Name of teacher who attended the program	Title of the program	Duration	Dates	Organizing
29	Prof. Manisha Bansode	One Week Online Faculty Development Program on Advanced Research Methodology Applicable in New Education Policy	7 Days	22nd June 2022 to 28th June 2022	Digvijay Nath Post Graduate College, Gorakhpur, UP, Lucknow & Science Tech Institute (Run by MKS Educational Society), Lucknow, UP India jointly.
30	Prof. Priya Deshpande	AICTE Training and Learning (ATAL) Academy Online Elementary FDP on "Embedded Design and Development using Free / Open Source Tools"	5 Days	9th Aug 2021 to 13th Aug 2021	AICTE Training and Learning (ATAL) Academy, Centre for Development of Advanced Computing.
31	Prof. Priya Deshpande	AICTE Training And Learning (ATAL) Academy sponsored Online Elementary FDP on "Elements of FEM"	5 Days	26th July 2021 to 30th July 2021	Government Engineering College, Bharuch.
32	Prof. Najib Ghatte	One Week Online Faculty Development Program (FDP) under ATAL Academy on "IoT: A Journey from Sensor to Server"	5 Days	4th January 2022 to 8th January 2022	A. P. Shah Institute of Technology, Thane
33	Prof. Najib Ghatte	One week FDP (5-days) on "Digital VLSI Design and Verification"	5 Days	23rd August 2021 to 27th August 2021	Department of Electronics and Communication Engineering, Bangalore Institute of Technology in association with Entuple Technologies & IEEE BIT
34	Prof. Najib Ghatte	10-day Patent Analytics Course	10 Days	07th June 2022 to 16th June 2022	Turnip Innovations and facilitated by Dr. Rahul Kapoor
35	Dr. R. G. Sutar	ATAL IDEA Lab Advanced FDP on "ELECTRONIC SYSTEM DESIGN"	5 Days	21st July 2021 to 27th July 2021	K.S.RANGASAMY COLLEGE OF TECHNOLOGY Tamil Nadu, INDIA

Sr. No.	Name of teacher who attended the program	Title of the program	Duration	Dates	Organizing
36	Dr. R. G. Sutar	Machine Learning for Data Science using Python	5 Days (30 Hours)	16th Aug 2021 to 30th Aug 2021	NIT, Varangal
37	Prof. Priya Deshpande	AICTE, Arm Education, STMicroelectronics, with support from Microsoft and NIELIT Calicut, workshop on "Designing and Modelling of IoT, AI & ML Systems	5 Days	1st Aug 2022 to 5th Aug 2022	NIELIT Calicut

Electronics and Telecommunications

FDP attended by the faculty of EXTC department:

Sr. No.	Name of teacher who attended the program	Title of the program	Dates	Duration	Organiser
1	Dr R R Sawant	FDP on EnterprFDP on Entrepreneurship Development in Academic Campus	June 20 to June 24 2022	1 Week	SPIT, Mumbai
		Mathwoirks Webinar Series on EVs: Addressing challenges involved in developing Battery Management Systems using Simulink	8 Sept. 21 to 15 Sept 21	2 Weeks	Maths work
		Mathwoirks Webinar Series on EVs: Accelerate Development of Electric Vehicles with Real-time Testing	8 Sept. 21 to 15 Sept 21	2 Weeks	Maths work
		(3) Mathwoirks Webinar Series on EVs: Addressing challenges involved in design and implementation of motor control algorithms	8 Sept. 21 to 15 Sept 21	2 Weeks	Mathswork

Annual Report 2021-22

Sr. No.	Name of teacher who attended the program	Title of the program	Dates	Duration	Organiser
2	Dr. Reena Sonkusare	Refresher Course on Teacher and Teaching in Higher Education	1st Dec 2020 to 31st March 2021	2 Weeks	NPTEL
		Skills for New Educational Architecture	1st Dec 2020 to 31st March 2021	2 Weeks	SPIT, Mumbai
		Current Trends in Research & Innovation - Research Paper Publications - IPR and Patents - Research Projects & Fundraising	27th - 31st August 2021	1 week	SPIT, Mumbai
		Transformational Leadership” held on Friday, on virtual platform.	20 August 2021	1 day	SPIT, Mumbai
3	Sukanya Kulkarni	Refresher Course on Teacher and Teaching in Higher Education	1st Dec 2020 to 31st March 2021		NPTEL
		Skills For New Educational Architecture	From 1st Dec 2020 to 31st March 2021		SPIT, Mumbai
		Transformation through NAAC Accreditation Process National Workshop for Higher Educational Institutions	21st & 22nd June, 2021.	2 Days	SPIT, Mumbai
44	Sujata Kulkarni	AICTE SPONSORED one-week online STTP on BLOCKCHAIN & IT’S APPLICATIONS (Phase – III) orgnized by VESIT IQAC & VESIT IIC. 12th to 17th July 2021.	12th to 17th July 2021.	1 Week	VESIT, Mumbai
		AICTE SPONSORED one-week online STTP on BLOCKCHAIN & IT’S APPLICATIONS (Phase – IV) 16th to 21Aug 2021 orgnized by VESIT IQAC & VESIT IIC.	16th to 21Aug 2021	1 week	VESIT, Mumbai

Annual Report 2021-22

Sr. No.	Name of teacher who attended the program	Title of the program	Dates	Duration	Organiser
4		“Current Trends in Research & Innovation - Research Paper Publications - IPR and Patents - Research Projects & Fundraising”	27th - 31st August 2021	1 week	"Institute for Academic Excellence, Hyderabad" in collaboration with "Collegiate Education & Technical Education Department, Telangana State.
		Transformation through NAAC Aaredditation process for Higher Educational Institute & Health science from 20 th to 22 th June 2022, IAE2022	20th to 22th June 2022	1 week	SPIT, Mumbai
5	Prof. Milind Paraye	AICTE Training and Learning (ATAL) Academy Online Elementary FDP on "PRACTICAL PERSPECTIVE ON DECISION MAKING EDUCATION" from 03/01/2022 to 07/01/2022 at Bharati Vidyabhavan Sardar Patel institute of Technology	03/01/2022 to 07/01/2022	1 week	SPIT, Mumbai

Sr. No.	Name of teacher who attended the program	Title of the program	Dates	Duration	Organiser
6	Pallavi Nair	ATALOnline Elementary FDP on "PRACTICAL PERSPECTIVE ON DECISION MAKING EDUCATION"	03/01/2022 to 07/01/2022	1 week	SPIT, Mumbai
		IEEE Teacher's Congress	25th March 2022 to 27th March 2022	3 Days	IEEE
7	Dr. Amol deshpane	AICTE ATAL FDP on "PRACTICAL PERSPECTIVE ON DECISION MAKING EDUCATION"	03/01/2022 to 07/01/2022	1 week	SPIT, Mumbai
7	Dr. Amol deshpane	AICTE ATAL FDP on "Signal Processing and Machine Learning towards Engineering Applications", at North Eastern Regional Institute of Science and Technology(NERIST)	23/08/2021 to 27/08/2021	1 week	North Eastern Regional Institute of Science and Technology (NERIST)
		ISTE Workshop on "Geographic Information System (GIS)", at KJSCE	19.07.2021 to 23.07.2021	1 week	KJSCE, Mumbai
8	Prof. Sneha Weakey	AICTE Training And Learning (ATAL) Academy Online Elementary FDP on "PRACTICAL PERSPECTIVE ON DECISION MAKING EDUCATION" from 03/01/2022 to 07/01/2022 at Bharatiya Vidyabhavan Sardar Patel institute of Technology	03/01/2022 to 07/01/2022	1 week	SPIT, Mumbai
		IEEE Teacher's Congress	25th March 2022 to 27th March 2022	3 Days	IEEE

10	Nikahat Mulla	2	FDP on Futuristic Trends In Modern Machine Learning & Data Analytics	13/12/2021 to 17/12/2021	1 week	AICTE Training and Learning (ATAL) Academy
11	Nikahat Mulla	1	AICTE-ISTE Approved Orientation Refresher programme on Artificial Intelligence and Robotics Process Automation:tools, techniques, challenges and solutions	19/01/22 to 25/01/22	1 week	Sardar Patel Institute of Technology
12	Swapnali Kurhade	1	National Level online (two credits) course on “Research and Publication Ethics”	15th November to 30th November 2021	1 week	SPIT, Mumbai
13	Prof.Varsha Hole	1	Innovation Ambassador Training	7/21/2023	30 hrs	MOE's Innovation Cell and AICTE

MCA

FDP attended by the faculty of MCA department:

Sr no	Name of teacher who attended the program	Title of the program	Dates	Duration	Organizer
1.	Dr. Pooja Raundale	Transformation through NAAC ACCREDITATION PROCESS for Higher Educational Institutions & Health Science Institutions"	20/6/22 to 21/6/22	2 days	Institute for Academic Excellence, Hyderabad" in collaboration with "Collegiate Education & Technical Education Department, Telangana State
		Deep learning and applications under the scheme of financial assistance for setting up of Electronics and ICT academics	23/7/21 to 3/9/21	15 days	Electronics and ICT Academics at IIT Guwahati
		National level Webinar on Current Trends, Research Projects & Fund Raising for Faculty Members of Higher Educational Institutions	27/8/21 to 31/8/21	5 days	Institute for Academic Excellence, Telangana.
		3rd edition of CII Conference on Transformational Leadership, 09:30 hrs, Friday, 20 August 2021.	7/20/2021	1day	CII
		National Level Workshop on NIRF INDIA RANKINGS – 2022	5/1/22 to 6/1/22	2 days	Institute for Academic Excellence in collaboration with Collegiate Education & Technical Education Department, Govt. of Telangana

Sr no	Name of teacher who attended the program	Title of the program	Dates	Duration	Organizer
2.	Dr.Aarti Karande	ATAL SPIT "PRACTICAL PERSPECTIVE ON DECISION MAKING EDUCATION" Mumbai from 3rd Kan to 7th Jan 2022	03-01-2022 to 7/1/2022	5 days	S.P.I.T.
		Attended Artificial Intelligence in cooperative Nema (5G) network at AICTE and ISTE at from 21.12.2021 to 27.12.2021	21/12/2021 to 27/12/2021	5 days	Poornima college of engg. Jaipur Rajasthan
		Innovation Amsador Advanced level	30/6/2021 to 30/7/2021	30 days	AICTE
3.	Prof. Harshil Kanakia	AICTE :Artificial Intelligence and Robotic Process Automation: Tools, Techniques, Challenges and Solutions	19/01/22 to 25/01/22	5 days	Sardar Patel Institute of Technology
4.	Prof. Nikhita Mangaonkar	ATAL FDP Advanced Cloud Computing Technologies and Its Benefits for Engineering College Faculties	13/09/2021 to 17/09/2021	5 days	INFLIBNET Centre, An IUC of University Grants Commission
		ATAL FDP Cloud Forensics: Techniques, Challenges and Research Directions	18/10/2021 to 22/10/2021	5 days	NIT Sikkim.
		ATAL FDP Fog and Edge Computing Challenges and Research Directions	25/09/2021 to 29/09/2021	5 days	NIT Sikkim.
		ATAL FDP Interdisciplinary Smart Application of Internet of Things, Cloud Computing and Data Analytics Technologies	04/10/2021 to 08/10/2021	5 days	School of Studies in Engineering and Technology.
5	Prof. Sakina Shaikh	3 day residential programme IEEE Teacher's Congress	25/3/2022 to 27/3/2022	3 days	IEEE Bombay Section
		IEEE Entrepreneurship Bootcamp 2021	5/7/2021 to 10/7/2021	5 days	IEEE Bombay section
		Research and Publication Ethics	15/11/22 to 30/11/21	15 days	SPIT in collaboration with Mumbai University
		Instructional Planning and Delivery	Feb-22	90 days	NITTT
		Students assesment and evaluation	Feb-22	90 days	NITTT
		AICTE: Artificial Intelligence and Robotic Process Automation: Tools, Techniques, Challenges and Solutions	19/01/22 to 25/1/22	5 days	Sardar Patel Institute of Technology

Annual Report 2021-22

Sr no	Name of teacher who attended the program	Title of the program	Dates	Duration	Organizer
5	Prof. Sakina Shaikh	Current Trends in Research & Innovation, Research Paper Publications and presentation, IPR and Patents, Research Projects & Fundraising	27/8/22 to 31/8/22	4 days	IAE in collaboration with the Collegiate Education & Technical Education Department Govt of Telangana
6	Prof. Pallavi Thakur	Data Science and It's Applications	25/06/22 to 30/06/22	5 days	SJ. College of Engineering
		AICTE : Artificial Intelligence and Robotic Process Automation: Tools ,Techniques, Challenges and Solutions	19/01/22 to 25/01/22	5 days	Sardar Patel Institute of Technology

FDP conducted by the faculty of MCA department:

Sr. No.	Name of the Faculty	Seminar / Conference / Symposium / Workshop	Name of the Seminar / Conference / Symposium / Workshop	Level (National/ International/ College Level)	Reference Number	Duration	No. of Teachers Participated	Sponsoring Authority
1	Dr. Aarti Karande	Workshop	Writing Research Paper	University	NIL	18th Nov 2021	55	R & D Committee, S.P.I.T.
2	Prof. Sakina Shaikh	FDP	AICTE-ISTE -Artificial Intelligence and Robotic Process Automation" ,19th January, 2021 to 25 January,2021	National	ISTE/AICTE-ISTE Induction-Refresher Program/2021-22	19/1/22 to 25/1/22	88	AICTE ATAL

Applied Sciences and Humanities

FDP attended by the faculty of ASH department:

Sr no	Name of teacher who attended the program	Number of teachers who attended	Title of the program	Dates	Duration	Organizer
1	Prof. Meghana Naik	International Workshop	Network & Dynamical Systems An International Workshop by IIT Madras	25th to 28th August 2021	4	IIT Madras
2		Workshop on Software in Mathematics & Statistics	Workshop on Software in Mathematics & Statistics by NIT Tiruchirappalli	2nd to 6th August 2021	5	NIT Tiruchirappalli
3		ATAL FDP	Improving Personal Effectiveness at Workplace, by Sikkim University	1st Sept to 5th Sept 2021	5	Sikkim University
4		National Webinar	Opportunities and Prospects in Mathematics for Young Enthusiastic, by Pandit Deendayal Energy University, Gandhinagar	27th June 2021	1	Pandit Deendayal Energy University, Gandhinagar
5		Workshop	Emerging Areas in Differential Equations and Real World Applications by Dhirubai Ambani Institute of Information and Communication Technology, Gandhinagar	30th May to 3rd June 2022	5	Dhirubai Ambani Institute of Information and Communication Technology, Gandhinagar

Annual Report 2021-22

Sr no	Name of teacher who attended the program	Number of teachers who attended	Title of the program	Dates	Duration	Organizer
6	Prof. Meghana Naik	FDP	Five weeks FDP on Linear Algebra	25th July to 26 th August 2022	24	S.P.I.T
7		Conference	Mathematical Modelling in Biological Sciences	26th Oct to 28th Oct 2021	3	NIT, Silchar, Assam
1	Rita Das	ATAL FDP	Development and applications of sensors in Modern Life by NIT, Arunachal Pradesh	25 to 30 October 2021	5	NIT, Arunachal Pradesh
2		ATAL FDP	W.O.M.E.N."(Weaver of Optimism, Motivation, Empowerment & Nurturing Pillars of Society by Nurturing Pillars of Society Engineering College (BVM)	15 to 19 November 2021	5	Birla Vishvakarma Mahavidyalaya Engineering College (BVM).
3		FDP	Roadmap on Quantum Materials and Technologies, by MPSTME, Vile Parle	2 to 4 August 2022	3	MPSTME, Vile Parle (Mukesh Patel), NMIMS
1	C R Gajbhiye	Workshop	Mathematical Techniques in Fluid Dynamics	28-30 March 2022	3	SRM Institute of Science and Technology, Ramapuram Campus, Chennai
2		FDP	Frontiers of Mathematics	19 May – 2 nd June 2022	15	SRM Institute of Science and Technology, Ramapuram Campus, Chennai
3		Webinar	Physical and Mental Health in Neo Normal Situation	17 Sep – 19 Sep 2022	3	Lakshmi College of Engineering, Gandhigram
1	Ananthalakshmi V	National Workshop	NAAC Workshop	21-22 June, 2021	2	"Institute for Academic Excellence, Hyderabad"
2		National Workshop	NAAC Workshop	20-21 June, 2022	2	"Institute for Academic Excellence, Hyderabad"

Annual Report 2021-22

Sr no	Name of teacher who attended the program	Number of teachers who attended	Title of the program	Dates	Duration	Organizer
3	Ananthalakshmi V	ATAL FDP	Development and applications of sensors in Modern Life by NIT, Arunachal Pradesh	25 to 30 October 2021	5	NIT, Arunachal Pradesh
4		FDP	Recent advancement in Nanomaterial and Green Technology for Sustainable Engineering	6 - 8 October, 2021	3	Rajiv Gandhi Institute of Technology, Mumbai

Faculty Awards: International

Sr. No.	Name of the Faculty	Name of the Award	Name of the Central Government agency/ International agency from where award has been received
1	Dr. D. R. Kalbande	International Scientist Award	International Scientist Awards on Engineering, Science and Medicine, Mysore, India.
2	Dr. S. N. Dhage	Appreciation Certificate	Technovation, Shah and Anchor Kuttchi Engineering College, Mumbai
3	Dr. S. N. Dhage	Best Paper award	2 nd International E-Conference on Research Essential Machine Learning and Computational Intelligence
4	Dr. Surekha Dholay	Best Paper Award	ICCICT-2021, S.P.I.T., Mumbai
5	Dr. N. A. Bhagat	Best Paper Award	7th International Conference ICIRTE 2022, Vasantdada Patil Pratishthan's College of Engineering and Visual Arts, Mumbai
6	Dr. Nataasha Raul	Best Paper award	ICETMDE-2020, Life Way Tech India and KL Research association in the Online mode (Virtual Conference)

Faculty Awards: National

Guest Lecture Organised

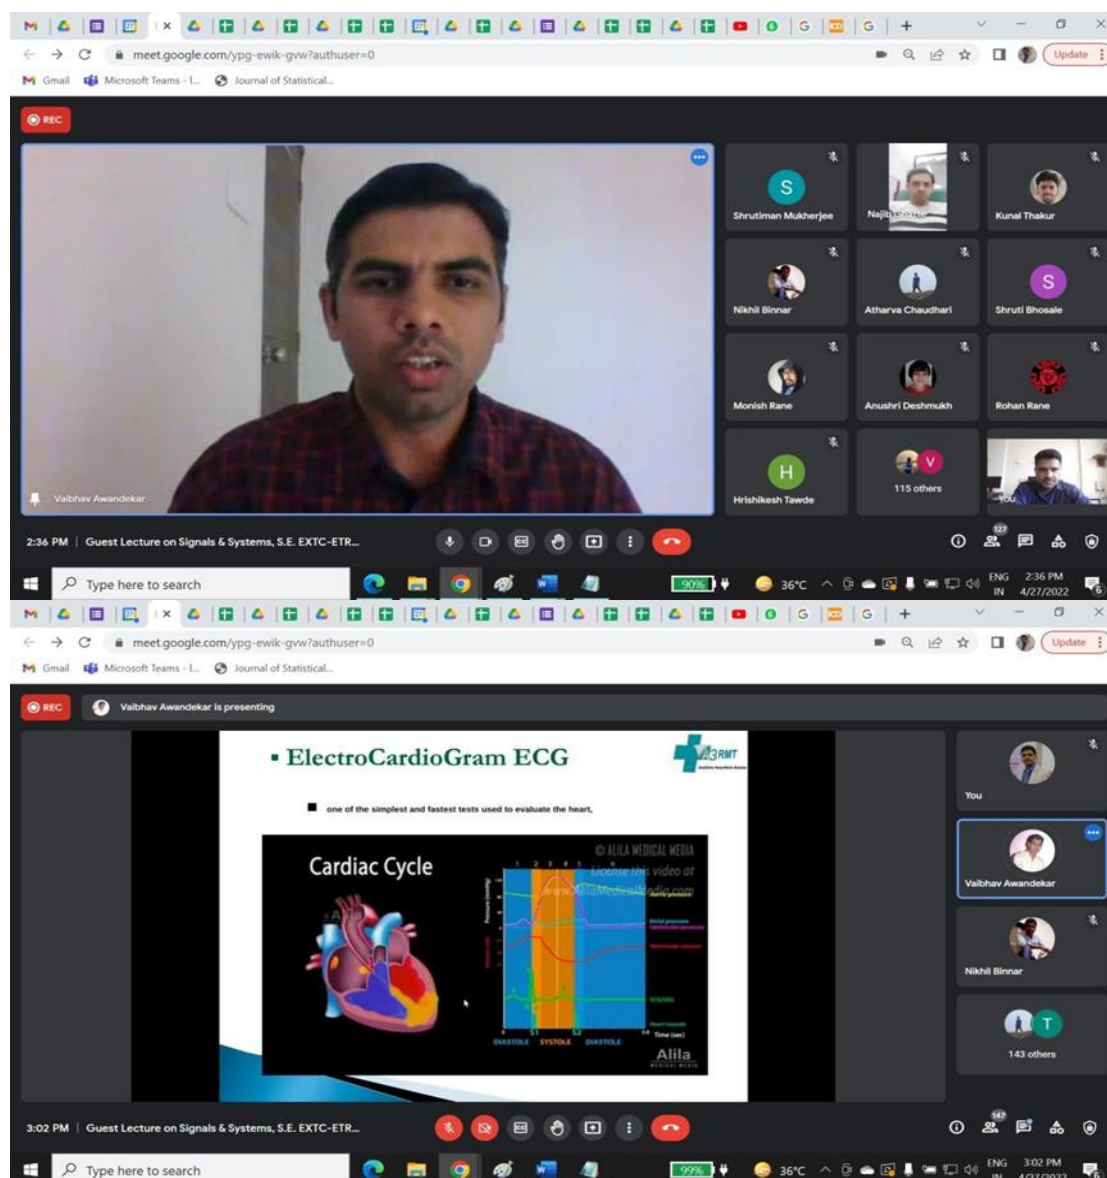

1. Name of the Guest: Mr. Vaibhav Awandekar, R&D Manager, A3 Monitoring Technologies Pvt. Ltd., An IIT Bombay Company, Mumbai.

Name of the Topic: Signal System in Emergency Healthcare and Indian Stock Market

Organized on: Wednesday, 27th April 2022, 3:00 to 4:00 pm

Objectives:

1. Signals and Systems
2. Applications of Signals and Systems
3. Mathematical Transforms used in healthcare.
4. Signals and Systems used in Indian Stock Market

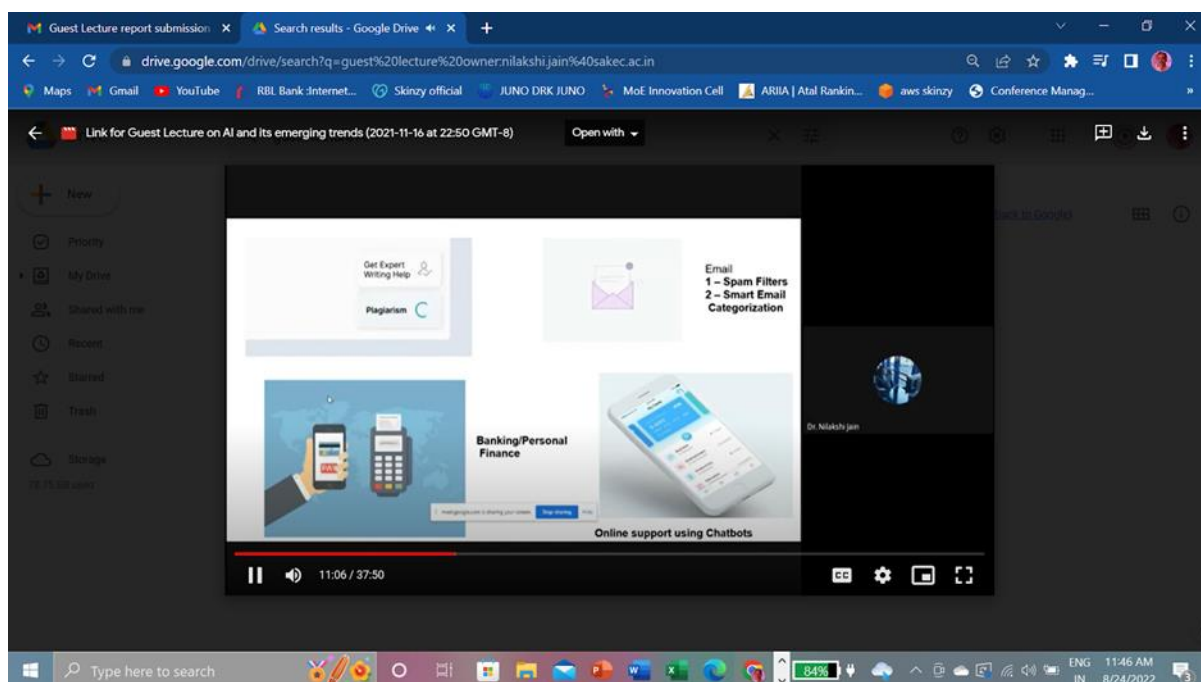

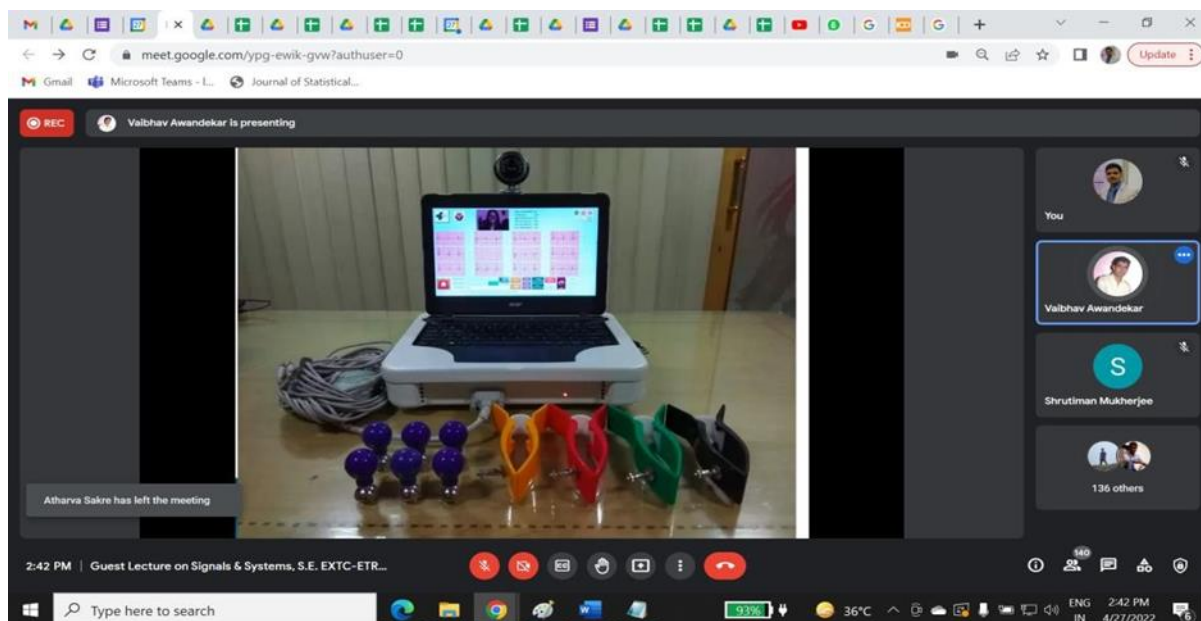

The screenshot shows a Google Meet session titled "Guest Lecture on Signals & Systems, S.E. EXTC-ETR...". The main video window shows Vaibhav Awandekar speaking. The right sidebar displays a grid of participants, including Shrutiman Mukherjee, Nikhil Binnar, Monish Rane, Hrishikesh Tawde, and others. The bottom of the screen shows the Windows taskbar with the search bar and various application icons. The Google Meet interface at the bottom includes a chat window and a list of participants.

2. Name of the Guest: D. Nilakshi Jain, SAKEC, Mumbai.

Name of the Topic: AI and its emerging trends

Organized on: 17th November 2021, 12:00 pm to 1:10 pm

Number of participants: 40 BE Comps 2021-22

Outreach Activities

Outreach activities are meant to engage a large audience and to bring knowledge and expertise on a particular topic to the general public. Outreach activities can take several forms, such as institute presentations, workshops, public talks and lab visits, etc.

Outreach activities include visiting other institutes, giving talks at assemblies, discussions with students, or participation in events such as career fairs and science and technology camps. The institute constantly encourages these activities for each faculty that includes to be a part of various academic committees at various levels in the state universities. These activities are the major contributing factor for the branding of an institute. Several such activities are presented as a detailed report for various departments.

Electronics

Sr. No.	Title of the Program
Faculty Name: - Dr. D. C. Karia	
1.	1. SP-TBI Prayas – Faculty Monitoring and Mentoring Committee Member. 2. B.E. Final year project dissertation evaluator at RGIT, Mumbai.
Faculty Name: - Prof. Priya Deshpande	
2.	1. Visiting faculty for delivering lectures on Embedded C, ARM and Interfacing for the Physics Department, University of Mumbai 2. Examiner for oral and practical exam of ESRTOS at MH Saboo Siddhiqui College of Engineering, Mumbai. 3. Re-Evaluator of Subject ESRTOS at D. J. Sanghvi college of Engineering, Mumbai
Faculty Name: - Dr. P. V. Kasambe	
3.	1. Visiting faculty for the Course of Biomedical Physics and Instrumentation, M.Sc. Part II, Sem IV at the Physics Department, University of Mumbai. 2. B.E. Final year project dissertation evaluator at KJ Somaiya College of Engineering, Sion, Mumbai. 3. M Tech VLSI paper setter at KJ Somaiya College of Engineering, Sion, Mumbai. 4. M Tech VLSI Sem II paper setter at RAIT, Navi Mumbai. 5. MBA Tech Mechanical moderator for Mechatronics System Design at NMIMS Deemed to be University. 6. Reviewer for IBSSC 2021 7. SP-TBI Prayas – Faculty Monitoring and Mentoring Committee Member
Faculty Name: - Prof. Payal Shah	
4.	1. Paper Setter and Moderator for EDC II
Name: - Dr. R. G. Sutar	
5.	1. Ph.D. Thesis Examiner for Dept of E&CE at SDMCET, Dharwad 580002

Electronics and Telecommunications

Sr. No.	Title of the Program
Faculty Name: - Dr. Sujata Kulkarni	
1	1. Invited as Keynote Speaker for AICTE sponsored “National Conference on communication, Computational Intelligence and Learning” (NCCCIL-2021) organized by Army Institute of Technology, Pune. 2. Delivered expert talk on “Research and Publication Ethics” in PhD Course work organized by Swami Ramanand Teerth Marathwada University, Nanded, Nov.2021. 3. Reviewer, IEEE Transaction in Industrial Electronics
Faculty Name: - Dr. Reena Sonsukare	
2	1. Reviewer, IEEE Sensors Journal, Analog Integrated Circuits & Signal Processing.
Faculty Name: - Dr. Sukanya Kulkarni	
3	1. Reviewer: wireless Personal communication journal
Faculty Name: - Dr. Rajendra Sawant	
4	1. Invited reviewer for SCI Journal IET Science Measurement and Technology 2. External Examiner for PhD defense at Visvesvaraya Technological University 3. External Examiner (APS)-KJSCOE Vidyavihar 4. Academic Auditor at RGIT, Mumbai 5. Invited Session Chair at MULTICON 2023(TCET, Mumbai)
Faculty Name: - Dr. Amol S. Deshpande	
5	1. Invited speaker in National webinar on "Advances and applications in Nanotechnology" organized by Govt. College, Manawar, M.P. on 8th Jan. 2022. 2. Invited speaker for a webinar at Adani Institute of Infrastructure Engineering, Ahmedabad, on 27 Aug. 2021. 3. Invited speaker on the topic “Research Areas and Engg. Applications” to Faculty members at GES's RH Sapat COE, Nasik on 10-8-21. 4. Invited speaker for an informative webinar for students of MIT, Aurangabad on 5th Feb 2022. 5. Invited as Technical Expert in Pulsed Power Supply at IPR, Gandhinagar, 30th June 2022. 6. TPC Member & Reviewer in Springer Int'l Conf. on Recent Advances in Materials, Manufacturing and Machine Learning (RAMMML-2022)", scheduled on 26th - 27th April, 2022

Computer Engineering

Sr. No.	Title of the Program
Faculty Name: - Prof. Pramod Bide	
1.	1. Delivered a session on Power BI Tool at St. John College of Engineering, Mumbai
Faculty Name: - Dr. Dhananjay Kalbande	
2	1. Auditor for Academic audit of Computer engineering department of SIES GST Smart India Hackathon 2022. 2. Resource Person for Online Elementary FDP on "Intelligent Data Analytics for Critical Infrastructure Security" 3. External Evaluator for conducting mock drill of Computer Engineering (COMP) department NBA compliance
Faculty Name: - Prof. Anand Godbole	
3.	1. Work at MPSC

Information Technology

Sr. No.	Title of the Program
Faculty Name: - Swapnali Kurhade	
1.	1. Paper Reviewer for the IEEE Conference, Bombay Section (IC-TEAM 2022) at St. John College of Engineering

MCA

Sr. No.	Title of the Program
Faculty -Dr. Pooja Raundale	
1.	1. Referee for Evaluation of Thesis at Sant Gadge Baba Amravati University 2. Thesis Evaluator at Bhartiya Vidyapeeth, Pune 3. Work as a judge for Avishkar research 2021-22 University of Mumbai. 4. BOS member for Nanavati college of home science azt 5. Expert for Seminar Presentation Evaluation at University of Mumbai 6. Expert for NBA IT Dept External Mock drill at K J Somaiya Institute of Engineering and Information Technology, Sion. 7. Expert for Research Advisory committee at University of Mumbai. 8. Worked as evaluator for Refresher Course of UGC, the Human Resource Development Centre (HRDC), University of Mumbai on the theme 'FUNDAMENTALS OF CYBER SECURITY AND CYBER LAWS'
Sr. No.	Title of the Program
Faculty -Dr. Aarti Karande	
1	1. IC awards Judge at IEEE India Council 2. Served as Toycathon Primary Evaluator for 20 hrs for Toycathon 2021 MSME, MoE. 3. Served as Ex-Com Member for IEEE Bombay section for year 2020-21 and 2021 IEEE Bombay Section

SEVA SATVA

LLC - Life, literature and culture

Holistic development of the learner giving exposure to the various courses under humanities, literature, life skills, culture, natural sciences, health, agriculture, environment, etc, nurturing the hobbies, connecting with society, reducing stress by studying other things, are the broad objectives of this experiment. Faculties are appealed to think, conceptualize, design, and suggest minicourses of 1 credit (ensuring 30-40 hours of work by students) for possible inclusion in the list of approved courses under “Social Empowerment through Various Activities” (SEVA) / Self Accomplishment through Various Activities” (SATVA) umbrella. The indicative list of SEVA/SATVA courses is prepared in articulating the said structure.

We have introduced the SEVA/SATVA courses in our curriculum. These are a sort of liberal learning courses in various domains such as Art and Culture, Physical and Sports, Spiritual and Philosophical, Innovation-Entrepreneurship-Leadership, Social Connect and Giving back to society. Earlier, this was available at SPIT to some extent, in the form of Life Skill Courses. Interestingly this fits perfectly in the NEP philosophy being deliberated and scheduled for implementation by 2030.

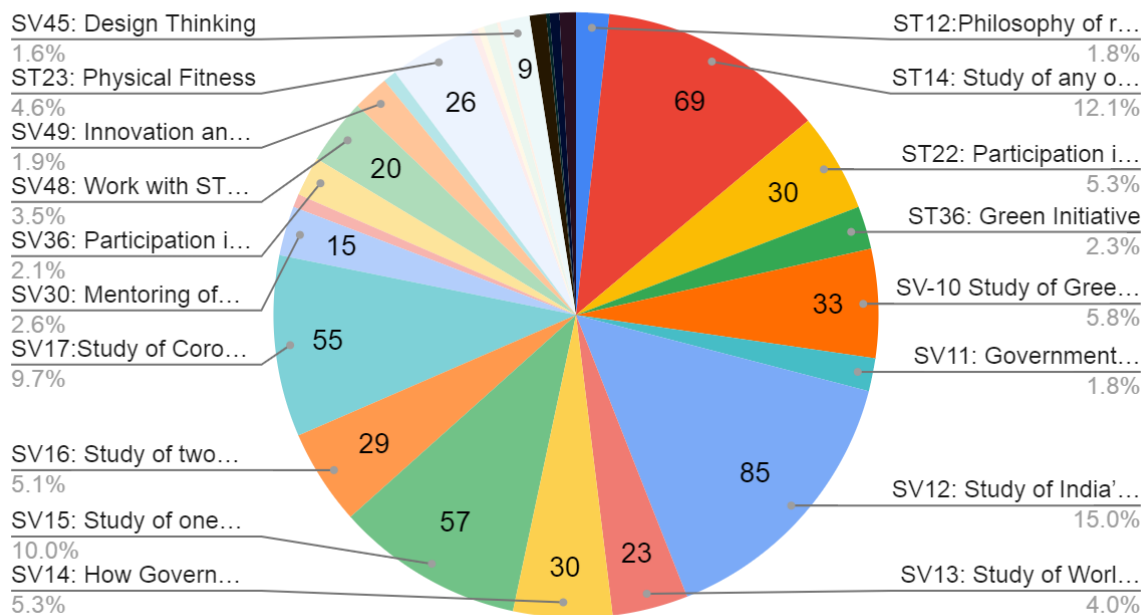

During the pandemic we could not offer these courses in the spirit. Now, since the institute has resumed the in -person T-L-E process, a systematic and serious implementation of SEVA/SATVA courses is the need of time. We are offering several courses such as follows:

Many of which will take place in offline mode. Besides these, few self-study courses will also be offered. We open this basket to students. Some courses may get dropped. Every semester @ 1200 students will enroll for more or less @ 25 such courses. Mostly external experts/mentors will be invited to teach/mentor for these courses. Implementation of this demands careful and sincere management efforts. For most of the courses, instructors are identified, and internal coordinators are given. It is envisaged that a team of faculty members for each course may be sufficient to manage this effectively with one coordinator at institute level. It is a new and challenging experiment and may have an interesting impact on education. We will have to analyze the impact if any.

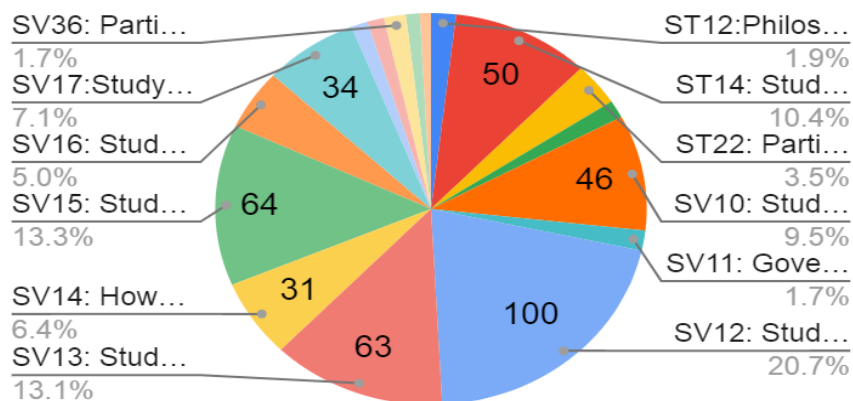

Though we have named these courses as SEVA/SATVA courses in our curriculum we will formally change it to LLC (Liberal Learning Courses). We shall try to offer diversified LLC on LLC (Life, literature, and culture). We can tag it as, "We offer LLC on LLC, at SPIT.". This is a tiny step towards holistic development of the learners, and us too in this process. We all have joined hands to make this a fruitful exercise, truly successful with the motto let us experiment, let us learn...

Internship

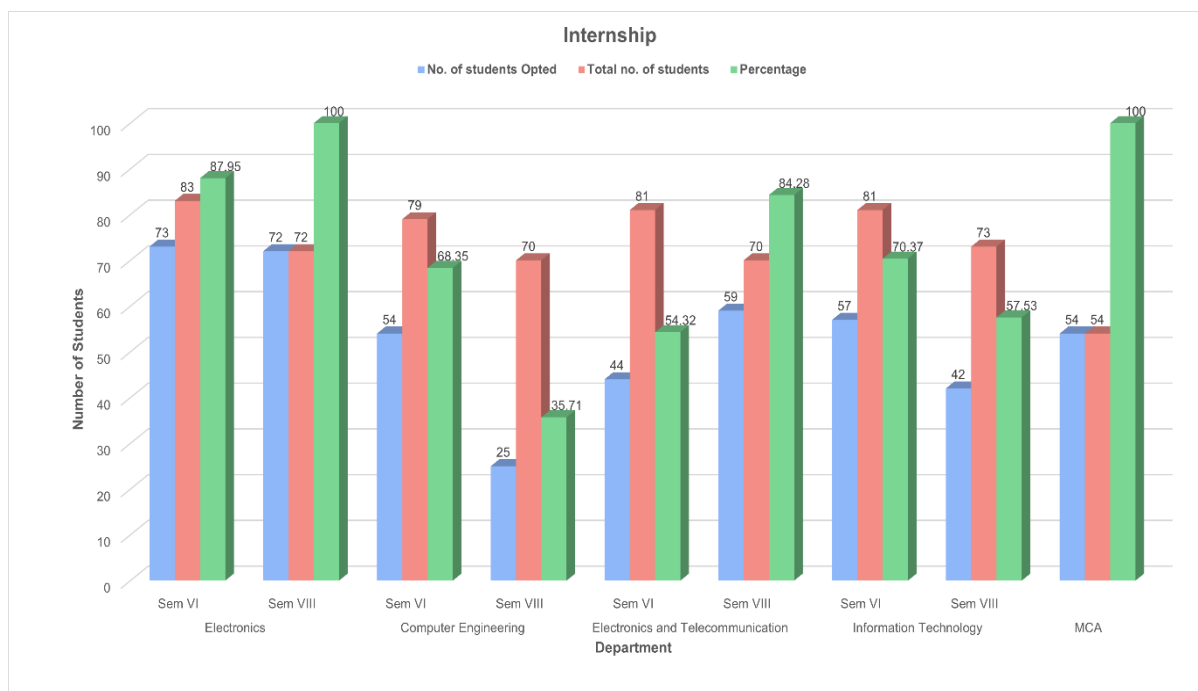

Internship: Industry Institute for Training

S.P.I.T. offers unique, flexible, globally competent curriculum aiming holistic development of learners. New and updated curriculum under autonomy provides flexibility for Semester Long Internships. The new curriculum caters to industry expectations in India and the world. This ensures students learn state of the art technologies and are therefore easily absorbed in the industry. The syllabus also offers students to complete a six-month internship, even before graduating. This gives students industry experience, along with theoretical learning in classrooms. The holistic development is targeted through several open electives, humanity electives etc. An optional semester long industry internship/research internship is another strong feature of this program.

List of Students Placed for 2021 Batch

Different inhouse and outsourced industry training programs are regularly arranged to bridge the gap between Industry and Academia and to make the student industry ready with various cut-edge technologies. Internships for students: Our Institute encourages the students to take the internship at various companies and organizations. The Placement cell provides all necessary help to give internship support to all interested students.

Branch	Semester of internship	Number of students Opted	Total number of students	Percentage
Electronics Engineering	Sem VI	73	83	87.95
	Sem VIII	72	72	100
Computer Engineering	Sem VI	54	79	68.35
	Sem VIII	25	70	35.71
Electronics and Telecommunication Engineering	VI	44	81	54.32
	Sem VIII	59	70	84.29
Information Technology	Sem VI	57	81	70.37
	Sem VIII	42	73	57.53
MCA	Internship Part 1	54	54	100
Total		480	663	72.40

Internship

Placement

The Training & Placement Department of Sardar Patel Institute of Technology has been in the forefront of activities, bringing corporate close to the campus and encouraging them to establish facilities to cater to the needs of the students. It plays a pivotal role in counselling and guiding the students for their successful career, which is a crucial interface between the stages of completion of academic program of the students and their entry into the job market. Its aim is to provide career guidance and placement opportunities to all students studying in the institute. Training and Placement Department arranges and coordinates various programs that aim at moulding the students to meet the industry expectations in their career building and in turn bring laurels to the parent institution. The department sincerely believes in imparting comprehensive training to the students to face the challenges of the dynamic and demanding job market and build a successful career for themselves.

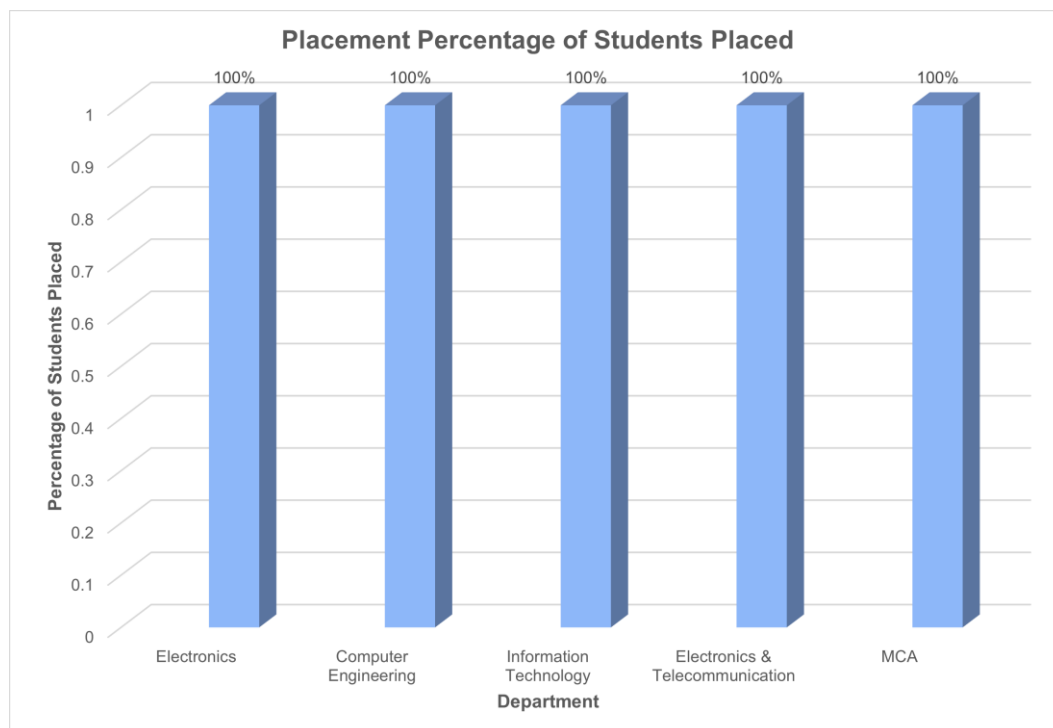

Career Guidance & Training Programs

Due to the Career Guidance & Training Programs offered, S.P.I.T. has been consistently achieving 100% placement since the last few years and the average package for the last placement round was 11 lacs, the highest being 42 lacs. This is commendable considering the average package in India for placements for engineering graduates is 4.5 lacs.

Description of Events:

1. Getting yourself published

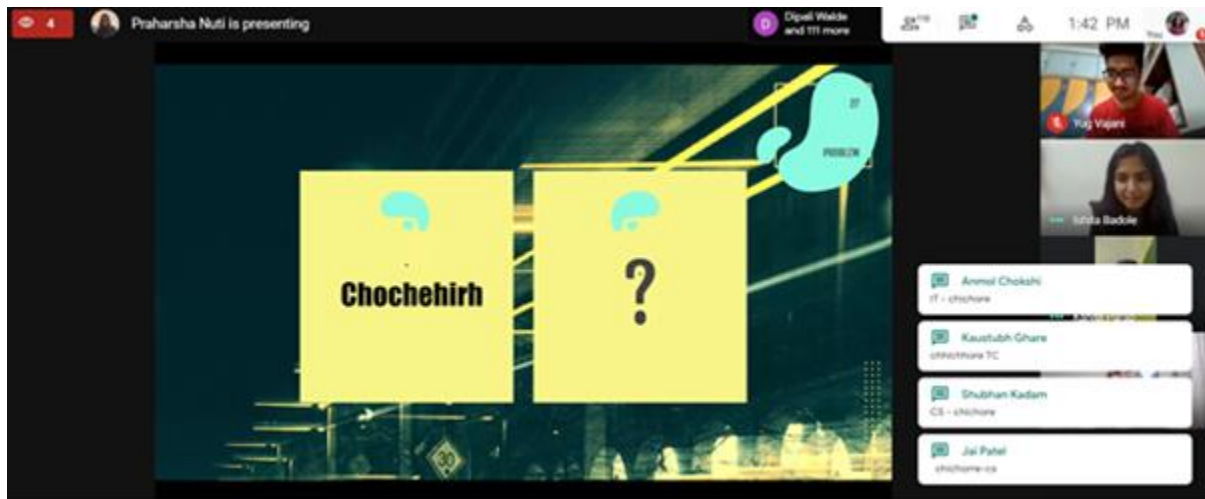

Speaker: Ms. Neha Agarwal has done her BE from RV College of Engineering, Bangalore, ME from NTU. She worked as an Engineer at Exxon Mobil. She served as the General Secretary MSE NTU and the Communication Coach NTU.

Event Summary: The listeners were kept in attention by the powerful words and the personality of the speaker. They got an into depth understanding of how to write research papers and the conferences which are held. A greater insight was provided into the different sections of the research papers which are there, the speaker also elaborated on the methodology of presentation to the general public. Students were taught the correct method for writing an abstract and how to avoid plagiarism. Lastly the students got personal interaction with the speaker and also got to know on how to deliver a scientific presentation.

2. Aarambh

Event Summary: The event began with an introduction by the host, Praharsha Nuti, the Chairperson of IEEE SPIT and Ishita, the Cultural Secretary. The first-year students were encouraged to interact with the seniors. The first performance was by Ankit Vishwakarma who performed his original Beat Boxing song. Everyone enjoyed the performance. There was lots of discussion in the chat box. Praharsha then explained the rules of the games. The first game was English Vinglish in which the names of Hindi songs were translated in English and the students had to guess the movie. This was followed by the second game Main Hu Emoticon in which the names of hindi songs were encoded in emoticons and the students had to guess them. The students were encouraged to perform in exchange for extra points for their branch. Lots of people came forward and sang Hindi Songs, English Songs, played Guitar and rapped. This

was followed by the next game Guess Who in which the description of a fictitious character was given and the students had to guess. In the end there was a tie between the Computer, IT and EXTC branches. So, as the tie breaker a music video was played with the audio of another song and the students had to guess the name of the song in the video. In the end the game was won by the Computer Department. All in all, it was a super fun event for everyone.

3. Robotic Process automation

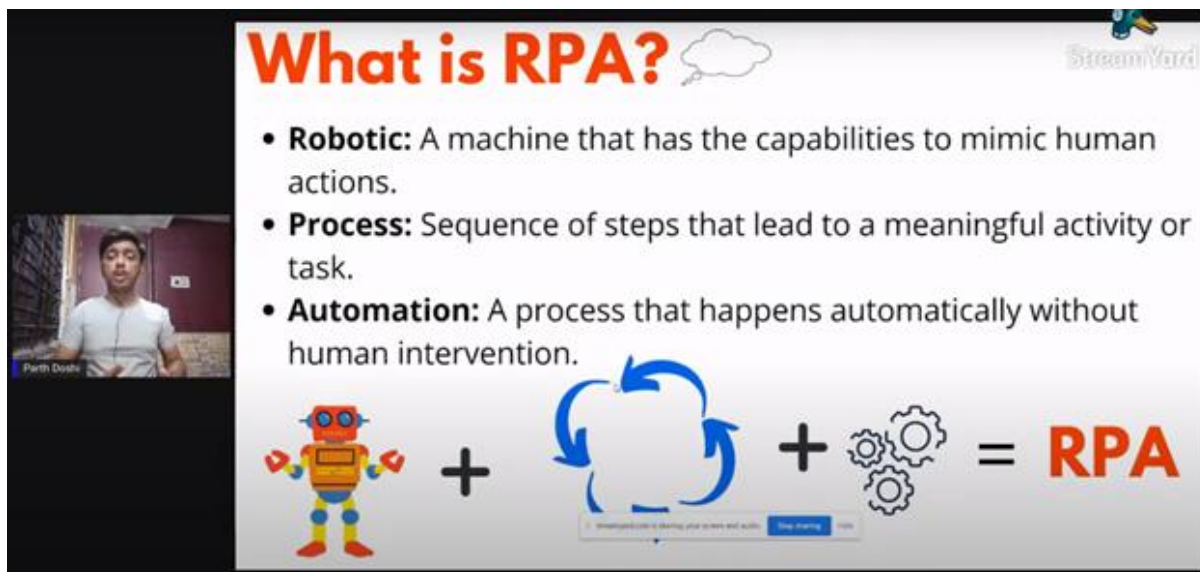

Speaker: Mr. Parth Doshi is currently working as an RPA developer at Worley. He also creates content related to RPA for the youtube channel UiPath. Mr.Parth is also a Udemy instructor

Event Summary:

IEEE S.P.I.T organized a webinar on ‘Robotic Process Automation (RPA) on 7th Feb 2021. It was a highly esteemed event wherein our speaker Parth Joshi gave an introduction about robotic process automation. The event went on for a duration of one. It began with Mr Parth discussing the agenda for the whole event. It was followed by an in-depth explanation of robotic process automation right from its history to its current significance. He also gave insightful information which was highly useful to the listeners. He gave a few examples to explain in a very different and interesting way which kept the audience hooked onto his speech.

Mr. Parth then explained why RPA is important in this modern time, he then also clarified the myths about RPA. He gave a detailed explanation about different tools of RPA. He then also mentioned about the companies who use RPA and how one can take advantage of this in their career. He then talked about his community, which he built called UIPath. UIPath was a medium through which one person can easily learn about RPA.

The event concluded with questions from the viewers which were answered in a very clear manner by the speakers. It was a wonderful opportunity for all the students to get to know more about RPA and its importance in the current industry.

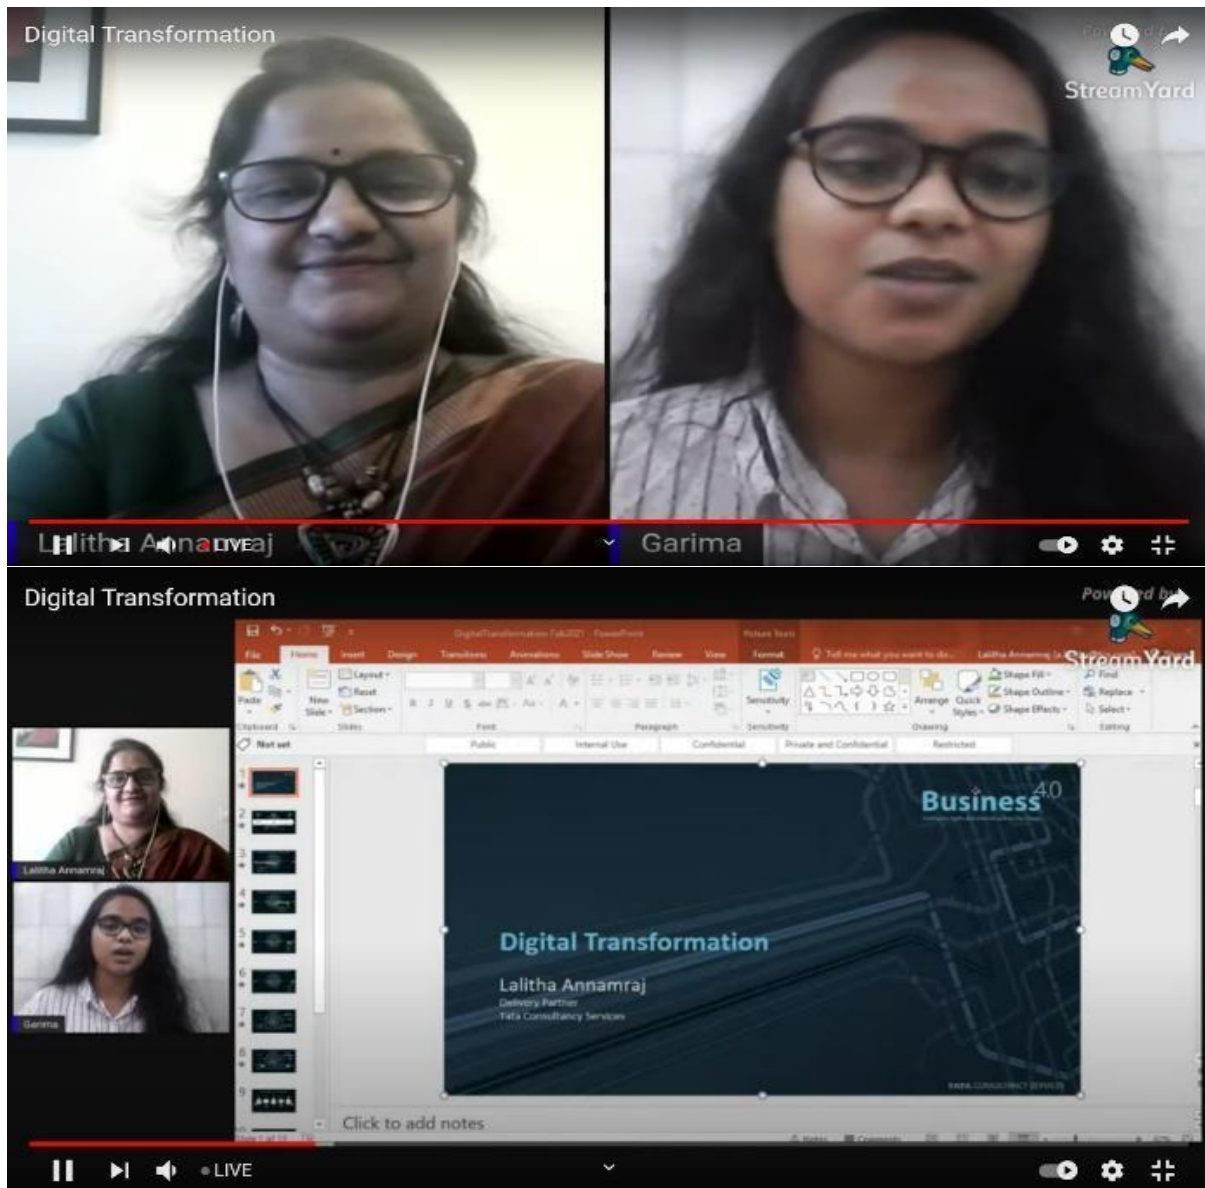

4. Webinar on Digital Transformation

Speaker: Mrs. Lalitha Annamraj is currently heading the Digital Transformation program for India's number One Private Bank. She has successfully delivered 5 large Digital Transformation Programs in Banking and Telecommunications Industries. Mrs. Lalitha Annamraj is a Practitioner of distributed Agile Methodology for faster deliveries. Her expertise is in business strategy and application design spanning around 10 years across Telecom and Banking Industry.

Event Summary:

On the bright Sunday evening of 21st February, 2021, the webinar started off with Garima Gupta, Head of Public Relations of IEEE SPIT, introducing the speaker for the event, Mrs. Lalitha Annamraj. The speaker, started with a few examples that we could connect to especially in the pandemic era. She then moved to the 5 well known business giants known to us which are very well connected to the concept of Digital Transformation. While getting to know more about how these giants work, they were later introduced to the various types of industries and how technology has affected them.

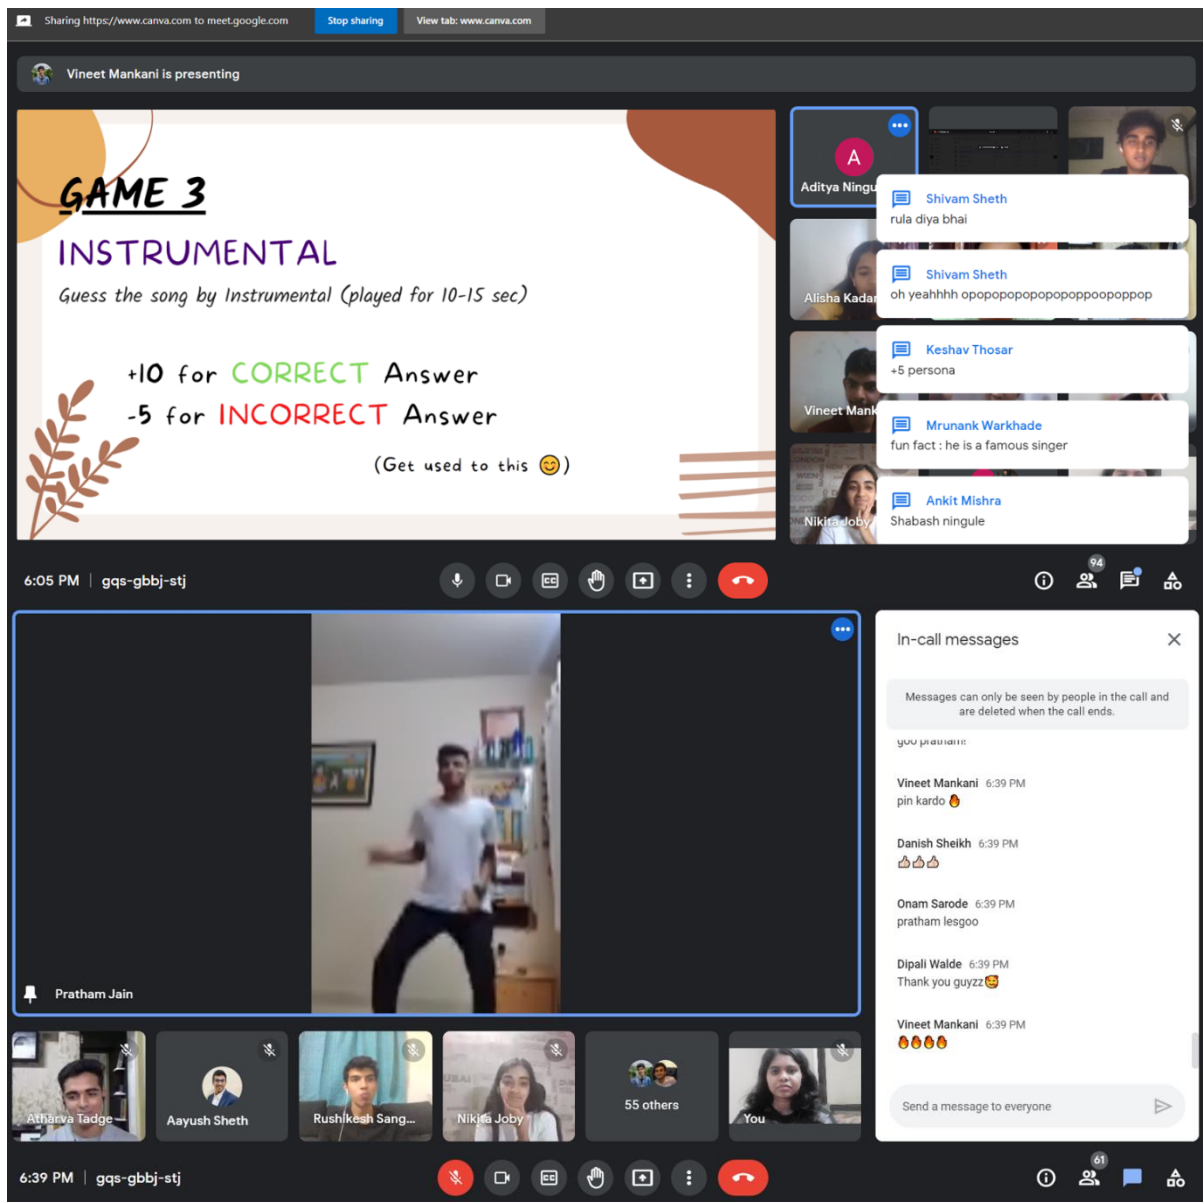

Mrs. Annamraj also explained how identifying the target audience is an important aspect of every business and the various domains that need to be considered in it. Moreover, she also pointed out to how big sale days on online shopping platforms can lead to a greater number of customers being attracted than even anticipated following which she explained the need to devise a method to manage the received numbers where the speakers were introduced to the concept of cloud. Furthermore, the role of AI in customized advertisements was also thrown light on. While ending the extremely informative webinar by highlighting the various skills students must possess to flourish in this area, the floor was flooded with questions from participants to which Mrs. Annamraj answered with a lot of enthusiasm. The evening was concluded on a high note with the host thanking the speaker as well as all the participants.

5. Aarambh

The event began with an introduction by the host, Rushikesh Sangole, Head of Strategy at IEEE SPIT and Vaishnavi, Head of Creatives. The first-year students were encouraged to interact with the seniors. Juniors opened up to seniors as they took advice regarding various things and after fun interaction the team started the game. Vaishnavi then explained the rules of the games. The first game was English Vinglish in which the names of Hindi songs were translated in English and vice versa and the students had to guess the songs. This was followed by a second game, Emotikaun, in which the names of songs/ movies/ dialogues were encoded in emoticons and the students had to guess them. Juniors were encouraged to perform in exchange for extra points for their branch. A lot of students came forward to showcase their skills. This was followed by the game Instrumental wherein the students had to guess a song by the instruments. The next session began with a bang as it was a Meme challenge. In the end the game was won

by the Computer Department. All in all, it was a super fun event for everyone. The juniors guessed all the answers rapidly and it was a tough fight among all the branches. At the end the event concluded with a fun jam session where the members as well as juniors came together to perform. Guitar performance by Harsh, member of IEEE, set the mood for the further performance which included melodious songs and graceful dances.

6. Human Library Series: Book 1

Event Type: Humanitarian

Event Date: 27/6/2021

Event Time: 7:00 PM IST

Name of Speaker: Mx. Ria Sharma

No. of Participants: 29

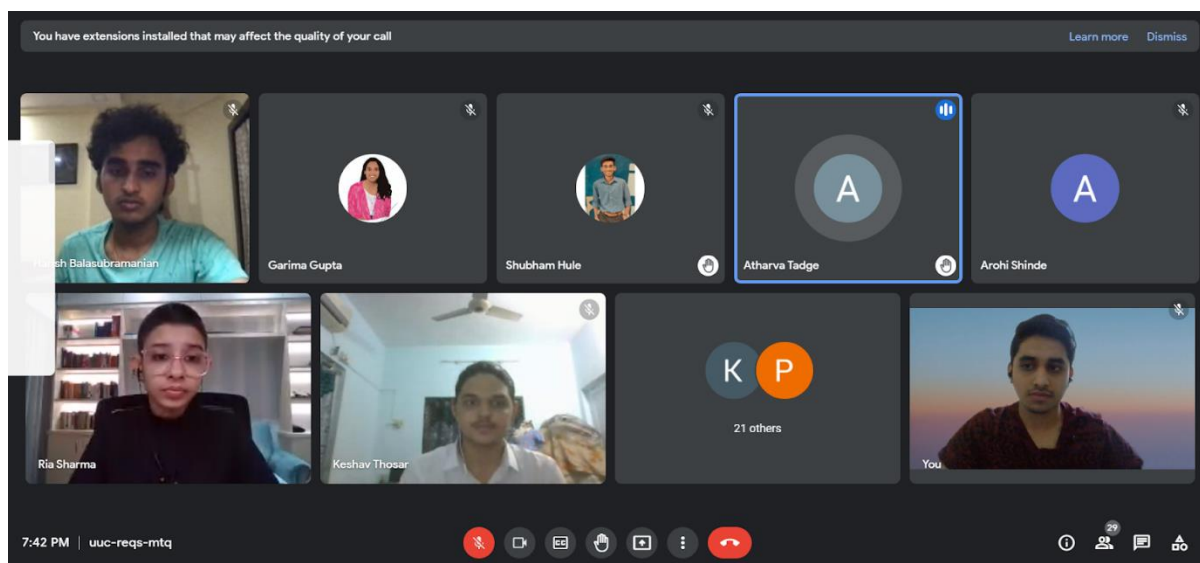

Introduction of the Speaker: Mx. Ria Sharma a proud member of the queer community, a TedX speaker is a human rights youth activist and educator who stands for the principles of equality, humanity, and justice.

Summary of Event:

With the aim of creating awareness about ‘learning to un-judge’ someone and the importance of developing empathy to deepen people’s perception of diversity within all aspects of society IEEE SPIT organized an interactive webinar with Mx. Ria Sharma. The event began with Ria starting with their introduction and explaining the phrase “Meditation of your true self” which was used during the promotion of this event. They mentioned how they were told that they are a woman from childhood just because their physical appearance and processes were considered as a woman thing. They mentioned how they never felt like a woman and realized that they are gender fluid at the age of twelve. Initially, they felt it dirty because of the improper representation of the LGBTQIA+ community back then. They shared how they faced bullying and discrimination. They told how they talked with themselves standing in front of the mirror and understood who they really were. Further, they told they belonged to a privileged family and every male member supported them throughout their journey. Later they mentioned how the LGBTQIA+ community was represented inappropriately in pornographic films and how TEDx was the only platform where they were represented correctly being her reason for being a TEDx speaker. further, they mentioned how they had the worst breakup and took all the confidence they had but later they understood who they were through spirituality and meditation. They understood that life is a pilgrimage through meditation.

The webinar transformed into a very interactive session when the floor was opened for questions and answers, where Mx Ria Sharma answered each and every question beautifully. The session seemed so interesting that the hour-long webinar was further extended more for about forty-five minutes. At the end of the webinar Keshav Thosar, Technical head of IEEE SPIT paid gratitude to all those who took their time out to attend the session, especially Mx Ria Sharma who graced the event and very precisely and beautifully answered all the questions which all attendees have had regarding the queer community and for making the event a huge success.

7. IEEE Entrepreneurship Bootcamp 2021

Event Summary:

IEEE entrepreneurship bootcamp 2021 was launched jointly with Sardar Patel Institute of Technology, Mumbai, Vidyalankar Institute of Technology, Mumbai, Sandip Institute of Technology & Research Centre Nashik, and Naman Angels India Foundation to trigger the entrepreneurship bugs in the minds of young budding professionals. The event had 4400 registrations from different cities and states around the nation. A total of 4050 students, 248 Faculty and 92 Professionals registered for IEEE Entrepreneurship Bootcamp 2021.

The bootcamp program was a mix of **Training Sessions** on Entrepreneurship **Fireside Chats**, **Heart-to-Heart Talks**, Inspiring **Founders' Speech** by successful start-up founders and Activity Canvas.

Day 1: 5/7/2021

The event was officially started by the virtual ribbon-cutting ceremony by Mr. Rahul Chari, Founder & CTO, PhonePe followed by opening remarks by Dr. B Satyanarayana, Chair, IEEE Bombay Section, Scientific Officer, TIFR, Mumbai where he noted that advances in technology for the betterment of humanity is the tagline of IEEE that has come up very well in its work as no matter what we innovate the ultimate beneficiary is the common man.

Mr. Anand Gharpure, chair-elect IEEE Bombay Section declared the beginning of the entrepreneurship bootcamp 2021. Dr. S.T. Gandhe, Dr. Vikram Patil, Dr. Saurabh Mehta, Mr. Abhay Phansikar graced the audience with their presence.

Day 2: 6/7/2021

Mrs. Neelam Kamthe, Asst. The Director of 'Bhartiya Vidya Bhavan' started the first session focusing on the topic "NEEDS & WANTS". The next part of the session was Maslow's hierarchy of needs, followed by a session of Pranav Chawre, co-founder of VMOSA, who explained about his own start-up G.O.D i.e. Guruji On Demand, which is a platform to book rituals in simple steps.

Day 3: 7/7/2021

Mr. Dinesh Israni, Founder Director Naman Angels India Foundation explained common pitfalls one should consider and look out for, initially before starting any start-up. The next session was by Mr. Sahil Ghughe, Student Entrepreneur, Fitness Freak which gave insight about his startup and motivated all the participants to be an entrepreneur.

Day 4: 8/7/2021

Mr. Vikrant Potnis, founder of Fortmega Pvt. Ltd. gave a comprehensive understanding of a business model and gave various major points on why start-ups fail. The next session was by Mr. Pankaj Sikka who gave a talk about start-ups and stated the 4 P's essential for a start-up are: Permission, Planning, Practice, and most importantly Perseverance.

Day 5: 9/7/2021

Chandrabhan Singh, Chief Operating Officer at Sardar Patel Technology Business Incubator, focused on the importance of Business Plan, followed by a session on Fireside Chat by Aparna Mishra Founder-Editor, Women Shine, Business Coach & Mentor, where she spoke about her journey to start her startup and how she overcame all the hurdles. Mr. Dinesh Israni conducted an activity on making a Business Model and writing a Business Plan for the idea that we have in our minds.

Day 6: 10/7/2021

A session regarding Intellectual Asset Creation and all about patents was conducted by Abhishek Pandurangi followed by a session on Trademark and Copyright by Siya Lala. The creation of intellectual assets was the assigned activity of the day as briefed by Prof. Talele.

During these six days of event, there were varied activities which were conducted starting from understanding one's inner-self and putting it in a video to penning down their needs and moving to understanding their wants. A case study was done on the journey of an entrepreneur of a local company from zero to hero. Finally, a Business Model was made for their idea and a formal Business Plan was documented. IEEE Quiz was conducted on all days of Bootcamp to encourage active participation. The first person with the maximum score was declared as the winner. The winners of the Quiz were from different parts of India.

8. Let's connect: Build yourself on LinkedIn**Event Summary:**

Event Type: Professional

Event Date: 08/08/2021

Event Time: 11:10 AM IST

Name of Speaker: Mr. Bhushan Talekar

No. of Participants: 150

Introduction of the Speaker:

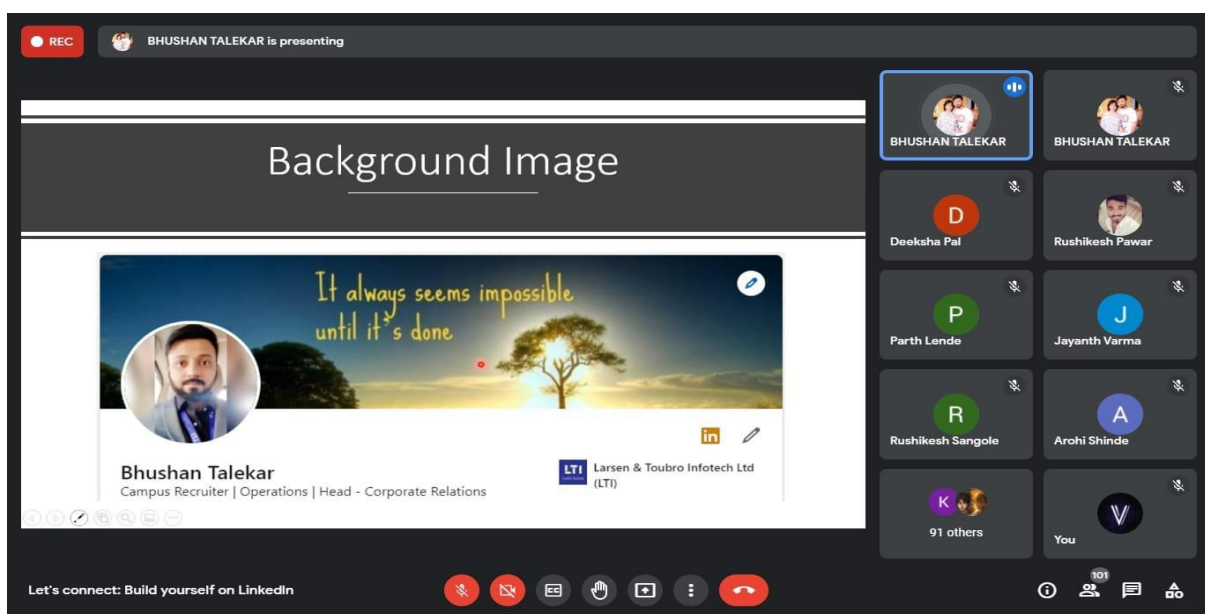

Mr. Bhushan Talekar works currently in Larsen & Toubro Infotech Ltd. He is also a campus recruiter and head of Corporate Relations.

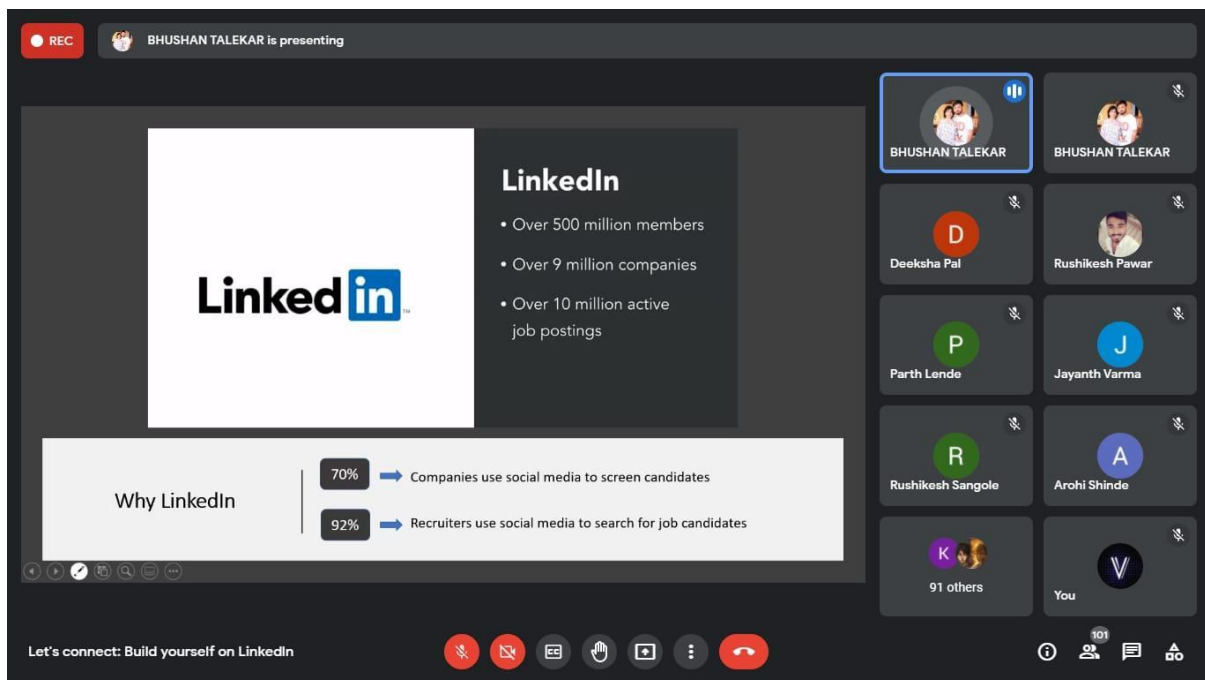

Summary of Event: The session by Mr. Bhushan Talekar gave a comprehensive understanding of how to go about your LinkedIn profile to build your career. He began by stating the agendas of the event, about how students can make the best use of LinkedIn and what kind of role it will play for students and in their careers. He started off the event with a quick fun pole to get to know the audience and their general knowledge about what LinkedIn is.

He further explained the objectives of the event i.e., setting up a great LinkedIn profile that will stand out which was very important as most of the crowd was of First Years who didn't have much idea about it. Furthermore, he explained why every student should have a LinkedIn profile, the reason being '70% companies use social media to screen candidates and 92% recruiters use LinkedIn to search for job candidates. He also explained the difference between resume and LinkedIn profile and how LinkedIn has an edge over one's resume, which is the most common doubt of every student.

The key points while making a LinkedIn profile-starting with the profile picture which should be a professional one. A background image. Next is the Headline which is very important to tell what we do, or for a student, we can use this to show what we are passionate about. A heading should be a one-liner. The summary should consist of interests, skill set, and area of expertise. It should consist of keywords that will help make you more visible. The feature section is to show your work, vlog or projects. The skills section should be with things you are good at and should be filled by making 'you uniquely you. Recommendations can be very important to boost your LinkedIn profile. Following these key points will help one make a great LinkedIn profile.

Then the speaker explained how one should have a connection with alumina and how one can search for alumina on LinkedIn. The event further went with a Q & A with the speaker. Sir took all the doubts regarding LinkedIn. It was quite an interactive session. The IEEE members thanked Mr. Bhushan Talekar for his time and knowledge. Altogether the session proved to be quite insightful and helped us gain Knowledge about LinkedIn.

<https://www.instagram.com/p/CEjD1m2HHbR/?igshid=15d5t7gb87wxo>

With the aim of creating awareness and shining a light on ‘**casteism and its issues in our society today**’, and celebrating India’s platinum jubilee on this Independence week, IEEE SPIT organized an interactive webinar with **Dr. Avkash Jadhav**.

The event started with Sir asking all the participants to introduce themselves and give one thing they like about their country to make it an interactive event. Further, he explained how the events will be divided into 2 parts. Starting with the background and history around the caste system and next with how it has changed over the years.

The event started with sir explaining a wonderful quote by Swami Vivekananda, ' **A soul has neither sex nor caste nor imperfection**'. He explained how the caste system was formed. The mindset with which it was started and how one section of society was told that they are the base of society which means they are inferior, and the hierarchy was created. They were told to do the specific roles and had to follow them, irrespective of one's interests. The caste system started emerging close to 700 BC. Four sections of societies were made. Sir gave many examples of how badly everyone treated the lowest varna and how difficult it was to live even a normal life. The situation was so bad that even the lowest varna's shadows shouldn't touch the upper caste varnas.

These practices went on for years and years. They were deprived of buying land, having good quality food, drawing water from wells, and performing rituals. There was no one to fight for this exploitation. He gave many examples of how much exploitation was done on the low caste section, on girls, etc. He explained how Dr Babasaheb Ambedkar helped the community, how he has done wonders in social equity, and how he always challenged all the injustices happening to just one section of the community. Sir gave many examples from which he explained how casteism works and how it has changed in today's life. He also talked about reservations and their purpose back in the day. He ends by giving yet another wonderful quote by Edwin Ellen '**There is no caste in blood**'.

The webinar transformed into a very interactive session when the floor was opened for questions and answers, where Dr Avkash answered and explained each and every question beautifully. The session seemed so interesting that the hour-long webinar was further extended for about twenty-five minutes. There were many questions by the participants coming through and all their doubts and queries were solved by Sir. At the end of the webinar, the IEEE SPIT team paid gratitude to all those who took their time out to attend the session, especially Dr. Avkash Jadhav who graced the event and very precisely and beautifully answered all the questions which all attendees have had regarding casteism and for making the event a huge success.

9. Teacher's Day

On the occasion of Teacher's Day, IEEE in collaboration with the Student Council organized a fun event for all the Professors. The event was hosted by Siddharth, Secretary IEEE SPIT and Sumeet General Secretary, Student council.

Siddharth and Sumeet welcomed the teachers and acknowledged their contribution and expressed gratitude to them for working tirelessly to keep our academics running smoothly. The event began with a beautiful performance by Aditya Harsora who played Kal Ho Na Ho on the keyboard. Then Sruthi soulfully sang a mashup of nostalgic songs that was mesmerizing to listen to. Then it was time for the teachers and students to switch roles with the games. The teachers were divided into 4 groups named as ल se lajawab, ब se badhiya, अ se adhbhut, ग se gajab and they had to compete with each other in four games. The games included Trivia Round where the teachers had to guess Hindi songs from the English translation of their names. The 2nd game was Emoji Round in which they had to guess the names of the song from a sequence of Emoticons. Then was Dialogue Round in which students acted out dialogues from famous movies and the teachers had to guess the names of that movie. The final game was Instrumental Round where instruments were played and they had to guess the song.

10. IEEE Membership Drive

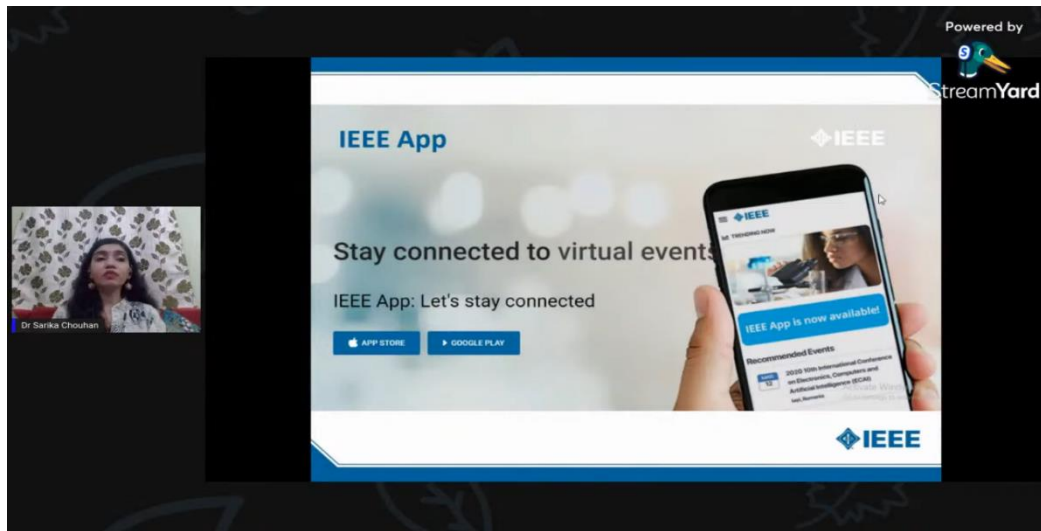

Dr. Sarika started by explaining what IEEE exactly is, its history, and how much it has its dominance all over the world. IEEE was founded in 1967 and has 58 sections, 34 sub sections, and 6 councils. IEEE S.P.I.T belongs to the Bombay Section. IEEE members will then be a part of the world's largest association of technical professionals. Dr. Sarika then started to explain IEEE Membership Benefits, which includes technical support, professional networking, careers and recognition, continuing education, member discounts, humanitarian programs, and many more.

For Technical Content has 3 things that will help the IEEE members i.e., IEEE Spectrum, IEEE Xplore, IEEE member library. Members can get resources at a lesser cost. For Professional Networking, once we create an account on IEEE Collabratec, one can have access to people, communities and networking in the tech world all over the world. This gives a lot of opportunities to create a professional network and work with people in your domain. This comes free to all IEEE members. When it comes to Career and Recognition, IEEE gives a platform since there are a lot many careers focused webinars happening. There are also mentoring programs where one can find a mentor in a particular field. IEEE also helps to find job sites. IEEE also conducts various Entrepreneurship programs. There are also various award programs. There are also various IEEE resume labs free for members. IEEE also helps in Education; it has various E-learning online programs. IEEE membership offers member discounts on all its products and services like financial, travel, insurance, etc. There are also various Humanitarian programs. Google apps are also free with no additional cost for IEEE members.

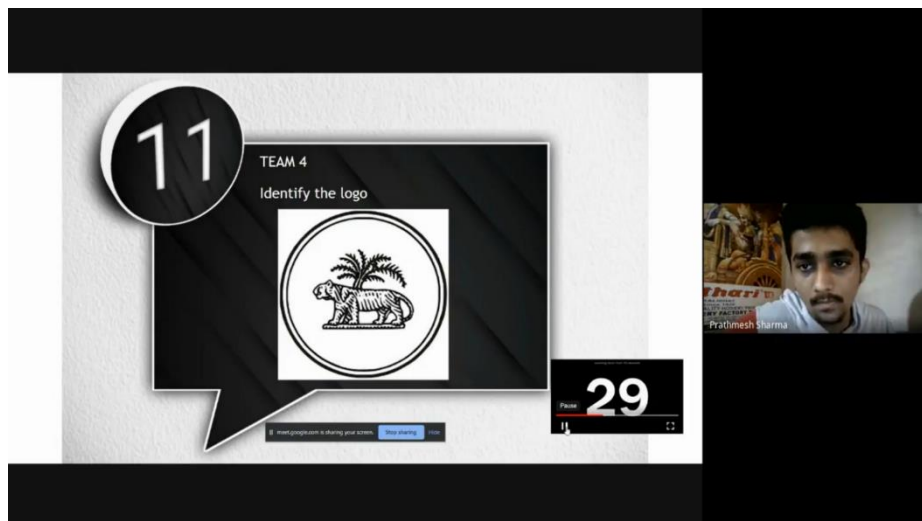

To know more about the benefits of IEEE membership visit [IEEE.tv](https://www.ieee.tv). Membership Experience Channel. One can also visit its Facebook, Instagram and Twitter handles. There's also an IEEE app to stay connected with virtual events on playstore as well as app store. IEEE also has many scholarships offered to students. There are also student congress and volunteering opportunities.

There are also various student awards. There are various global contests for programming, webdev, etc. IEEE also offers various Funding opportunities as well.

The webinar transformed into a very interactive session when the floor was opened for questions and answers, where Dr. Sarika answered and explained each and every question clearly. There were many questions by the participants coming through and all their doubts and queries were solved by Mam. At the end of the webinar, the IEEE SPIT team paid gratitude to all those who took their time out to attend the session, especially Dr. Sarika who graced the event and very precisely explained IEEE membership benefits and beautifully answered all the questions which all attendees have had regarding IEEE membership and for making the event a huge success.

11. IEEE DAY CELEBRATION

The logo making registrations began on the 6th of October and continued until 8th. The theme for the same was Advancing Technology & Engineering. Considering the theme of this Year's IEEE day was *Leveraging Technology for a Better Tomorrow* we decided to keep the logo along those lines. The response was good and we received quite a few innovative Logos. The top 3 were felicitated with cash prizes and certificates while the top 5 entries were posted on IEEE and Wie's social media handles. In order to appreciate their efforts all participants were given participation certificates. The following Saturday, on 9th October a quiz on Indian Technology and Culture was conducted as a stress buster activity and at the same time increased the knowledge of participants regarding growth of Indian technology and culture. There were 5-6 registered teams that battled it out with their wits in order to gain the maximum points. The participants had participated individually or in teams of 2 or 3. The team leader of each team had to guess the answer whenever the turn for their team came. There were questions on famous Indian authors, artists, scientists, institutions, places, food etc.

There were MCQ and pictorial rounds. In the MCQ round the participants were given clues regarding the question and they had to guess from the given options.

12. IEEEExtreme Tips & Tricks

Mr. Sourabh Soni started by giving out details on how IEEEExtreme was initiated for coding enthusiasts with pieces of information about the 24-hour event which is open to the international committee. The competition is hosted simultaneously around the world either virtually or in supervised venues. He explained what makes it unique as it is one of the largest competitive programming events with 9000+ participants over 75 different countries all over the world. The quality of the competition is carefully curated by hundreds of IEEE volunteers.

He then gave insights on the format of the competition. The teams need to gather in each venue and login on to the contest platform before 00:00:00 UTC on the competition day. The 24 hours competition will start with a few challenges with 1 to 2 questions added every one hour and the participants can code in 25+ different languages. There will be no penalty if submissions are absent or the amount of time one takes for each problem. The points were awarded as per the difficulty of the problem with 30 points being awarded for correct answers along with extra 70 points depending on the difficulty of the task and the approach of each individual team.

He then beautifully explained how diversified the event has been by showing the winners of IEEEExtreme 14.0. He shared a few tips on how participants should be active to not miss out any problem statements as they might lose the chance of availing the benefit of easy questions. IEEEExtreme traces back its history to 2006 when it conducted its first event with 44 teams, successfully hosting 4138 teams in 2019 and 3722 teams in 2020.

To participate in the IEEEExtreme event it is mandatory to have IEEE membership. All IEEE student members can register for the event. The maximum number of participants in one team is limited to 3 and it was recommended to comprise the team with members from the same student branch. Each team will have a proctor to supervise the 24 hours programming competition. The team members must solve the problems without assistance from other team

members. It is mandatory to have a proctor in confirmed status else they will be denied prizes and participation certificates.

Mr Sourabh Soni then pointed out that the benefits of participating in the event like building your network with a global programming committee, increasing your personal confidence and receiving feedback on the skills need to be developed for further endeavours. The prizes for the top three contestants include cash prize and various other benefits along with participation certificates for everyone. He provided links and descriptions for contenders to get acquainted with the problem statements.

He then shared his own experience on the 24 hours event providing details about the impact of plagiarism. Even though participants can take ideas and surf through the net, plagiarism will lead to disqualification. The registrations start from 2 Aug 2021 till 16 Oct 2021. The tentative date of the competition is 23rd Oct 2021 (00:00:00 UTC - 23:59:59 UTC). Official result dates announcement took upto 4 to 5 weeks.

The webinar transformed into a very interactive session when the floor was opened for questions and answers, where Mr Sourabh Soni answered and explained each and every question clearly. At the end of the webinar, Keshav Thosar, IEEEExtreme ambassador for IEEE-SPIT, paid gratitude to all those who took their time out to attend the session, especially Mr Sourabh Soni who graced the event and very precisely explained IEEEExtreme.

13. App It Up

App It Up was two parts event consisting of a webinar on the introduction of app development followed by an app development competition where participants had to develop applications based on the provided problem statements. They were assigned mentors as well to guide them.

Speaker: Mr. Sudarshan Bhatt is currently working at Tata Consultancy Service INDIA, Mumbai as I.T Analyst (Android Developer) and Technical Lead for HDFC Mobile Banking App. He has 7 years of experience in Android App Development.

Event Summary: The event began with the introduction of the speaker by Garima. Then Mr. Bhatt began by explaining the different types of applications. He explained what are native, cross platform, hybrid and web applications. He spoke of how to get started with app development and also spoke of Android Studio. He next spoke of some useful tips for beginners. He spoke of the huge demand of application development due to the banning of Chinese Apps by India. He explained about the various languages that can be used for app development and their advantages and disadvantages including Java and Kotlin. He briefly spoke about IOS App Development as well. He discussed about Flutter vs React Native and how to incorporate IOT and AWS in applications. He shared various resources to get started with app development and also encouraged people to use StackOverflow to clear their doubts. This was followed by a very interactive question and answer session.

14. Panel Discussion on Building Your Own Brand

Speakers:

- 1) Mr. Pankaj Sikka : Mr. Pankaj Sikka runs his own Brand Consulting agency, working with various entertainment and corporate brands on growth and brand expansion.
- 2) Mr. Malhar Potnis : Mr. Malhar Potnis is the founder of Marks Allied Services, a marketing company that has served more than 100 startups and SMEs in the domain of Social Media Marketing.
- 3) Prof. Mohuya Chakraborty: Prof. Mohuya Chakraborty presently holds the post of Dean (Faculty Development) and Professor of the department of Information Technology, Institute of Engineering & Management (IEM), Kolkata.

- 4) Prof. S.K. Ramesh: Prof. S.K. Ramesh is a Professor of Electrical and Computer Engineering at California State University, Northridge, and Director of the AIMS2 program supported by the US Department of Education.
- 5) Prof. Kiran Talele: Prof. Kiran Talele is an Associate Professor in the Electronics Engineering Department of Sardar Patel Institute of Technology, Mumbai. He is also incharge of IPR Cell of Sardar Patel Institute of Technology.

**Event Summary:**

The discussion began with Prof Kiran Talele giving a brief introduction of the speakers. Prof Mohuya Chakraborty then began explaining the importance of personal branding and how one can go about it. She stressed on how important it is to have a presence on social media, on various platforms like Facebook, Twitter and LinkedIn. She also mentioned how knowledge sharing platforms like Quora can help in personal branding.

The discussion was then carried forward by Mr. Pankaj Sikka. He explained how personal branding is all about bringing ideas to life. He also explained how a person's personality can be converted into the person's brand. As the discussion was focused on academicians, he talked about how academicians can establish their brand very well, through various opportunities, like government grants and aids provided to them for research which could be beneficial for the society. People would know a person better if the grant is utilized for public benefit. He also talked about how learning should not be limited to the classroom.

Mr. Malhar Potnis began by talking about a personality on youtube, who provided insights into how his business failed initially, but then became successful later on in life. In this manner, Mr. Potnis put across the point that anything that adds value to someone else will help in achieving personal branding. He explained how teachers are natural influencers, and possess a small advantage over other professions, as they have students who can help them build their

personal brand. He then narrated the story of a school teacher, and how she built her personal brand. The story provided great insights, and gave a practical example of how an academician may implement all the methods to build a personal brand.

Prof. Talele then presented a video of Prof. S.K. Ramesh, a Professor of Electrical and Computer Engineering at California State University, Northridge and a 2021 IEEE President-Elect Candidate. Prof Ramesh through his video gave a few insights on how he built his personal brand. He also talked about his vision for India. He then explained how academicians can leverage global resources like IEEE programs, to build their brand. The discussion concluded with a question-and-answer session.

15. Project Innovation Challenge

Project Innovation Challenge was an online competition, encouraging students to innovate and come up with feasible and creative solutions, along with business ideas combatting real-world problems. Participants could choose any domain, for example, energy management, agricultural solutions, blockchain technology, and present a solution for a particular problem under that domain.

The competition comprises two parts:

The Qualifying Round: Contestants were required to submit a one-page description of their solution to the problem statement.

Presentation Round: The teams qualified for the final round gave a presentation to a panel of distinguished members with a formal code of conduct.

Judging Criteria included Feasibility, Scalability, Impact, Innovation, Marketing Opportunity and Competitive Advantage

Nearly 30 teams participated and out of them the top 10 were selected for the Presentation Round. All the ideas presented were very innovative and the event was enjoyed by all.

16. Webinar on Digital Marketing

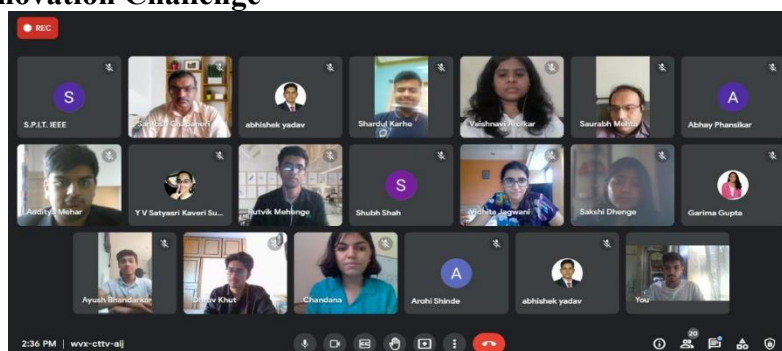

Event Summary:

The speaker first explained what is digital marketing. Usually, it is assumed that digital marketing is bringing sponsors or putting up posts on social media. However, in reality, digital

marketing includes social media marketing, graphics design, content marketing, etc. A common misconception is that doing courses and certifications in digital marketing will help a person get into the field. However, that is not the case. According to the speaker, the best way to learn digital marketing is to implement digital marketing on your own and try out things. The speaker cited the example of his own Youtube Channel and LinkedIn. He spoke of the critical importance of LinkedIn and how to create engagement on these platforms. He spoke of blogging, short form posts, keyword search, etc. He also spoke of the importance of using Social Media Analytics. This was followed by a very interactive Question and Answer session.

17. Project Innovation Challenge

Event Summary:

Event Type: Flagship Event- Innovation challenge under Technical Domains

Event Date: Qualification Round: Submission by 10th Oct 11:59 PM

Final Round: 17th Oct: 11:00 AM to 2:30 PM including lunch break

No. of Participants: 14 teams

No. of Judges: 3

Introduction of Judges:

The judges are: Dr. Saurabh Mehta, Mr. Abhay Phansikar and Mr. Santosh Chapaneri. Dr. Saurabh Mehta is the Chief Academic Officer and Professor at Vidyalankar Institute of Technology, the Founder of Sun Wireless Technologies and also the Secretary of IEEE Bombay section. Second judge, Mr. Abhay Phansikar is the Business Development Director at Azilen Technologies Pvt Ltd. Besides having over 35 years of experience in the IT sector, Sir has an impressive track record of identifying business opportunities and developing innovative strategies to address market needs. Our final judge, Mr. Santosh Chapaneri is a machine learning expert, AI/ML trainer and academician. Sir has published 40 papers and has received over 130 citations in leading journals till date. He is also a frequent speaker for the IEEE Bombay Section SKEP Lecture Series.

Summary:

The competition was aimed at making the participants come up with realistic, creative and technical solutions to combat real world problems from technical domains like Artificial Intelligence, Genetic Engineering, Cloud Computing, Ethical Hacking, Nanotechnology and Blockchain. Participants had to choose from the given problem statements and were also allowed to use their own problem statement related to any of the mentioned domains. Participants came up with their ideas and were asked to submit a brief overview of their idea as a one-page report for the Qualification Round. The judges reviewed these submissions and the best ones were selected for the next round. In this round, the teams had to present their ideas in front of the panel in a formal conduct. After Vote of Thanks to the judges, Winners were declared according to the scores given by the Judges.

Details:

Registrations were taken via Dare2Compete platform and the Registration fees was Rs. 100 per team. 6 Technical Domains and 13 Problem statements were given to the teams. They had to choose a domain and a problem statement. Their solution may contain multiple domains but the selected domain must be the dominant one. Teams were also allowed to solve any other issue under the given domains. They were given 3 days to come up with their solution and had to submit a one-page report of their idea for the Qualification round.

Qualification Round: The one-page reports were evaluated by the judges and out of 14, the top 7 teams were selected for the next round.

Presentation Round: Each team had 10 minutes to present their idea. Hence participants had to prepare their presentations so as to cover all the detailed points and the complete structure of their idea within the specified time limit. The presentation had to include the given problem statement and the proposed solution. It had to specify the technology being used, specific implementation, feasibility of the idea, its future scope and the structured road map for the same. Another 10 minutes were allotted for QnA with the judges. It was mandatory for all the participants to switch on their cameras during the presentation and dress up in their formal attires.

The session started with the introduction of the panel. Following that, team presentations were scheduled. After all presentations were done, Judges scored the teams in terms of Innovation, Feasibility, Relevance w.r.t technology used and Future scope. After Vote of Thanks to the judges, the Winners were announced.

After a discussion amongst the judges, they decided these 3 teams as winners and the cash prizes were:

1. QUBITS - Rs. 5,000
2. Sharchan - Rs. 3,000
3. AINNOVATE - Rs. 2,000

17. Human Library Series: Book 3

Event Type: Humanitarian

Event Date: 7th November

Event Time: 11am IST

Name of Speaker: ElsaMarie D'Silva

No. of Participants: 41 (5 IEEE core members and 36 guests)

Introduction of the Speaker:

The speaker for the event is ElsaMarie D'Silva, Founder of Red Dot Foundation (Safecity), a Fellow at Vital Voices (2014), Aspen New Voices (2015), Rotary Peace (2016), Chevening Gurukul Oxford (2017), Yale World Fellow (2018), Reagan Fascell Democracy Fellow (2019), IWF (2019), Gratitude Network (2020) and an alumnus of the US State Department's Fortune Program, Swedish Institute, SE Forum Outreach Accelerator and Fast FWD Philadelphia Accelerator for Public Safety. She wears many hats and has many diverse interests – social entrepreneurship, social development, peace, aviation, sugar craft, mental health, personal development and coaching.

Summary:

IEEE S.P.I.T. held their 3rd Humanitarian event on the most discussed topic 'Feminism'. The speaker for this HL event was ElsaMarie D'Silva. There were about 41 participants including the IEEE team. This event shed light on one of the most controversial topics i.e Feminism. ElsaMarie D'Silva gave many examples to make the participants understand this concept of Feminism and why there is an urgent need for this. She very beautifully explained such a sensitive topic with utmost respect and logic. She made the event quite interesting by involving the participants and giving various stories of what women have faced and how feminism has helped them in some aspects. The attendees gained knowledge and leveraged the opportunity of asking questions they had about the topic.

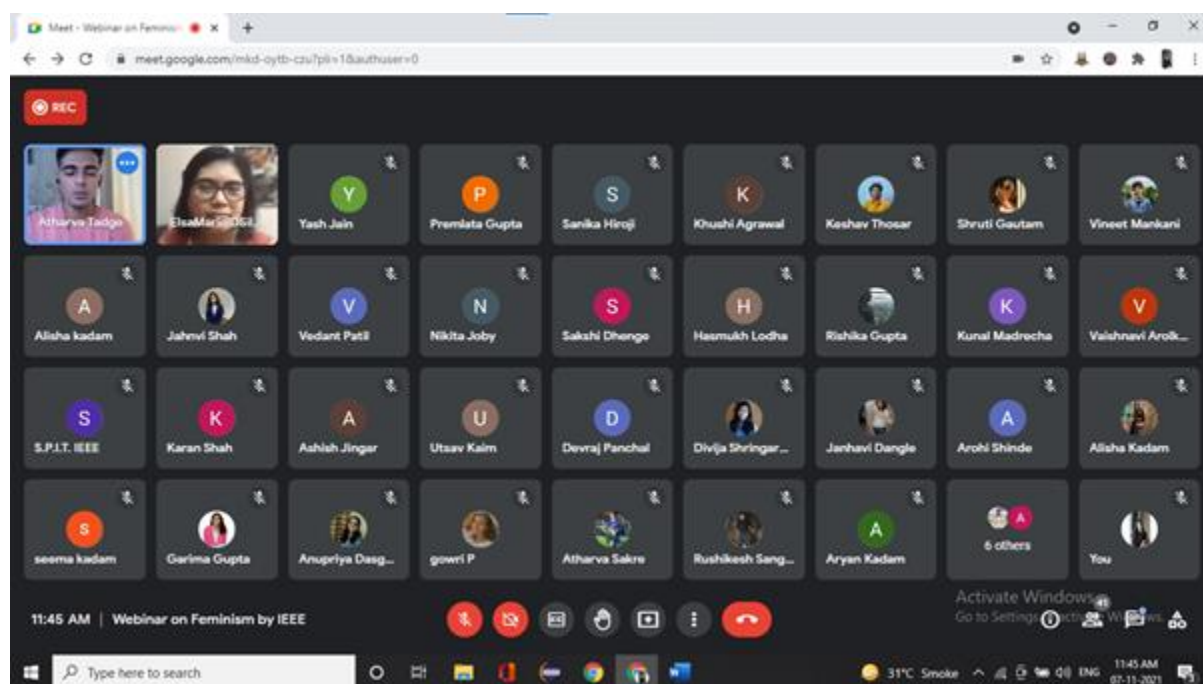

Details:

With the aim of creating awareness and shining a light on '**Feminism**', and the challenges faced, IEEE S.P.I.T. organized an interactive webinar with **ElsaMarie D'Silva**.

The event started with the host introducing our speaker for this event ElsaMarie D'Silva and talking about her achievements, our speaker then explained how her 2 years of pandemic were

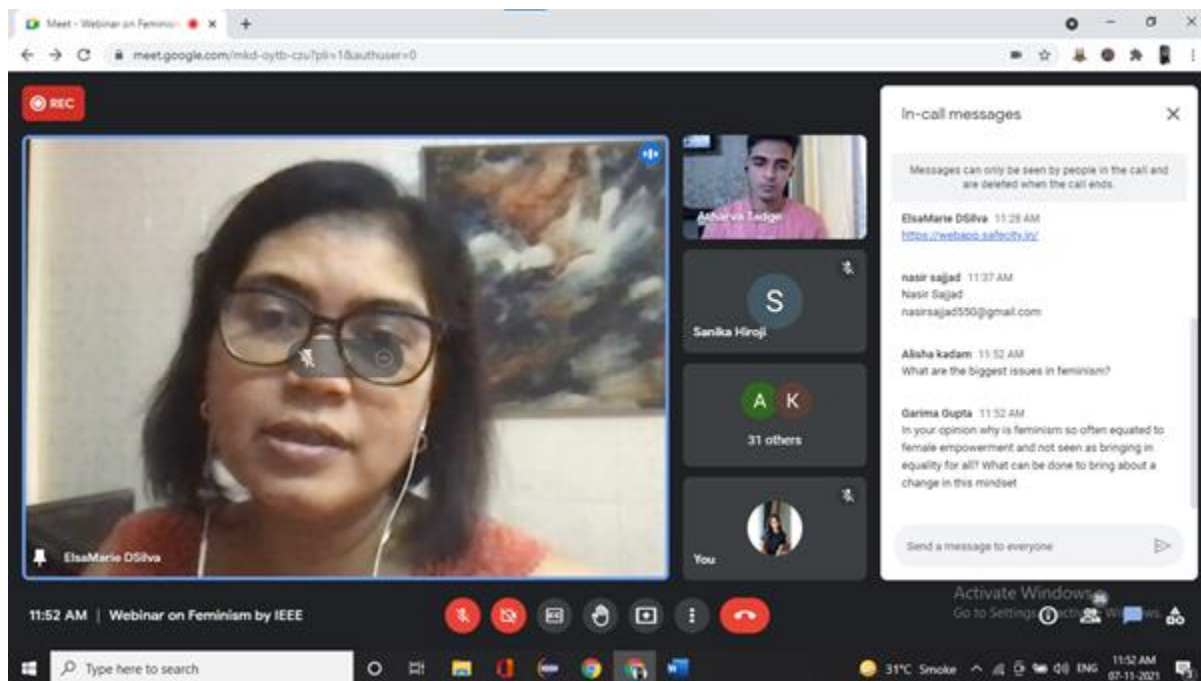

and how it impacted her career as a feminist. She spoke about how during the initial months of lockdown there was a spike in online & domestic harassment. She then started **SafeCircle on 17th May 2020**. **SafeCircle is a secure, trusting space for survivors of violence**. This is a non-judgemental listening circle for survivors to share their experiences, learn from others and know that they are not alone. Our speaker, ElsaMarie D'Silva is facilitating a safe community space where we can seek to find solutions through sharing, listening and offering insights. **An online SafeCircle is held on a virtual platform every Friday (3-5 pm IST)**.

Our speaker, ElsaMarie D'Silva then stated on how one can start avoiding and side-eying things and start paying attention to things we feel are wrong, and this should **first start from our home and society**. If we see any violence happening in our neighbourhood or home we should do something about it rather than just side eyeing it. She then talks about how our judicial system is backlogged and how domestic violence cases take years to pass final judgements which put victims in second thoughts. She then beautifully explained how domestic duties are put upon women and this causes them to not completely go into the workforce. She explained this by saying **"No one is born with the skills of cooking, cleaning and taking care of others and if a woman can learn it surely a man can too"**. She then explained how a safe city works and what is the actual use of it. So if we live in an area, won't we want to know how safe that area is. We mostly live in a bubble where until and unless nothing happens to us we are not aware of the danger. So this app as it is open for all, one can check and be aware of the place we are travelling to.

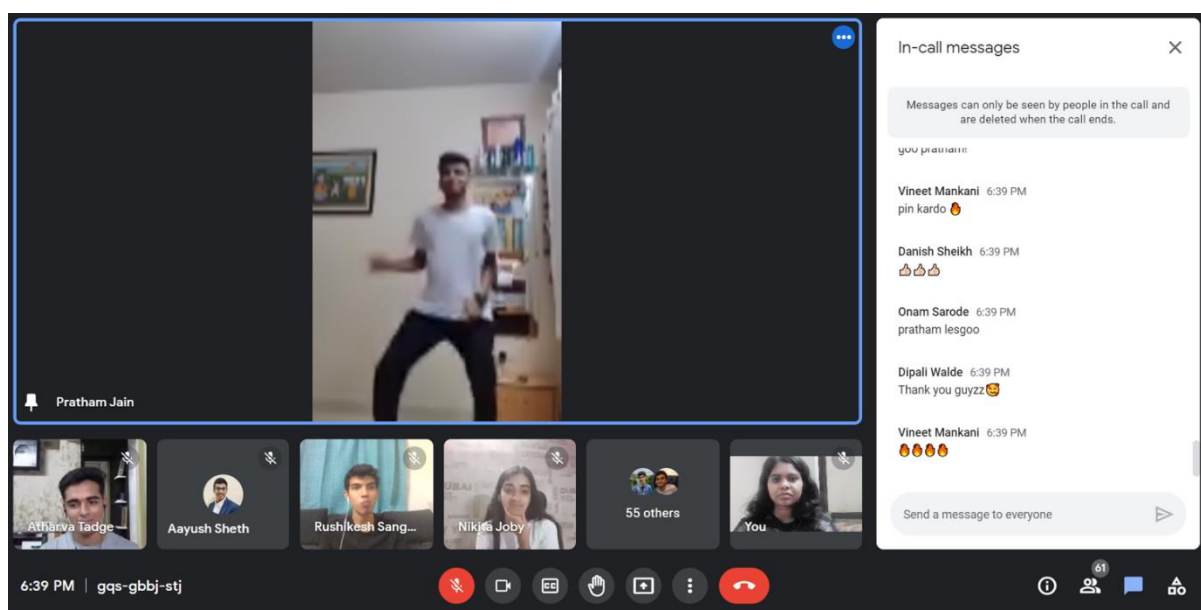

So, what is feminism? Feminism is just wanting the world to be equal. Many people misunderstand feminism by saying it's just about women's rights, **No it's not only about women's rights it's about equality. It's just about treating people equally and fairly irrespective of gender, caste, status, etc.** The speaker then also explained about how there are less chances and opportunities given to women in respect to wages, job opportunities, etc. Not only this but there is an important problem faced in India i.e. female infanticide. She then explained how **patriarchy is not just in the mind of men but also in the minds of women**.

The male-bashing faced on social media is just the anger of people who are getting to know about their rights and understanding about the injustices they faced. She then talked about how student bodies like **colleges should have a policy against harassment** and they should have an monthly meeting where people if facing any kind of violence or harassment can feel safe and express themselves. Women should now not be silent and afraid but instead speak up about the challenges they face. **The change is coming. You can either resist it or accept it.**

16. Aarambh 2022

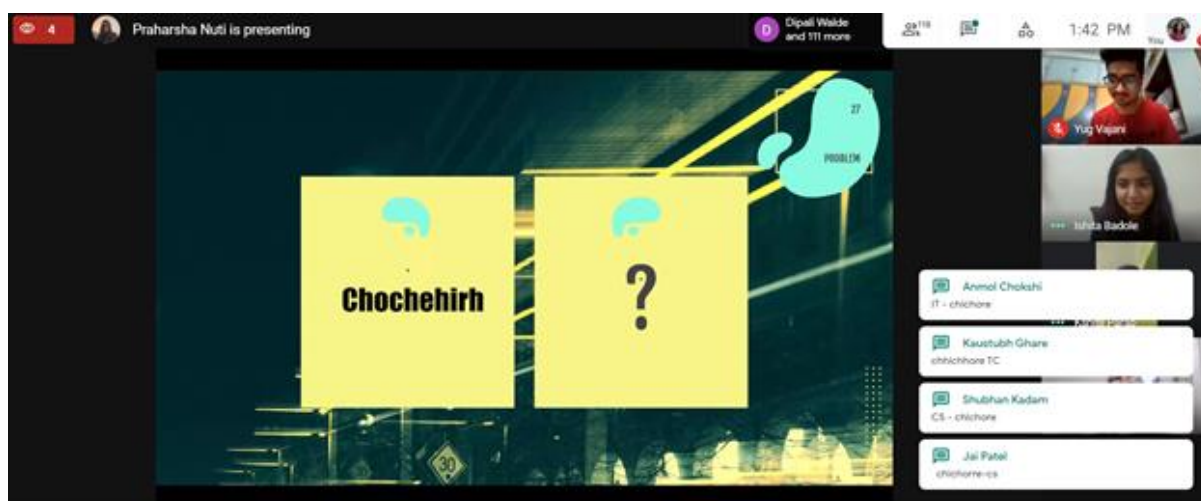

19. Aarambh

Event Summary:

The event began with an introduction by the host, Praharsha Nuti, the Chairperson of IEEE SPIT and Ishita, the Cultural Secretary. The first year students were encouraged to interact with the seniors. The first performance was by Ankit Vishwakarma who performed his original Beat Boxing song. Everyone enjoyed the performance. There was lots of discussion in the chat box. Praharsha then explained the rules of the games. The first game was English Vinglish in which the names of Hindi songs were translated in English and the students had to guess the movie. This was followed by the second game Main Hu Emoticon in which the names of hindi songs were encoded in emoticons and the students had to guess them. The students were encouraged to perform in exchange for extra points for their branch. Lots of people came forward and sang Hindi Songs, English Songs, played Guitar and rapped. This was followed by the next game Guess Who in which the description of a fictitious character was given and the students had to guess. In the end there was a tie between the Computer, IT and EXTC branches. So, as the tie breaker a music video was played with the audio of another song and the students had to guess the name of the song in the video. In the end the game was won by the Computer Department. All in all, it was a super fun event for everyone.

20. Webinar on Digital Transformation

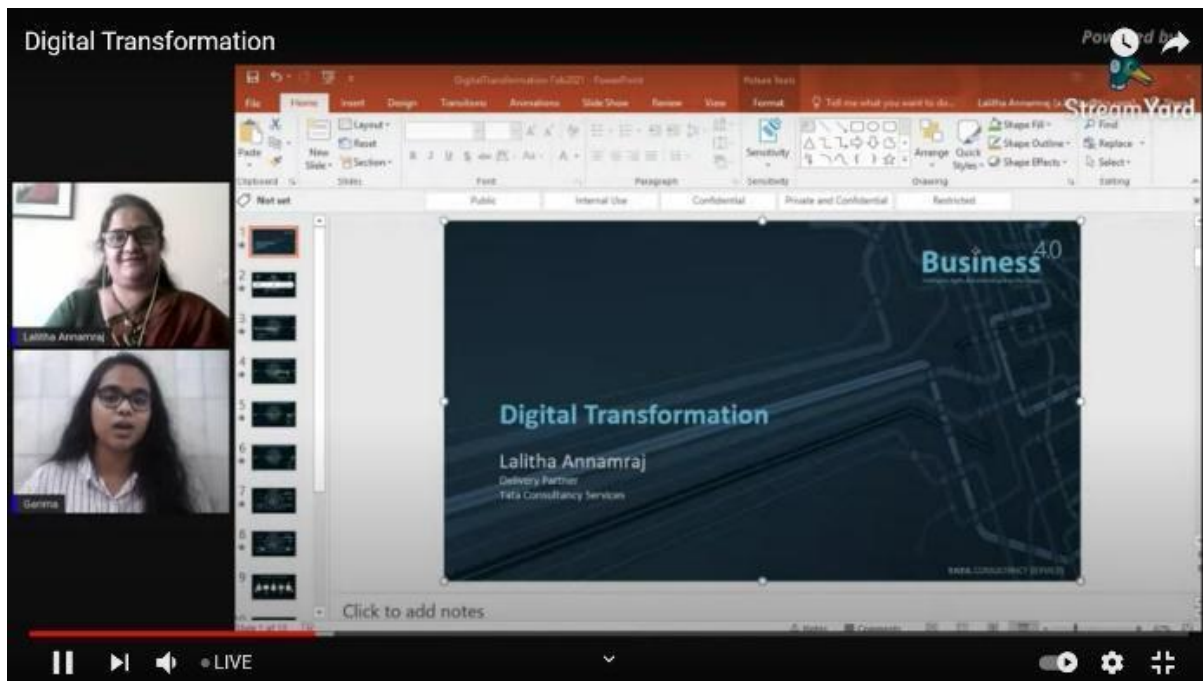

Speaker:

She is currently heading the Digital Transformation program for India's number One Private Bank. She has successfully delivered 5 large Digital Transformation Programs in Banking and Telecommunications Industries. Mrs. Lalitha Annamraj is a Practitioner of distributed Agile Methodology for faster deliveries. Her expertise is in business strategy and application design spanning around 10 years across Telecom and Banking Industry.

Event Summary:

On the bright Sunday evening of 21st February, 2021, the webinar started off with Garima Gupta, Head of Public Relations of IEEE SPIT, introducing the speaker for the event, Mrs. Lalitha Annamraj. The speaker, started with a few examples that we could connect to especially in the pandemic era. She then moved to the 5 well known business giants known to us which are very well connected to the concept of Digital Transformation. While getting to know more

about how these giants work, they were later introduced to the various types of industries and how technology has affected them. Mrs. Annamraj also explained how identifying the target audience is an important aspect of every business and the various domains that need to be considered in it. Moreover, she also pointed out to how big sale days on online shopping platforms can lead to a greater number of customers being attracted than even anticipated following which she explained the need to devise a method to manage the received numbers where the speakers were introduced to the concept of cloud. Furthermore, the role of AI in customized advertisements was also thrown light on. While ending the extremely informative webinar by highlighting the various skills students must possess to flourish in this area, the floor was flooded with questions from participants to which Mrs. Annamraj answered with a lot of enthusiasm. The evening was concluded on a high note with the host thanking the speaker as well as all the participants.

Aim:

We are the C.S.I. Student Branch of Sardar Patel Institute of Technology. Formed in 2009, CSI-SPIT is an altruistic society in college initiating workshops, events and seminars to explore the cornucopia of information other than the regular curriculum offered by the university.

Objectives:

As part of our endeavor to bring together and assimilate various aspects of technical and non-technical education, a number of seminars and workshops are conducted by professionals imparting knowledge to the students of the college. We also encourage member students to organize events by themselves so that it imbibes in them the skills of management, self-confidence and helps to exchange views and information, learn and share ideas. We at CSI-SPIT aim at exploring the acme within every individual so that they can realize their dreams.

Outcomes:

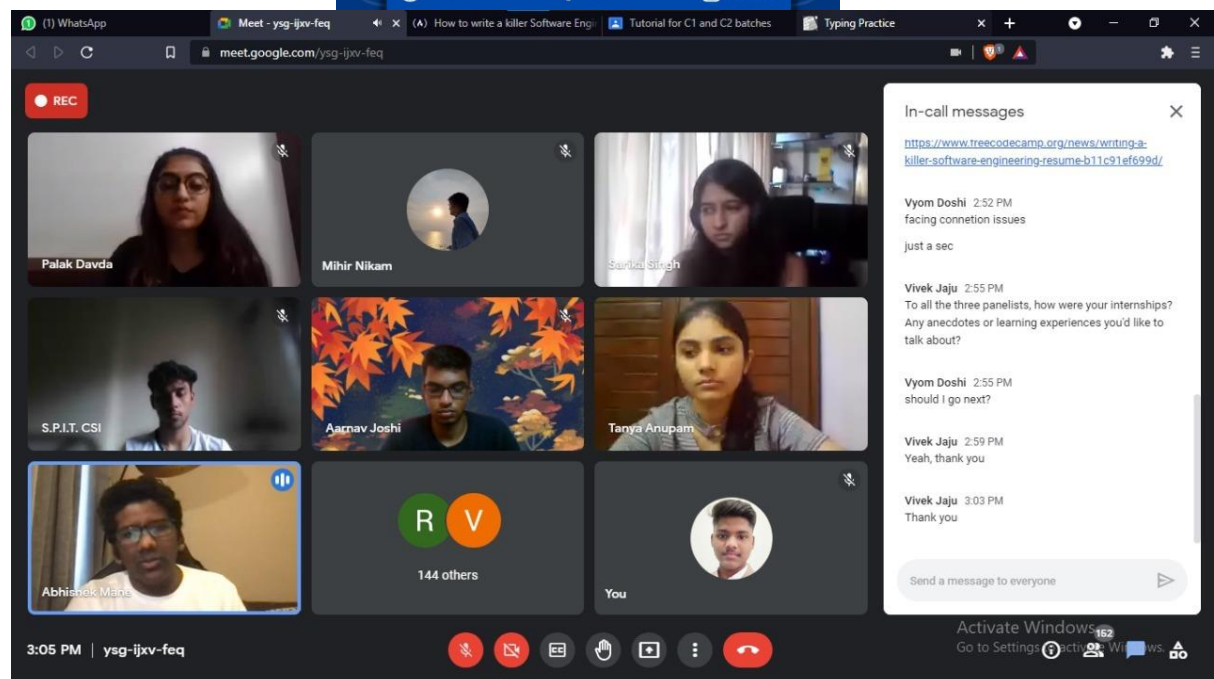

As a result of our efforts, over the last 11 years, we have successfully created a committee of students that are enthusiastic and driven by the ambition to explore. We have positively impacted the members of CSI-SPIT through our workshops, seminars and non-technical events and fostered the spirit of helping one another learn something new.

1. Internship Webinar

Speakers:

1. Sarika Singh, Google
2. Abhishek Mane, Facebook
3. Palak Davda, Amazon

Date: 6th August, 2021

The event began with the CSI core team introducing the speakers. After giving a brief introduction and talking about their workplaces they went over their experience as a student and explained the internship process.

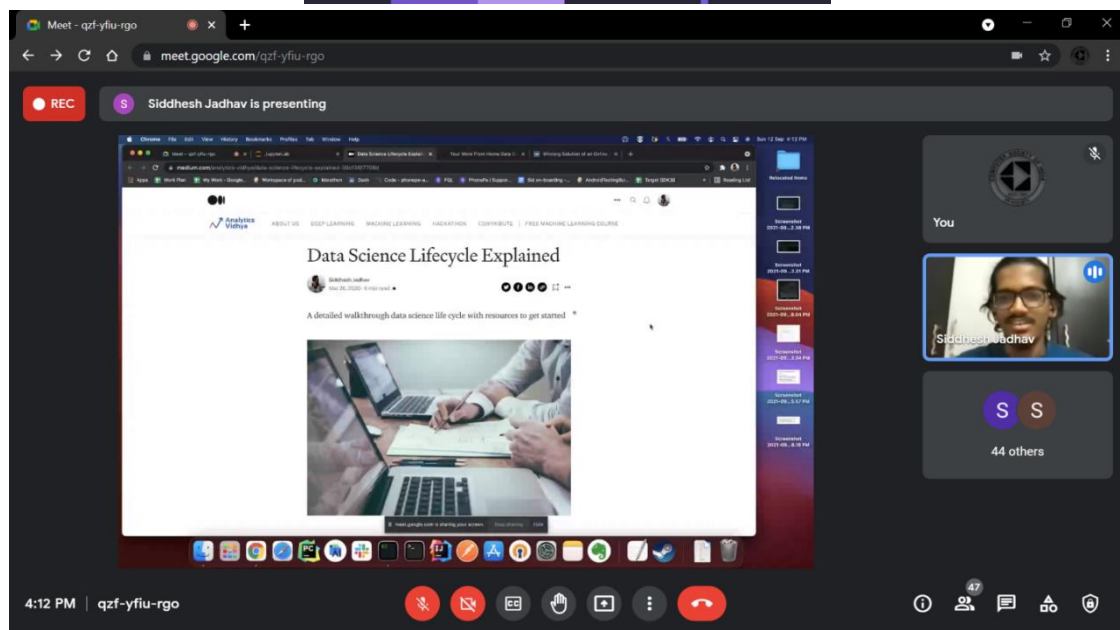

The speakers went over details like the preparation phase and their mindset while preparing for the internships. They also spoke about all the challenges they faced and how they overcame them. They gave a heads up to the juniors about the do's and don'ts they need to take care of while preparing for the internship.

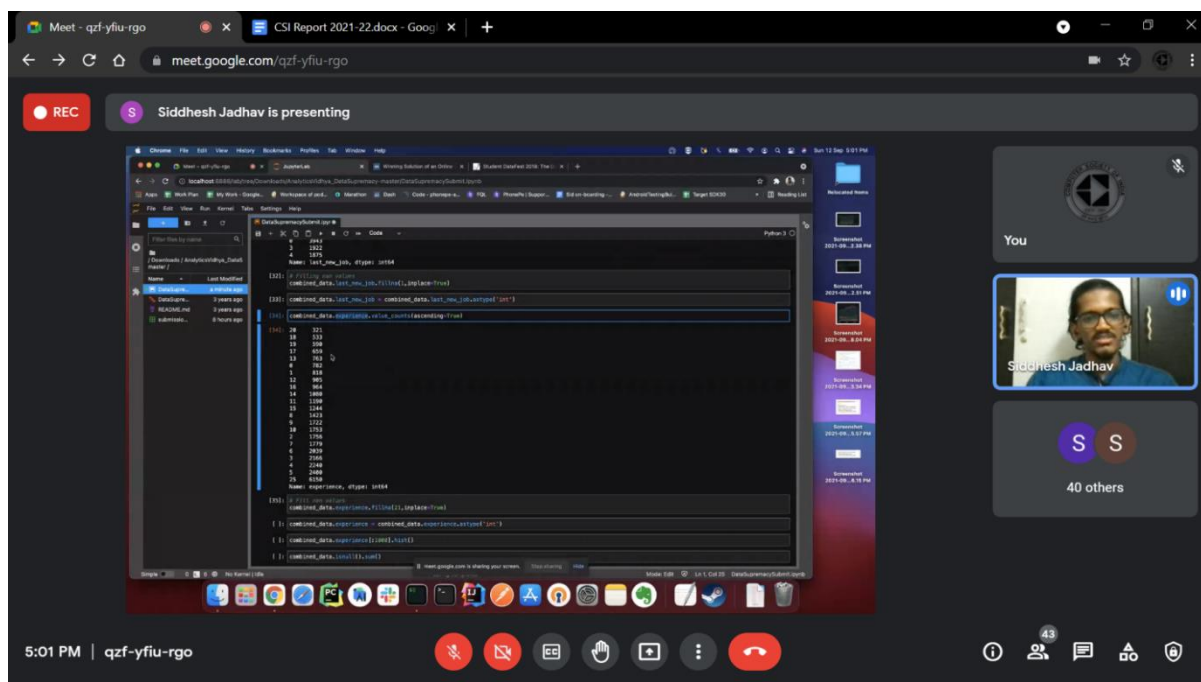

Each of the speakers shared ample resources and continue to do so on our discord server. Finally, we opened the session for Q&A.

2. Data Science Hands on Workshop

Speaker: Siddesh Jadhav

Date: 12th September, 2021

Flow of the event:

- In the first half of the event, Siddhesh explained the process of exploring data science and the roadmap to being a data scientist
- Siddhesh also worked on a code along project.
- The event started by CSI members introducing the speaker and their previous achievements. The speaker gave a brief introduction of data science covering points and scope. The event ended with QnA.

3. Git/Github workshop

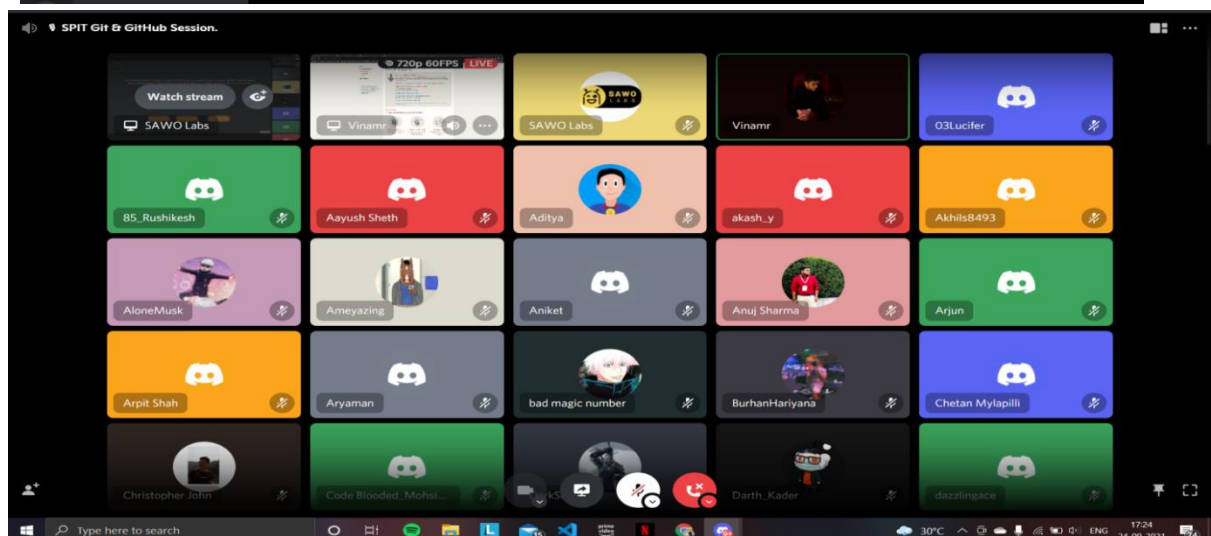

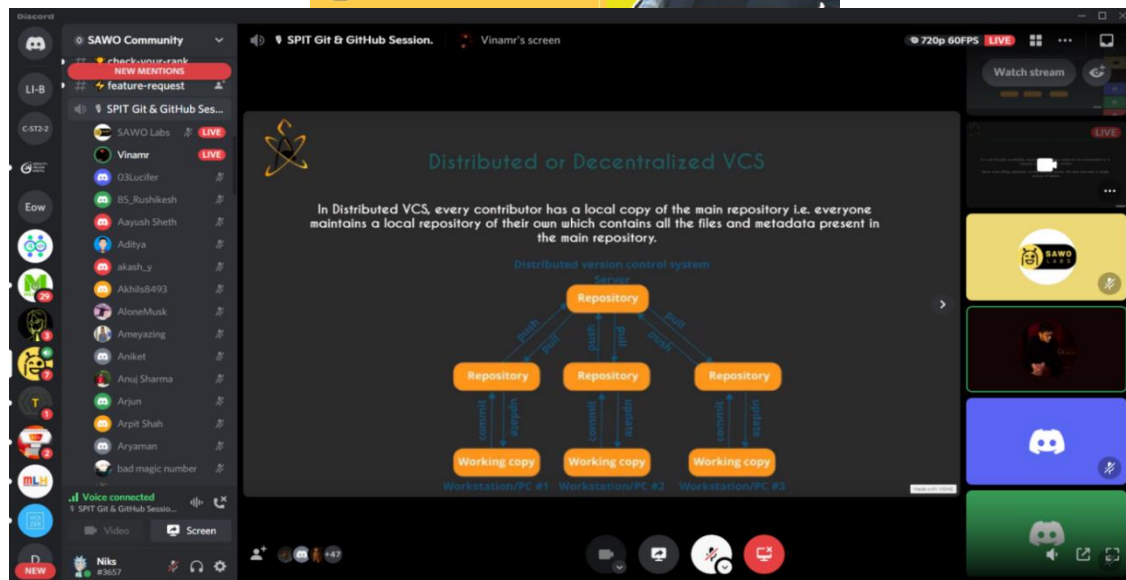

Speaker: Vinamr Bajaj

Date: 24th September

Flow of the event:

- To get them acquainted with git and github which is essential to work on projects in teams and participate in hackathons
- Speaker will work on a demo project by sharing his screen. Participants can make pull requests on the same repository.
- Introduce participants to the concept of open-source contributions.

The event started by CSI members introducing the speaker and their previous achievements. The speaker gave a brief introduction about git and github covering points such as why should we be using git and github what is the scope of it and how it helps you in your projects and the speaker moved on to the workshop wherein the students installed and git and github and showed basic git commands. The event ended with QnA. Participants who completed all the exercises were given SAWO Lab goodies.

4. APIs 101

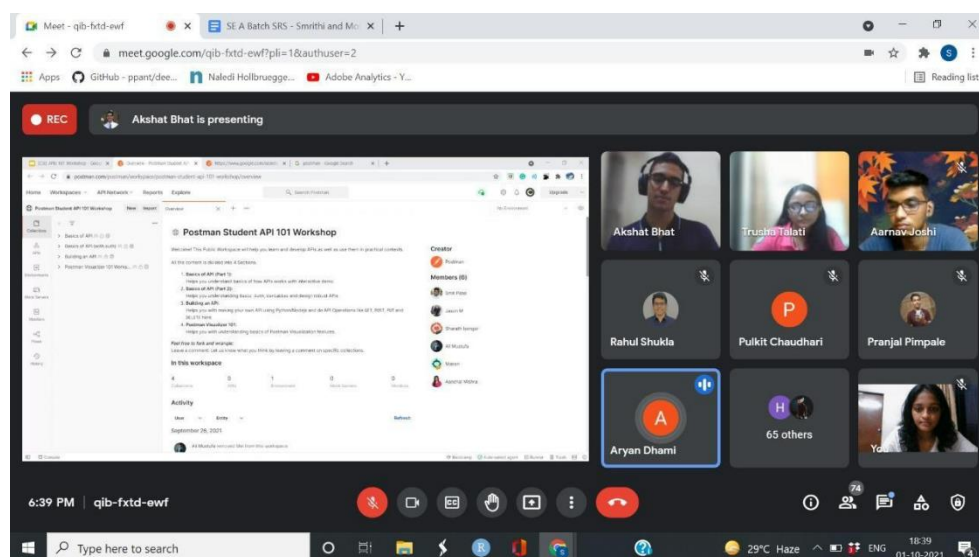

Venue: Gmeet - Online

Date: 24th September 2021.

Speakers:

- Akshat Bhat, Postman Student Expert
- Trusha Talati

Event poster:

The event began with the CSI core team introducing the speakers and highlighting the basic agenda of the workshop. The platform was then handed over to the speakers, wherein they spoke about their work backgrounds and their overall experience and familiarity with the field of APIs. Following this, they began the workshop by highlighting the basics of APIs with the help of a presentation. They also covered theoretical concepts and other fundamentals related to building and using APIs in the same manner.

After this, students were given hands-on experience at building their own APIs using the Postman API building platform. The speakers provided step by step guidance and helped attendees in building their own APIs from scratch through Postman. They also assessed errors, or other difficulties the attendees faced along the way. Later, they shared all available resources including the recording of the whole session to all the attendees for their further reference. The workshop concluded with a Q&A session between the attendees and the speakers.

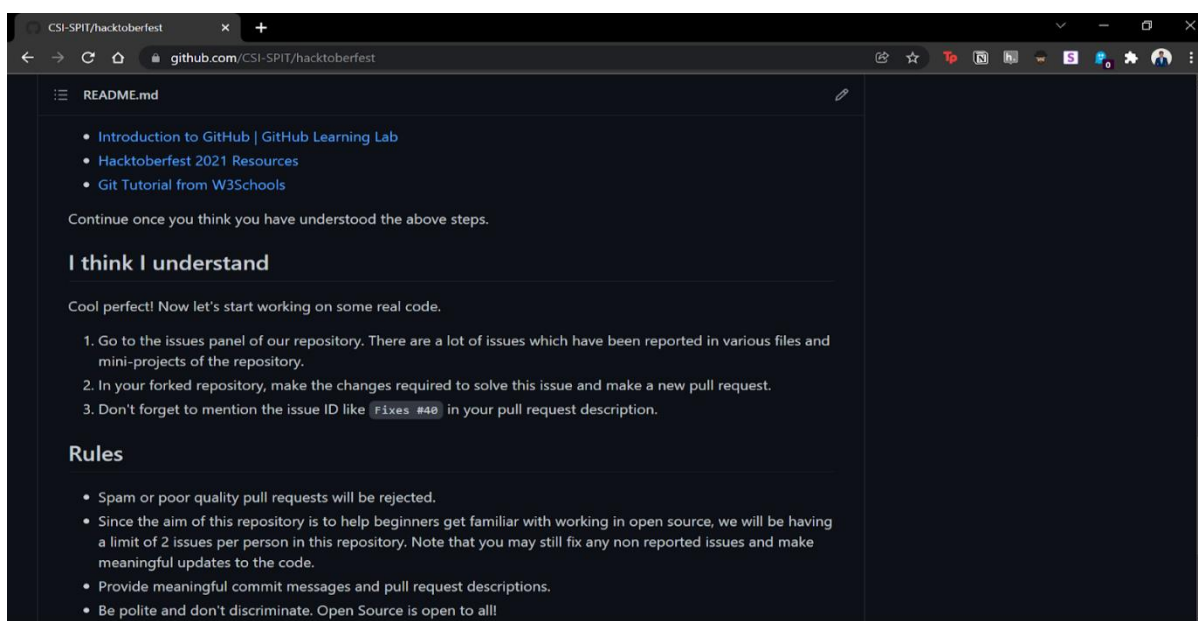

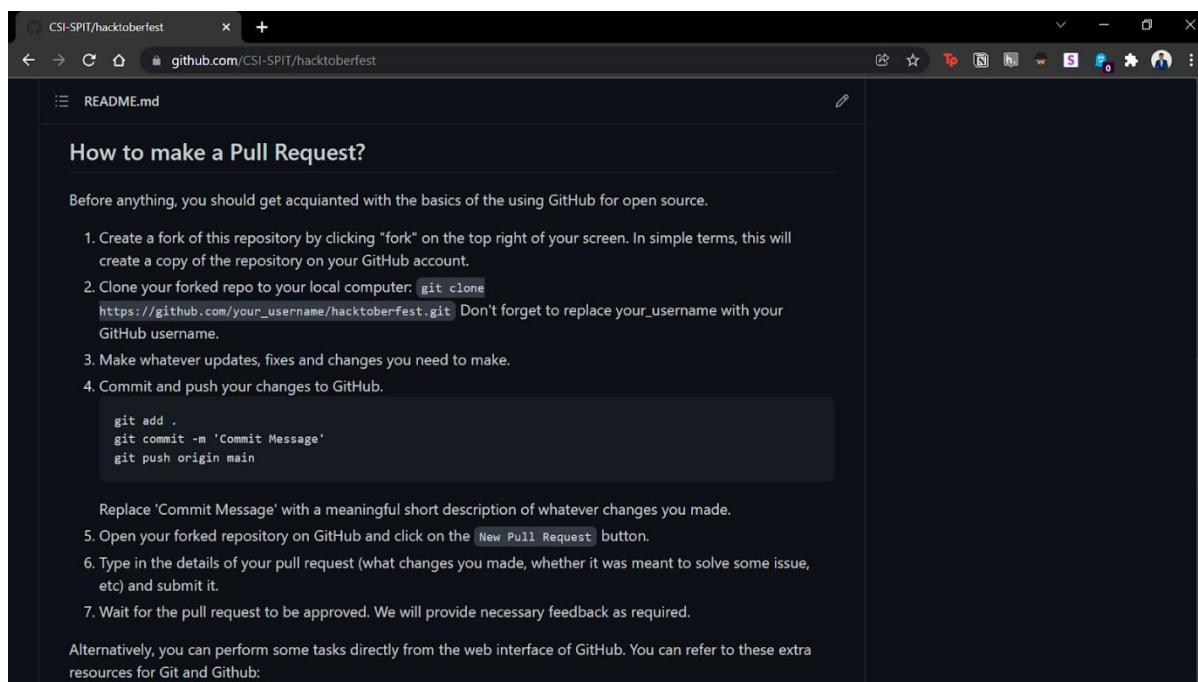

5.Hacktober Fest

HacktoberFest is a month-long challenge. It happens every year in the month of October. HacktoberFest is open to everyone and it marks the celebration of open source. It's the biggest open-source event that encourages newbies to participate in open source and create their first meaningful PR (pull request).

CSI-SPIT organized a repository for HacktoberFest which could serve as the first repository for Open-Source contributors. To get students acquainted with Git and its tools. This was an extension of our Git workshop.

6. Changemaker - Be the Change You Want to See

Event Name: Solution Pitching Competition

Venue: Gmeet - Online

Date: 1st November, 2021.

To support NGOs and give back to the society by creating an awareness among students, E-Cell S.P.I.T. along with C.S.I-S.P.I.T., conducted a solution pitching competition wherein participants would be providing innovative solutions to real life problems of NGOs.

The NGOs which collaborated with us were Child Rights and You (CRY) and Srujna. CRY was born of a dream to ensure happier childhoods for all children by providing nutrition, quality healthcare, education, child participation and addressing child-related issues. Srujna provides livelihood opportunities to low-income women by empowering them to become role models and changemakers in their families and communities.

The competition had 2 rounds. In the first round, we received individual participation of over 150 and the participants had to choose a domain from either technical or non-technical. The problem statement was based on 'Smart City' and was given according to the chosen domain. Participants had to submit a one-page solution pdf. The technical domain participants were recommended to know about app/website design and the non-technical domain participants were recommended to have problem solving skills.

For the second round, 16 participants were shortlisted and put into 5 teams, with each team having one participant from the technical domain. The problem statements were given by CRY and Srujna and each team was allotted on a first-come-first basis. Each team was given 10 minutes to pitch their solution followed by a 10 minutes QnA round by the judges. The judges on the panel were Ms. Pallavi Yedekar, Mr. Mayur Pateria and Mr. Kaisar Katchi.

Ms. Pallavi Yedekar is the Sr. Manager at CRY. She believes that children are the very foundation of every nation's growth and development aspirations. She has a passion for children's rights which inspired her to enter the social sector in 2010.

Mr. Mayur Pateria leads CRY's corporate partnership team as AGM for the West region and has 9+ years of experience with expertise in resource mobilization, project management, and partnerships. He holds a Masters degree in management from Leeds Beckett University, UK and a post graduate diploma in Culture and Media Studies from Tata Institute of Social Sciences, Mumbai.

Mr. Kaisar Katchi is an assistant professor at S.P.I.T. He has an accomplished career, a placement advisor and a professional profile evaluator. He is committed to empowering the youth of the nation and nurturing an entrepreneurial spirit.

The learned panel of judges gave apt feedback to all the participants. Having judges from the NGOs, helped the participants understand the real life feasibility of their solutions.

Although the competition was neck and neck, 3 teams won the competition for their solution's feasibility, creativity and the app design. Cash prize worth INR 16,000 was given to the top 3 teams and certificates were awarded to all the participants who qualified for the second round.

PROBLEM STATEMENTS GIVEN BY CRY AND SRUJNA:

1. Poor nutrition during childhood leaves children with lifelong impairment in physical and mental development. Therefore, investing in nutrition is the key to secure a country's future generation. Unfortunately, COVID-19 has increased the risk factors for child malnutrition in India. With the disruption of Anganwadi services and Mid-Day Meal (MDM), a large number of children no longer have access to regular, nutritious meals. The overburdening of health systems has impaired service delivery of critical health and nutrition interventions for children. Finally, the economic impact of

the pandemic has reduced the frequency and quality of meals consumed by households. For this problem, come up with a solution to ensure proper nutrition to the school going kids, who are no longer served with their regular mid-day meals, which was one of the main motivations for them to attend schools.

2. Corporate partnerships are not only a way to help brands meet their CSR objectives, but also create a sustainable impact for India's children. The knowledge, expertise and capabilities of the NGO and that of the corporation are different and may be complementary. As a partner they can often accomplish more than they could standing alone. For this purpose, come up with ideas and a roadmap for execution of those ideas so that corporate employees can engage with CRY and create a mutually beneficial relationship.

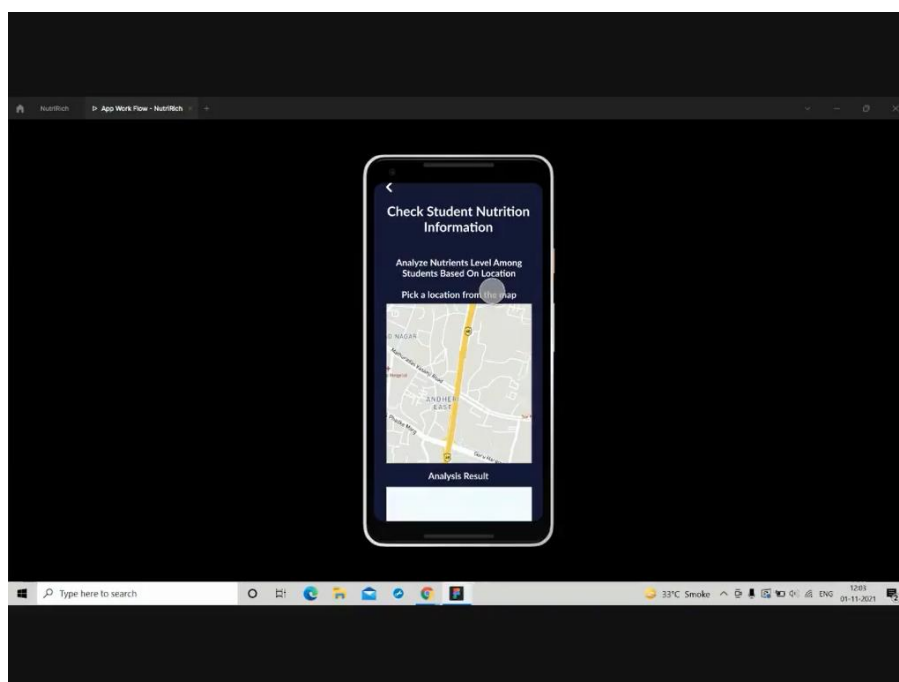

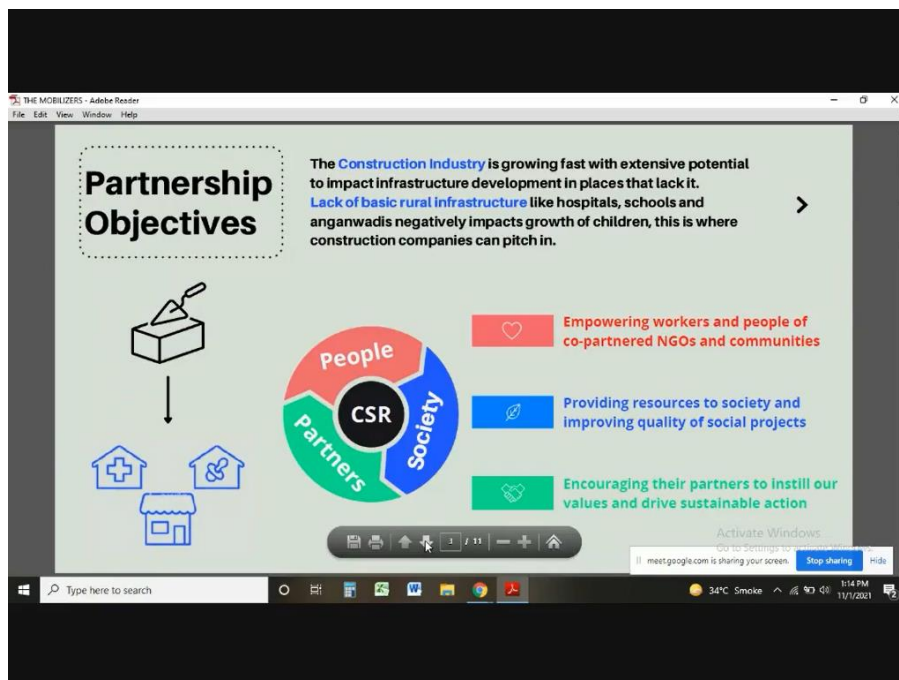

3. Today mobilizing the needy women in training programs stands as a major challenge for Srujna. It has been observed that women don't sign up for the training sessions and skill workshops conducted by Srujna for different reasons. Most women who sign up do not show up on the actual days of training and workshop leading to wastage of energy and resources in large amounts. Devise a strategy to create awareness among low-income women and increase their involvement in the training programs.

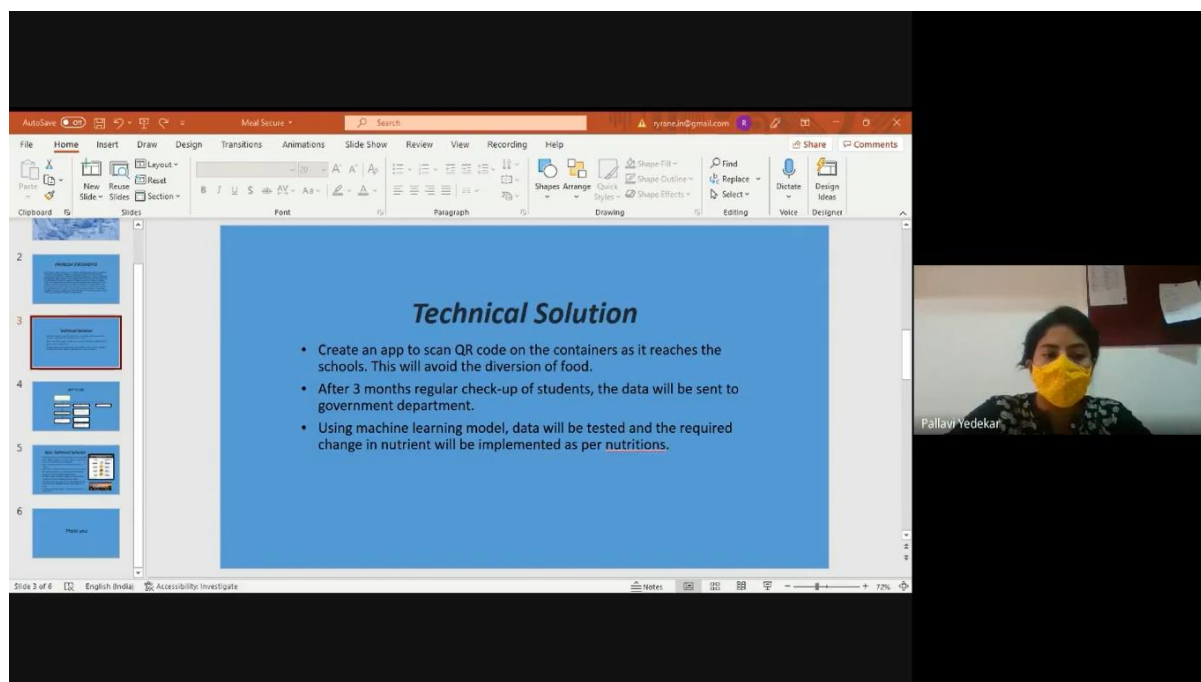

THE PROBLEM WITH CHILD HEALTH

- High levels of malnutrition prevail among Indian children (38.4 percent children are stunted)
- The key challenges in the healthcare sector are low quality of care, poor accountability, lack of awareness, and limited access to facilities
- Fewer medical practitioners, mental health programs, and healthcare facilities in these areas often mean less preventative care and longer response times in emergencies.

7. S.P.I.T Hackathon 2022

Venue: Hopins virtual platform

Date: 29th to 30th January 2022

Mentors:

- Bhavya Meghnani
- Schezeen Fazulbhoy
- Labdhi Sheth
- Ishan Tewari
- Devang Chhajer
- Pranjal Bhardwaj
- Taiyeeba Chikhalia

Judges:

- Priyank Jani
- Sourav S.
- Ravi Verma
- Sharanabasappa Jade
- Bhavya Meghnani

Flow of event:

Round 1: Abstract submission on a problem statement on D2C. 48 teams were shortlisted out of a total of 150 teams that registered for the hackathon.

Round 2: A total of 9 problem statements were released on 27th January, 2022.

On 29th January, the hackathon began with an opening ceremony. The Vice-Chairperson of CSI-SPIT, Mihir Nikam talked about the history of our hackathon and introduced our Title Sponsor, Emkay Globals. We then had a presentation from Mr. Sharan Jade, Head HR at Emkay Globals. This was followed by a speech by our honorable principal, Dr. Bhalchandra Chaudhari sir.

Then, the Chairperson of CSI-SPIT, Ameya Ranade explained the flow of the entire event. The event was then declared open.

Problem statements were allotted to the teams post the opening ceremony.

Participating teams were then free to start coding and developing their products.

Mentor Round:

Mentor Round began at 1 pm on 29th January. 8 mentors were paired to make 4 panels. Each team was given slots of 15 minutes each to discuss their ideas with the mentor pair. The mentors then gave suggestions on how they could improve their applications. The mentor sessions ended at 5pm.

The first day of the event concluded post the mentor round.

Judging Round 1:

On 30th January, the Judging Round 1 began at 11 am. We had 4 judges for the hackathon. Each team was given a slot of 12 minutes (8 minutes for presentation and demo + 4 minutes for Q&A). Post the first judging round, 15 teams were shortlisted. The first judging round concluded at 3 pm.

After an hour of lunch break, we began with Judging Round 2.

Judging Round 2:

The Judging Round 2 started at 4 pm. The 15 teams were given 15 minutes (8 minutes for presenting their ideas and application demo + 7 minutes for Q&A).

Judging Round 2 ended at 8 pm. The judges were given time to discuss the team's presentation and give points to each team based on pre-decided criteria.

Winners:

1st Place: Team Code Squad

2nd Place: Team Ctrl Alt Code

3rd Place: Team War Zone

Best UI/UX design: Tech Bytes

Best pitch: Team Carpe Diem

Best Beginner Hack: Team Code of Duty

8. CSI Takedown

Venue: S.P.I.T. Labs

Date: 3rd June, 2022.

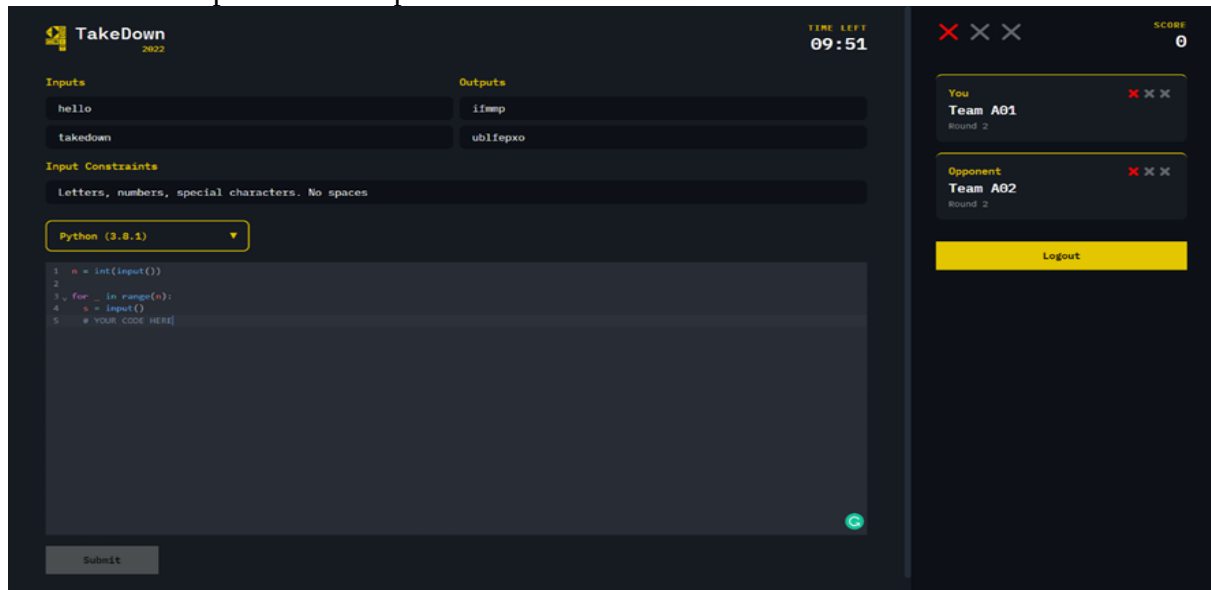

To provide the first years of our college with a platform to dive into the world of competitive programming, C.S.I. S.P.I.T. organized 'TakeDown 2022' - A puzzle based coding event that makes competitive programming truly competitive.

Students participated in teams of two or solo. Teams were randomly placed in matches against each other and both teams in a match were given the same problems to solve. The team which cracked the problem first received 10 points while the other received an X, post which both teams were assigned new matches. Any team that received three Xs were out of the tournament and matches continued until a single team remained.

The problems themselves were string pattern problems. The teams are given a set of sample inputs and outputs as strings. The teams had to identify the pattern and write a program that converts any such general input to an output using the correct pattern or cipher. Simply put, they had to write a program that converts a given input to a given output.

The event was held in the S.P.I.T. Computer Labs (406 and 408) and took place through the custom 'TakeDown Web Application' developed by C.S.I which supported most major programming languages.

After two and a half hours of intense competition and coding, Ayush Singh and Yash Shingade (SE) took first place with 90 points while Jaivik Parekh and Malay Phadke (FE) came in second place with 60 points.

The TakeDown Web Application UI

With virtual setting a constant, CSI conducted events of all kinds. Starting the year off with an internship webinar which saw almost 200 students join in to listen to our alumni's internship and work experiences! We conducted online hands-on workshops on Data Science, Git/Github and organized CSI's very own and first Hacktoberfest! Students were presented with problem statements on a Github repository wherein they made pull requests to append their solutions. CSI also collaborated with E-Cell on an event named Changemaker, first of its kind, where we partnered with NGOs, CRY and Srujna.

Like every year since the pandemic began, we had reservations about having offline events. Just when we thought we were inching towards a completely offline hackathon, we were hit by a new wave. Despite this setback, the entire team of CSI worked diligently and to the best of their abilities to ensure that the hackathon was conducted smoothly. We, the Core Team of 2021-22 are extremely proud to have overcome the challenges that came our way and are grateful to have received the opportunity to conduct such a grand event. We leave the reins to the incoming committee members for the year 2022-23 to take CSI-SPIT to greater heights!

Signing Off,

Team CSI-SPIT, 2021-22.

ACSES Events

Committee Name:

Association of Computer Science and Engineering Students (ACSES), Sardar Patel Institute of Technology

CHAIRPERSON'S MESSAGE

This year has been a remarkable one for us, as we have achieved great success in fostering the holistic growth of our batch. As a committee, we remain committed to our mission of creating a development environment that bridges the gap between education and industry. Over the past year, we have organized successful events, which have impacted the lives of many enthusiasts. Our focus on holistic growth remains unwavering, and we are proud to have added two new departments to our committee to better serve the needs of our members. In addition to this, I am excited to report that we have renamed our committee from ITSA to ACSES, representing a new chapter in our journey and symbolizing our commitment to growth and progress. I would like to take this opportunity to express my gratitude to every member of our committee for their tireless efforts in making our events a success. Your dedication and hard work have helped us to achieve our goals and make a positive difference in the lives of students. Looking ahead, we remain committed to our mission, and we are confident that our renewed commitment to growth and progress will help us achieve even greater success in the coming year.

-SHREYA SHETTY

Thank you for your continued support and dedication to our committee's mission.

ABOUT US:

WE ARE A TECHNO-CULTURAL COMMITTEE OF S.P.I.T. THAT IS EXCLUSIVELY FOR THE C.S.E DEPARTMENT. WE AIM TO MAKE THE LEARNING FUN WITH VARIOUS ENGAGING WORKSHOPS. WITH THE HELP OF OUR ACTIVITIES, WE HELP STRENGTHEN THE BONDS OF FRIENDSHIP AMONG THE STUDENTS ALONG WITH WORKING AS FUN DISTRACTOR TO THEIR FULLY LOADED MINDS

ACSES TREK

On 18th September 2021, ACSES committee in collaboration with the Hiking Venture organized a trek to Kothaligad, also known as the Fort of Peth. The trek was attended by 30 students, including both boys and girls, from various departments of our college.

The trek started early in the morning from the base village of Ambivali, which is about 90 km from Mumbai. The weather was pleasant and ideal for trekking. After a brief introduction and briefing about the trek, the group started their ascent towards the fort. The trek was of moderate difficulty and involved trekking through dense forests and steep climbs. The trail was well marked, and the group was guided by experienced trek leaders from the Hiking Venture.

Along the way, the group came across several beautiful waterfalls and scenic views of the surrounding valleys. The group also encountered some challenging sections, including steep rock patches and narrow pathways. However, the group members supported each other and overcame these obstacles.

After trekking for about 3 hours, the group reached the top of the fort. The fort offered spectacular views of the surrounding hills and valleys. The group explored the fort and learned about its history and significance. The group also enjoyed a packed lunch and some rest before starting their descent.

The descent was relatively easier than the ascent, and the group reached the base village in the late afternoon. The group members were tired but satisfied with their achievement. They

expressed their gratitude towards the organizers and the trek leaders for making the trek a memorable and enjoyable experience.

Overall, the Kothaligad trek organized by ACSES committee in collaboration with the Hiking Venture was a great success. The trek provided a unique opportunity for the students to explore the beautiful natural landscapes and learn about the history and culture of the region. It also helped in building teamwork and leadership skills among the participants. The organizers and the trek leaders were commended for their meticulous planning and execution of the trek.

INDUSTRY SEMINAR:

ACSES formerly (ITSA) S.P.I.T. in collaboration with IIC decided to conduct a session on experiences and journey of successful Microsoft candidates. The speakers invited were Ms. Sarah Gawde and Ms. Tanvi Dhope. The panel discussion was organized on September 25th, 2021.

The session was on the experiences of successful Microsoft candidates. The two-hour session started with Aaditya Mehar introducing the panel; Ms. Sarah Gawde and Ms. Tanvi Dhope, both of whom were alumni of S.P.I.T. and are SDEs at Microsoft. The session had a huge attendance with active participation. Various questions were asked, ranging from personal experiences to preparation and programming languages. While Ms Sarah provided a perspective of interning at Microsoft and then securing a PPO, Ms Tanvi gave us her insights on what made her stand out during placement season. The versatility of the questions and the knowledge of the panelists made the session even more worth attending. The discussion was followed by questions from the audience. In the leg of the event, all queries were answered by our panelists and they were thanked for their valuable information and time by Sumedha Zutshi and ITSA's chairperson Shreya Shetty.

UI UX WORKSHOP:

ACSES committee organized a UI/UX workshop for students interested in learning about the fundamentals of UI/UX design. The workshop was conducted by the renowned UI/UX designer and speaker, Devarsh Ambani.

The workshop was attended by around 70 students from various departments of our college. The workshop started with an introduction to UI/UX design and its importance in the digital world. Devarsh Ambani shared his insights and experiences on how to design user-friendly interfaces and provided tips on how to optimize the user experience.

The workshop covered a wide range of topics such as design thinking, wireframing, prototyping, and user testing. The speaker also demonstrated the use of popular design tools such as Sketch and Figma. The workshop also included several interactive activities and hands-on exercises to help students understand the concepts better.

The workshop ended with a Q&A session where students had the opportunity to ask their doubts and seek advice from the speaker. The workshop received positive feedback from the attendees, who expressed their gratitude towards the organizers and the speaker for conducting such an informative and engaging workshop.

Overall, the UI/UX workshop conducted by ACSES committee and the speaker, Devarsh Ambani, was a great success. The workshop helped the students gain valuable insights and practical knowledge on UI/UX design, which will be useful in their future careers. The organizers were commended for their efforts in organizing the workshop, and the speaker was appreciated for his knowledge and expertise in the field.

CODE IT OUT:

The committee ACSES S.P.I.T organized a coding competition, Code-It-Out for the students on Friday, February 4th 2022, from 7pm to 8:30pm. The competition was held on hackerrank, and participants were told to register for the same on the platform. Plagiarism detectors were put to use in order to maintain fairness. There was a total of 56 participants from the first and second year, and no participant reported any technical difficulties while participating. The top 3 participants were Ayush Singh, Yash Shingade and Anmol Chokshi, all from SE IT. All participants were presented with participation certificates and the winners were given Winner Certificates. The overall experience for both the participants and organizers was positive, and everyone had a constructive time.

ICE CUP:

ACSES committee organized the ICE Cup on 12th and 13th February 2022, a two-day sports event that included cricket, football, volleyball, and chess competitions. The event was held in our college campus and was open to all the students.

The first day of the event started with the cricket and football competitions. The second day of the event started with the volleyball competition. The chess competition was also held simultaneously.

All the competitions were conducted in a fair and friendly manner, with the teams showing great sportsmanship and competitive spirit. The matches were intense and exciting, with the spectators cheering and supporting their favorite teams.

The event concluded with the prize distribution ceremony, where the winners and runners-up of each competition were awarded trophies and certificates. The organizers were appreciated for conducting a successful event that provided a platform for the students to showcase their sporting skills and encouraged teamwork and sportsmanship.

Overall, the ICE Cup conducted by ACSES committee was a great success, and the participants and the spectators enjoyed the event thoroughly. The event helped in promoting sports culture and encouraged the students to engage in physical activities, which is essential for a healthy lifestyle.

HOUSIETASTIC:

The ACSES formerly (ITSA) S.P.I.T. hosted a fun event, Housietastic, in collaboration with FETS and IIC on 7th November 2021. Participation was taken in groups of 2 or solo. Every participant got one ticket which was mailed to them before the event. Event was held on Google Meet. The event was hosted by Laukik. Host presented one riddle/dialogue/song/image at a time for 10 secs each. Participants stroked out the name in their ticket by guessing the name of the movie from the given clue and put +1 in the chat box for their answer to be considered.

**Guest lecture on Object-based database by
Mr. Omkar Raykar**

Date - 23rd July 2021

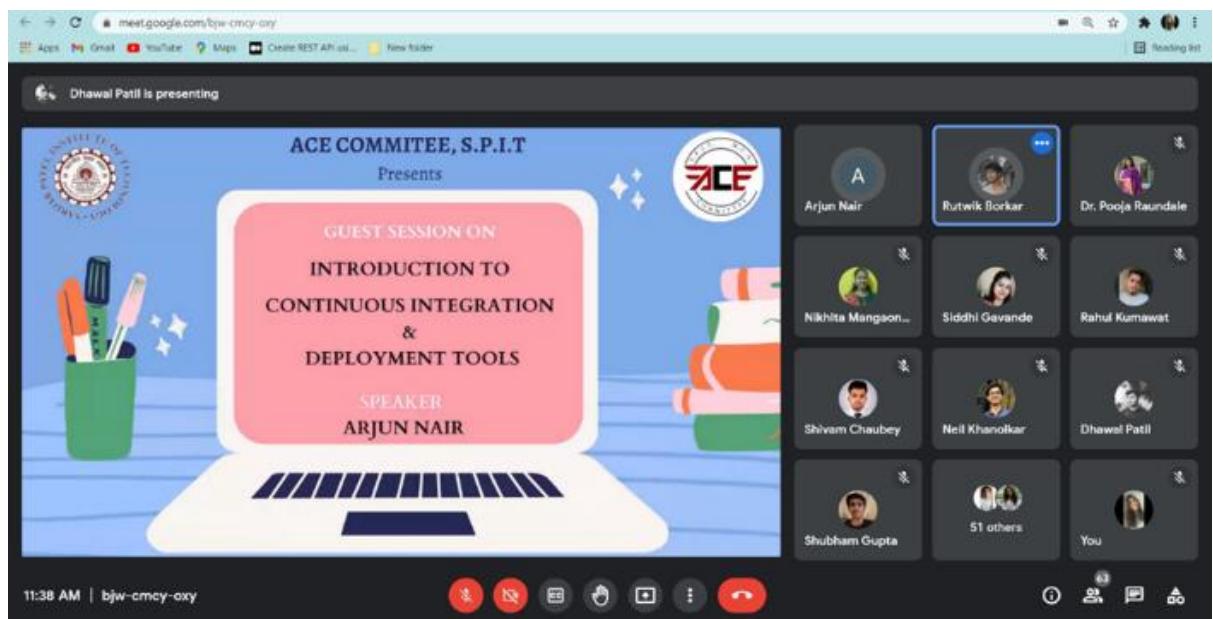

The event started with a welcoming note delivered by Mr. Rahul Kumawat and Prof. Harshil Kanakia. The speaker, Mr. Omkar Raykar, started with introducing Object-based database. Later, the speaker discussed about job trends and different certifications in the field of object-based database. After a question answer session, the event was concluded by Mr. Rahul Kumawat's and Prof. Harshil Kanakia's extension of gratitude towards the speaker.

Guest session on continuous integration and deployment tools by Mr. Arjun Nair

Date - 24th July 2021

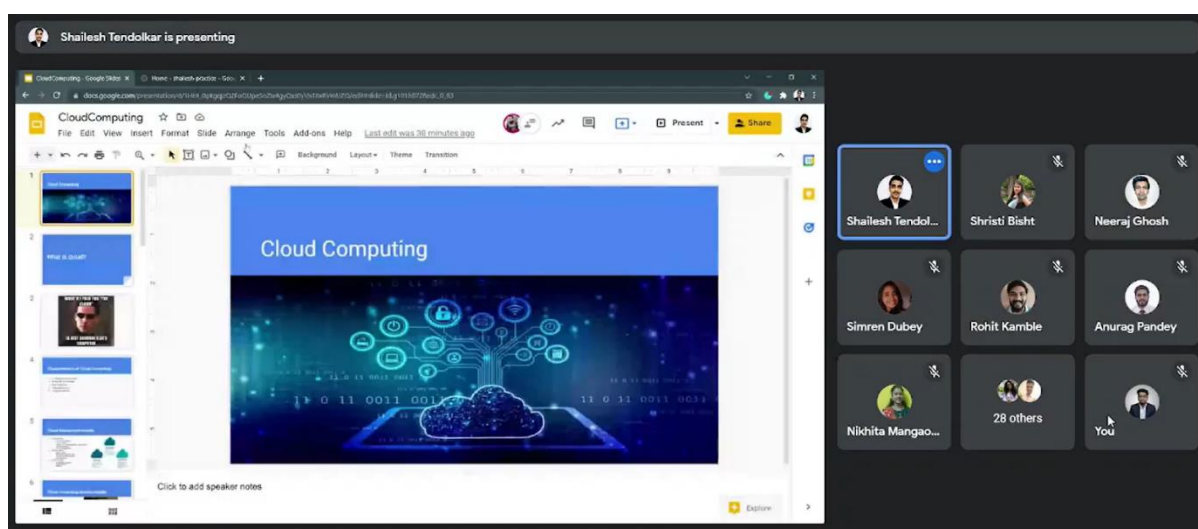

The event started with a welcoming note delivered by Mr. Rutwik Borkar. The speaker, Mr. Arjun Nair, started the session by introducing the students with the CI/CD tools and its applications. Later, the speaker discussed about job trends and different certifications in the field of CI/CD tools followed by a demo of real-time application of the tools. After a question answer session, the event was concluded by Mr. Rutwik Borkar's extension of gratitude towards the speaker.

Session on cloud certification by Mr. Shailesh Tendolkar and Mr. Satish Garje

Date - 16th November 2021

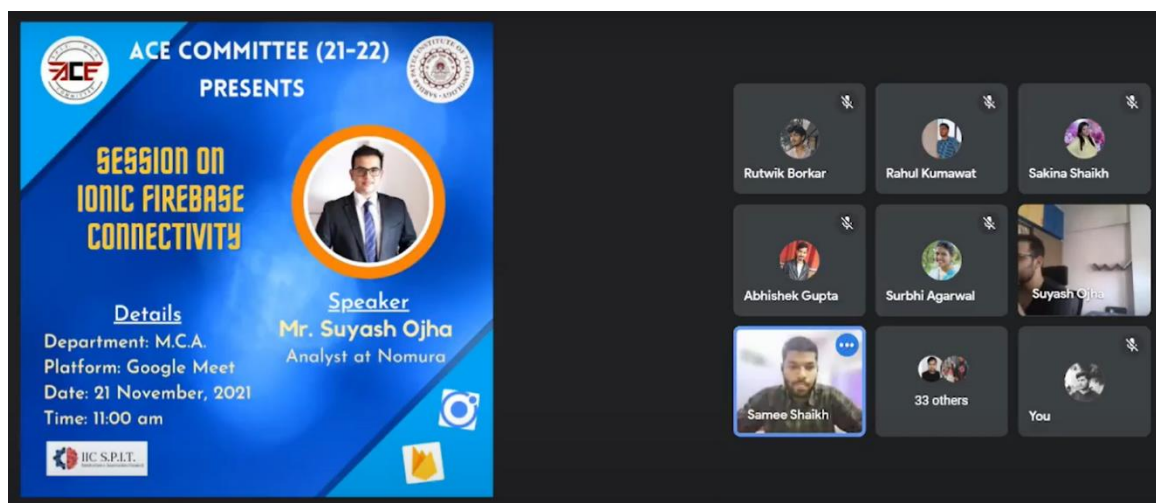

The event started with a welcoming note delivered by Ms. Srushti Bisht and. The speakers, Mr. Shailesh Tendolkar and Mr. Satish Garje, started with addressing the basic concepts behind cloud and cloud computing. Later, the speakers discussed various terminologies related cloud computing and guided the students about the process to get a cloud certification and start a career in this field. After a question answer session, the event was concluded by Ms. Srushti Bisht and Prof. Nikhita Managaonkar extension of gratitude towards the speaker.

Session on Ionic Firebase Connectivity by Mr. Suyash Ojha

Date - 21st November 2021

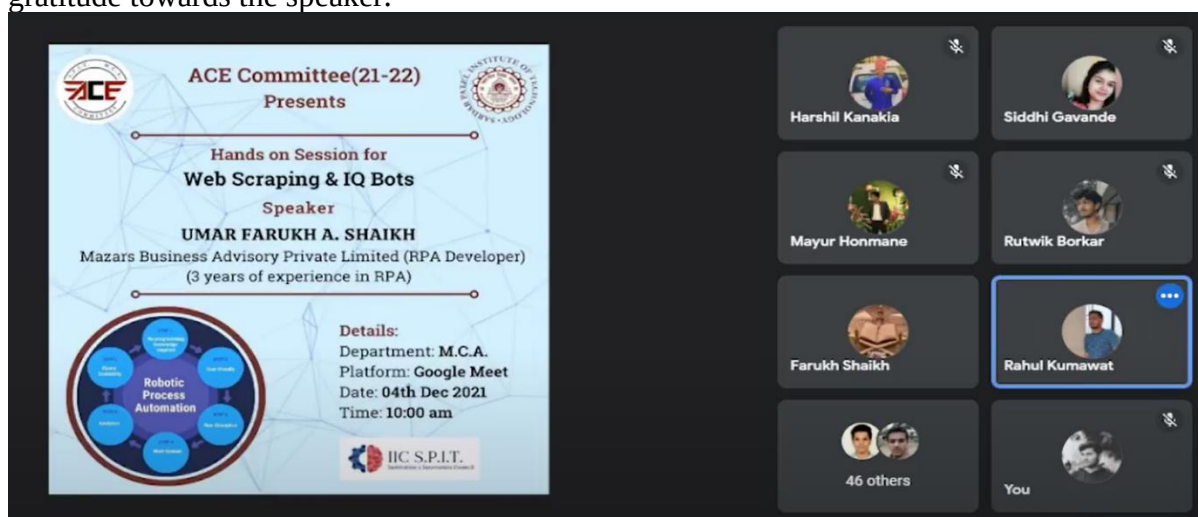

The event started with a welcoming note delivered by Mr. Samee Shaikh and. The speaker, Mr. Suyash Ojha, started with addressing the basic concepts behind database connectivity. Later, the speaker illustrated how to connect to firebase database in ionic and guided the students about the process. As, it was a hands-on session, so students were implementing the things simultaneously. The speaker also taught rules related to firebase connectivity. After a question answer session, the event was concluded by Mr. Samee Shaikh's and Prof. Sakina Shaikh's extension of gratitude towards the speaker.

Hands-on Session with Web Scraping and IQ Bots by Mr. Umar Farukh A. Shaikh

Date - 4th December 2021

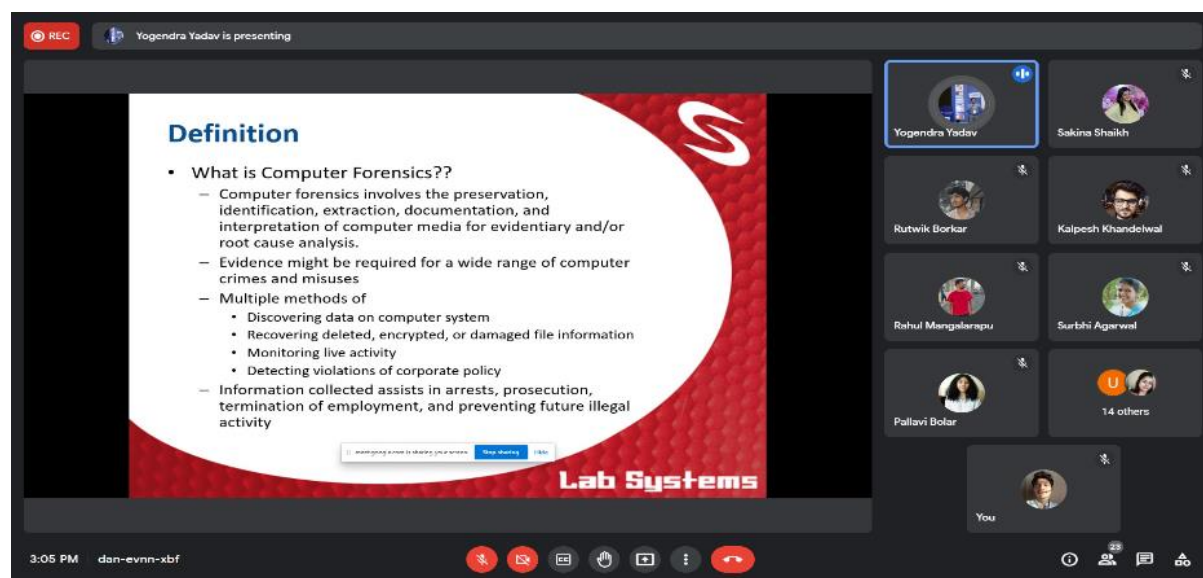

The event started with a welcoming note delivered by Mr. Rahul Kumawat and. The speaker, Mr. Umar Farukh, started with addressing the basic concepts behind Web Scraping and what are IQBots. Later, the speaker discussed various use cases of IQ Bots and guided the students how to create and execute IQ Bots. As, it was a hands-on session, so students were implementing the things simultaneously. The speaker demonstrated the execution on Automation Anywhere community edition software. After a question answer session, the event was concluded by Mr. Rahul Kumawat's and Prof. Harshil Kanakia extension of gratitude towards the speaker.

Hands-on Session on Digital Forensics by Mr. Yogendra Yadav

Date - 16th March 2022

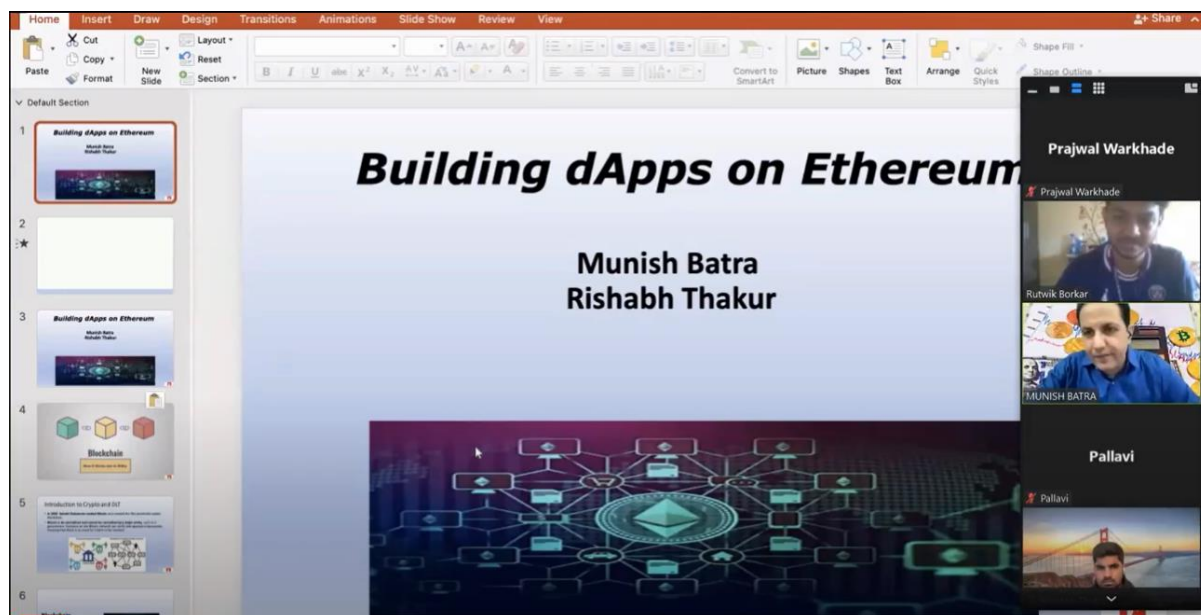

The event started with a welcoming note delivered by Mr. Aniruddha Deshmukh and. The speaker, Mr. Yogendra Yadav, started with addressing the need for Digital Forensics in today's world. Later, the speaker explained some of the fundamental concepts pertaining to the topic and shared their experience about the same to the students. As, it was a hands-on session, so students were implementing the things simultaneously. The event was concluded by Aniruddha Deshmukh and Prof. Sakina Shaikh's extension of gratitude towards the speaker.

Expert Session on Blockchain Technology by Mr. Munish Batra and Mr. Rishabh Thakur

Date - 18th April 2022

The event started with a welcoming note delivered by Mr. Rutwik Borkar. The speaker, Mr. Munish Batra, started by presenting a video of his organization. The speaker briefed about some of the fundamental concepts pertaining to the topic and showed a video explaining how blockchain works. Later, he explained how dapps work, and the basic concepts related to them. Mr. Rishabh then took over the session and demonstrated the process of making dapps on Ethereum using Remix IDE. As it was a hands-on session, students were implementing the things simultaneously. After a Q & A session, the event was concluded by Rutwik Borkar's and Prof. Pallavi Thakur's extension of gratitude towards the speaker.

Session on Software Testing by Mr. Kunal Nene

Date - 18th April 2022

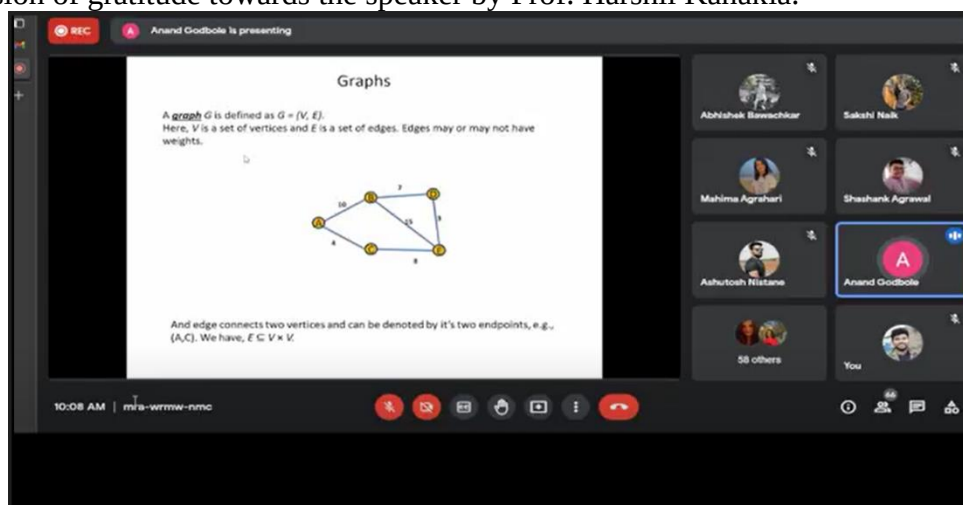

The event started with a welcoming note delivered by Mr. Aniruddha Deshmukh and. The speaker, Mr. Kunal Nene, started with addressing the need for Software Testing in today's world. Later, the speaker explained some of the fundamental concepts pertaining to the topic and shared their experience about the same with the students. The speaker explained various job titles related to the domain. After a question answer session, the event was concluded by Aniruddha Deshmukh's extension of gratitude towards the speaker.

Session on Graph Data Structure by Mr. Anand Godbole

Date - 20th April 2022

The event started with a welcoming note and introduction of the speaker delivered by Prof. Harshil Kanakia. The speaker, Mr. Anand Godbole explained the definition, purpose, and types of graphs. The speaker briefed about the Graph terminologies and showed the representation of the Graph. The speaker thoroughly explained the traversal algorithms of the Graph and its applications. After a Q & A session, the event was concluded with an extension of gratitude towards the speaker by Prof. Harshil Kanakia.

Session on Object Based Database by

Mr. Omkar Raykar

Date - 27th April 2022

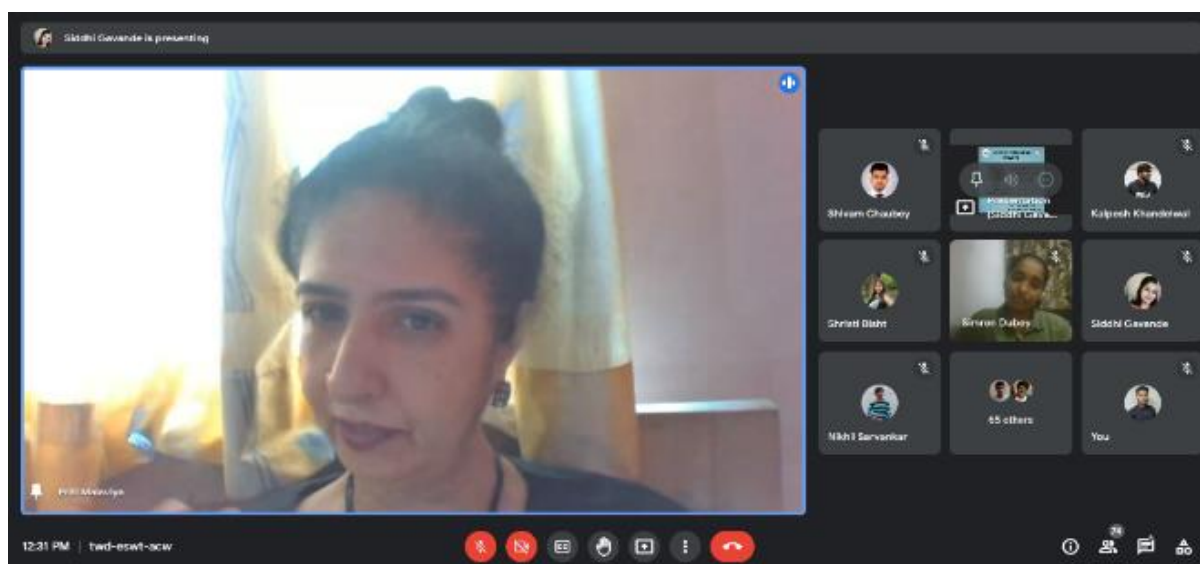

The event started with a welcoming note delivered by Mr. Rutwik Borkar. The speaker, Mr. Omkar Raykar, started with explaining the fundamental concepts pertaining to the topic. The speaker briefed about the complex datatypes, inheritance, object identity and the reference types in SQL. The speaker also acquainted the students about the pros and cons of Object Databases. Later, the speaker suggested the students to learn some additional topics. After a question answer session, the event was concluded by Prof. Harshil Kanakia's extension of gratitude towards the speaker.

Guest session on Interview Skills by Speaker Ms. Priti Malaviya

Date - 20th August 2021

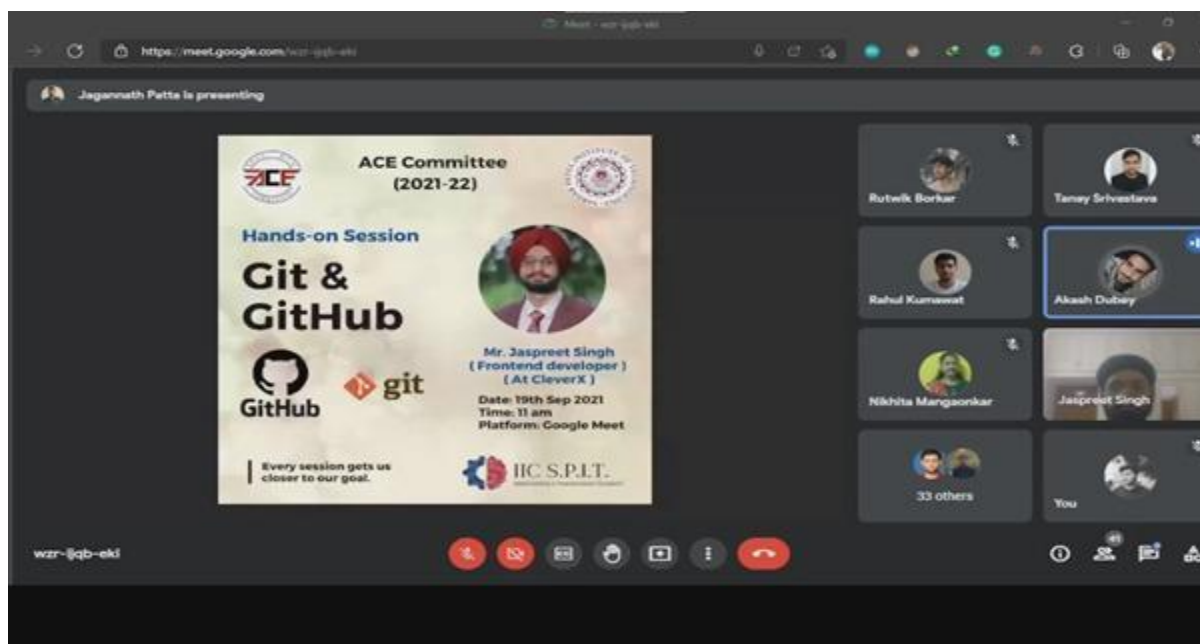

The event started with a welcoming note delivered by Ms. Simren Dubey. The speaker, Ms. Priti Malaviya, started with pointing out some common mistakes made by interviewees. Later, the speaker discussed about good practices to be followed in the interview, body language, and questions to be expected from the HR. Later, the speaker also discussed about the importance of soft skills, how we should sit as well as dress and groom for the interview. She gave specific presentation related tips and tricks to be used at the time of interview. She also explained various dos and don'ts regarding hand gestures, and movements. The speaker briefed about etiquettes of handing out resume to interviewer, sitting positions, and how to be confident throughout the interview process. After a question answer session, the event was concluded by Ms. Simren Dubey's and Prof. Nikhita Mangaonkar's extension of gratitude towards the speaker.

Hands-on session on Git and GitHub by Mr. Jaspreet Singh

Date – 19th September 2021

The event started with a welcoming note delivered by Mr. Akash Dubey and. The speaker, Mr. Jaspreet Singh, started with addressing the basic difference between Git and GitHub. Later, the speaker discussed various terminologies related to Git and GitHub and guided the students about its installation process. As, it was a hands-on session, so students were implementing the things simultaneously. The speaker also taught various commands related to GitHub. After a question answer session, the event was concluded by Mr. Akash Dubey's and Prof. Nikhita Mangaonkar extension of gratitude towards the speaker.

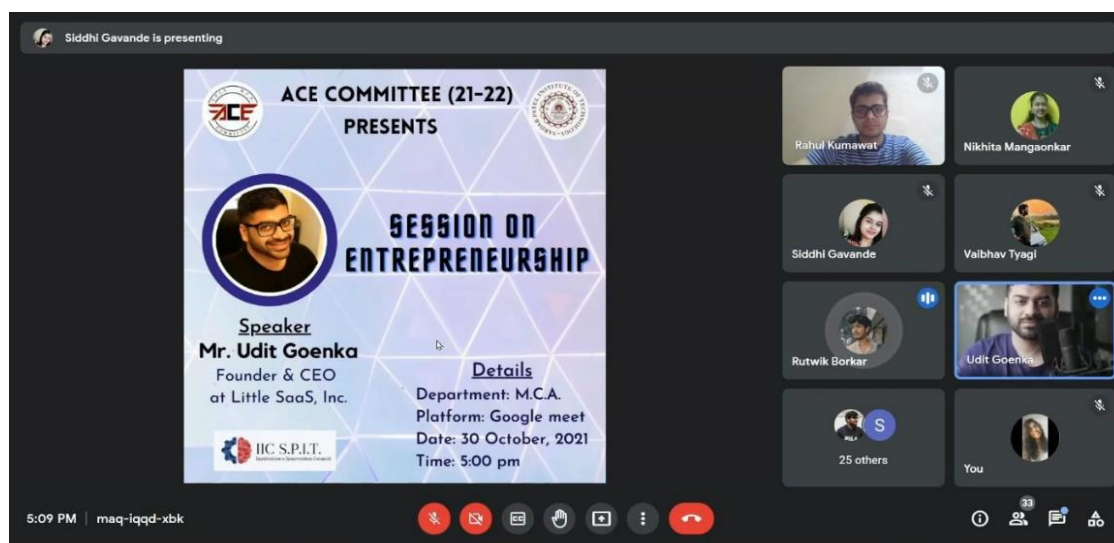

Session on Entrepreneurship by Mr. Udit Goenka

Date - 30th October 2021

The event started with a welcoming note delivered by Mr. Vaibhav Tyagi and the speaker, Mr. Udit Goenka, started with addressing the basic details about Entrepreneurship. Later, the speaker discussed the types of Businesses. Then Speaker explained how the businesses work which was on 3P's. He also told his experience about his entrepreneurship that where he lagged what, he has learnt about entrepreneurship. He shared his thoughts on how to begin to think or to be an entrepreneur.

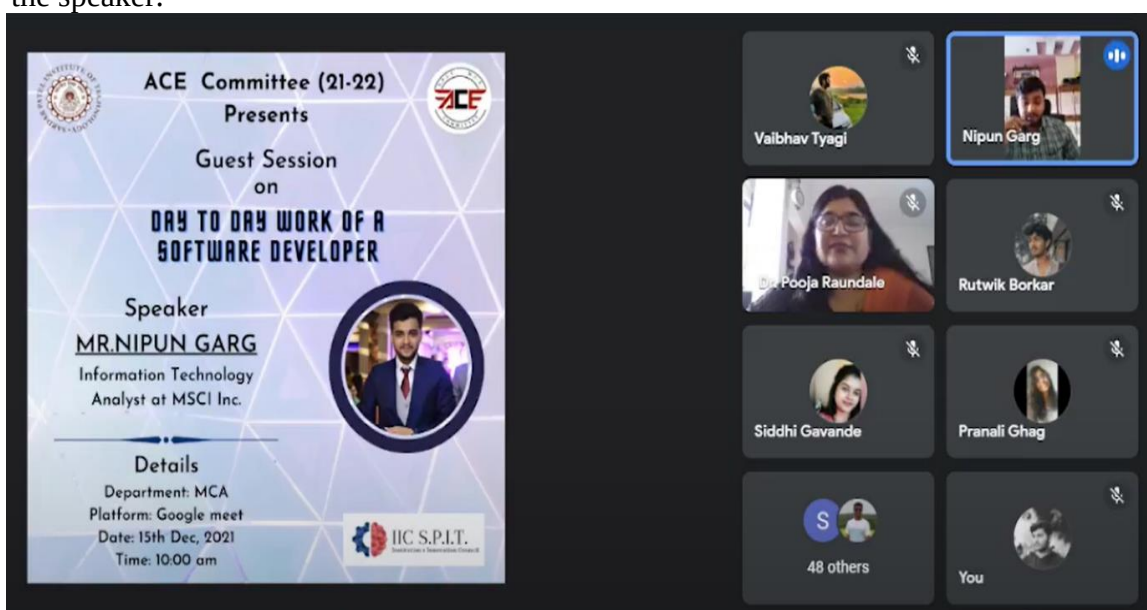

After delivering Effective knowledge about entrepreneurship the session leads towards question and answer where many student's doubts had been solved by Mr. Udit Goenka. After a question answer session, the event was concluded by Mr. Vaibhav Tyagi extension of gratitude towards the speaker.

Session on Day-to-Day work of a Software Developer by Mr. Nipun Garg

Date - 15th December 2021

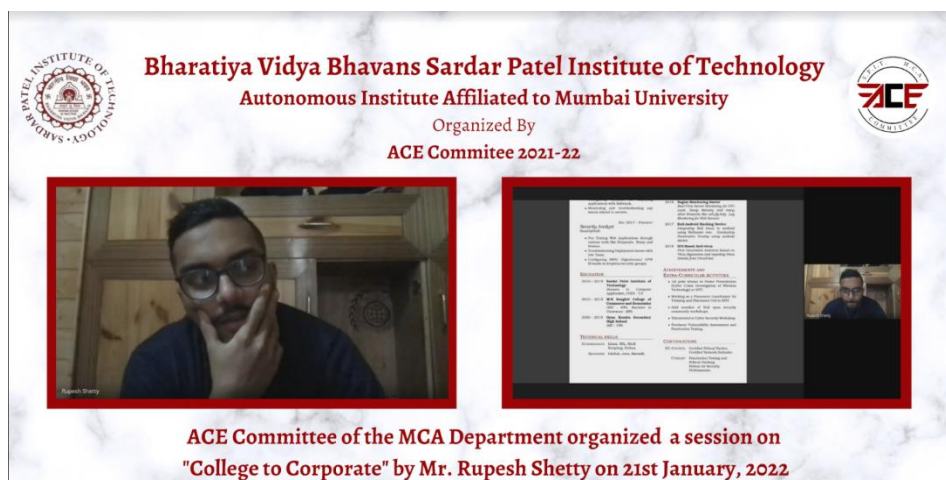

The event started with a welcoming note delivered by Mr. Vaibhav Tyagi and. The speaker, Mr. Nipun Garg, started with addressing the core responsibilities of a software developer as well as what a usual day of software developer looks like. Later, the speaker discussed various ways to prepare for college placements drive. The speaker also guided students on a proper approach to competitive coding. After a question answer session, the event was concluded by Mr. Vaibhav Tyagi's and Dr. Pooja Raundale extension of gratitude towards the speaker.

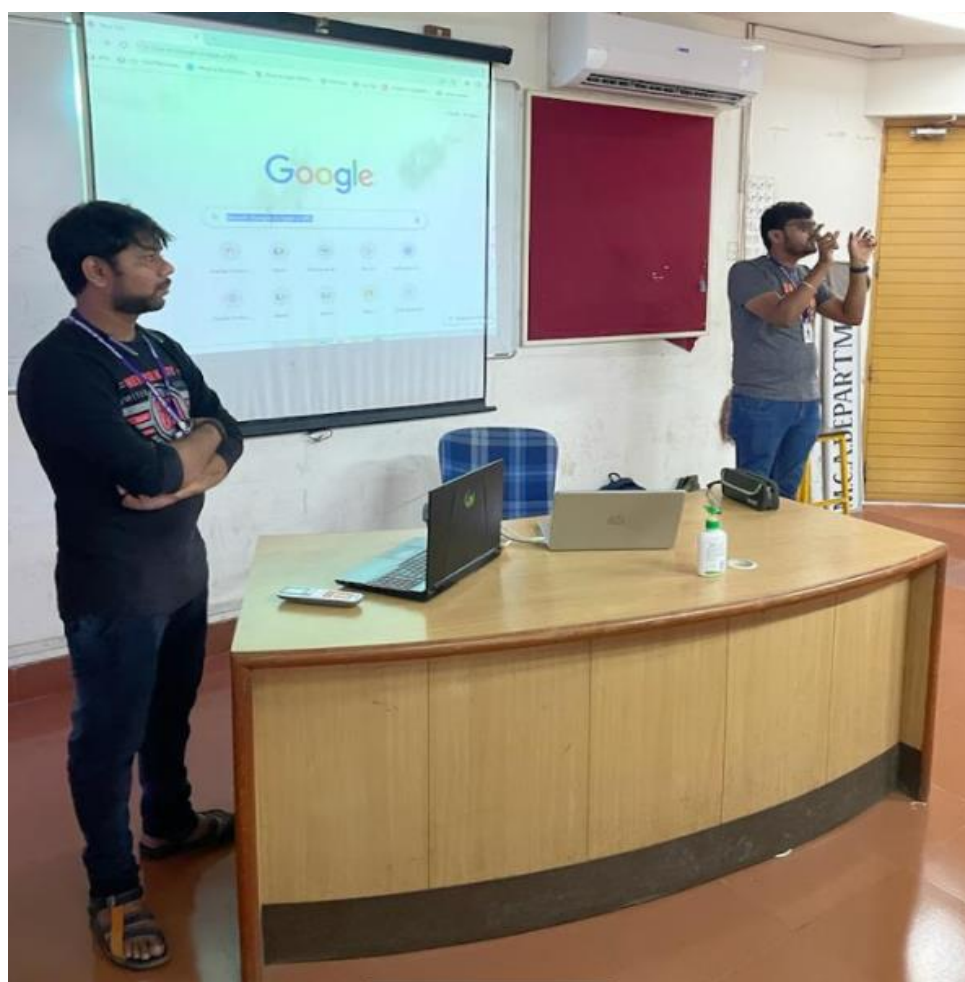

Session on college to corporate by Mr. Rupesh Shetty

Date - 21st January 2022

The Ace Committee 2021-22 of MCA department organized a guest lecture on Jan 21st, 2022, at 11:15 AM. The event was held in the presence Prof. Nikhita Mangaonkar of the MCA department, and students from FY. Everyone gathered on Google Meet for the event. The event started with a welcoming note delivered by Mr. Rutwik Borkar and. The speaker, Mr. Rupesh Shetty, started by Sharing his experience when he was in college and then addressing the core programming language on which he focused most as well as what a non-IT students need to focus on while doing MCA. Later, the speaker discussed various ways to prepare for college placements drive. The speaker also guided students on a proper approach to take projects seriously. After a question answer session, the event was concluded by Mr. Khsitij Koyande and Prof. Nikhita Mangaonkar extension of gratitude towards the speaker.

Hands-on Session on Web Hosting by Mr. Jaikishan Bagul & Mr. Kalpesh Khandelwal Date - 06th April 2022

The event started with a welcoming note delivered by Mr. Jagannath Patta and. The speaker, Mr. Kalpesh Khandelwal, started with addressing the basics of Web Hosting. Later, the speaker demonstrated the configuration of custom domains and. As, it was a hands-on session, so students were implementing the things simultaneously. Mr. Jaikishan Bagul demonstrated the hosting of static website on a git-hub page for free with setting up a custom domain and shared some tips on how to get a custom domain for free. After a brief question answer session, the event was concluded with Mr. Jagannath Patta's extension of gratitude towards the speaker.

Session on Money Management with CA Mr. Nitesh Buddhadev

Date – 20th April 2022

The event started with a welcoming speech and introduction of the speaker delivered by Mr. Rutwik Borkar. The speaker, CA Nitesh Buddhadev, started by introducing the students about the basics of money. Then the speaker asked the students to actively participate by interacting and answering the questions. He further showed some videos which showed the importance of beating inflation. He also mentioned the 7R's of wealth creation, the financial plan pyramid and how to invest money for wealth creation. He also explained about the rule of 72. He also suggested the students read behavior finance for getting detailed understanding. The event was concluded with a thanking note delivered by Mr. Rutwik Borkar.

Teachers' Day Celebration

Date - 05th September 2021

The event included a series of activities which were focused towards and showing our gratitude towards our teachers and having fun while doing it. Rutwik Borkar welcomed everybody with a small address. After stating how the pandemic has hindered our ability to celebrate the event in person and urging everyone to be enthusiastic. Dr. Pooja Raundale extended short welcome speech. the event was commenced with virtual Diya lighting and mantra uchhar to thank the almighty.

Three different games were conducted during the event.

1. Wheel of Fortune by Srushti Panchbhai
2. 5 object activities by Rahul Kumawat
3. Audio Activity by Siddhi Gavande

In each game winners score were calculated for the result

Sparsh Vyas Ma'am was declared as the winner of the Games session.

Ms. Pranali Ghag of ACE gave a speech together talking about the role and importance of a teacher in a person's lives, our faculty and how they helped us and then extended a token of thanks on behalf of the whole MCA department for their support. After the end speech, Pranali Ghag asked the faculty to say a few words and then concluded the event with a closing statement.

Dussehra Celebration

Date - 15th October 2021

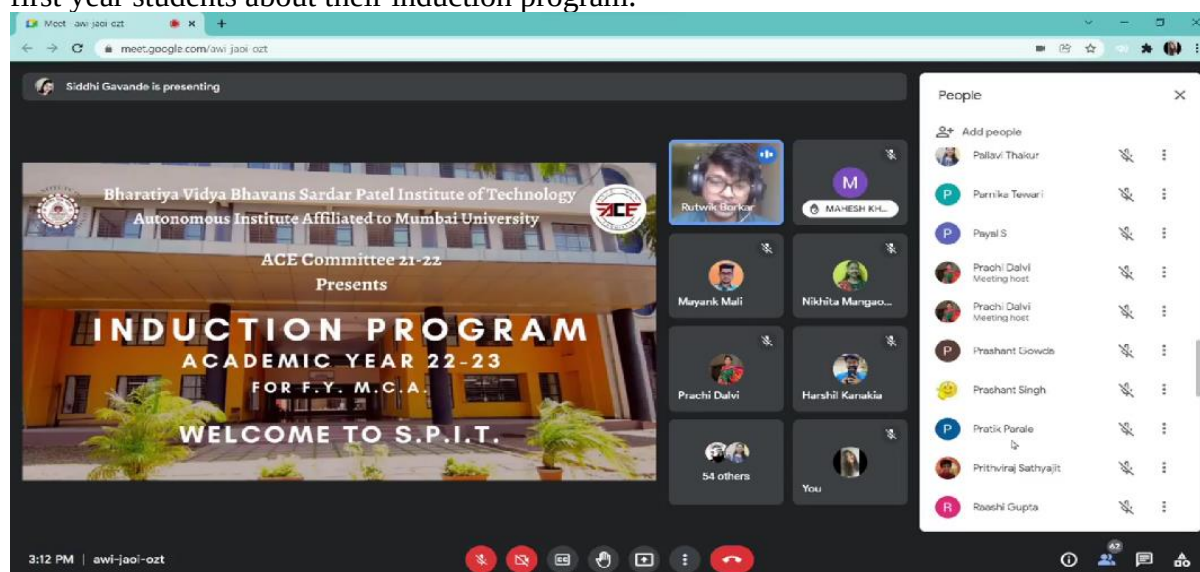

The event included a series of activities which were focused towards and showing our gratitude towards our festival Dussehra. Ms. Srushti Panchbhair welcomed everybody with a small address. Then she added some points about the festival then carry forwarded by the wonderful Aarti which was played up by Rutwik. The mid-session was led by Mr. Aniruddha Deshmukh in which he added the brief about the festival Dussehra. Then Ms. Siddhi Gavande called out the winner of the game which was played during the days of Navratri. Ms. Debaroti Biswas sang the beautiful song (Hei shubharam) then carried forward by Srushti in which she added some thought on the Dussehra and end of speech as well.

Introduction session with all the faculties and First year Students

Date - 6th January 2022

The event started with a welcoming speech delivered by Mr. Rutwik Borkar. Then with the help of PPT all faculty members were introduced. After that Prof. Prachi Dalvi, asked First year students to introduce themselves to everyone. Later, an Interview skills session video was played which will be helpful for them in future. Afterwards, the event was concluded with a thanking note delivered by Mr. Rutwik Borkar and further explained next 2 days schedule for first year students about their induction program.

ESA

Electronics Student's Association (ESA) has had a successful academic year 2021-22, with numerous events which had the students using their brains in technical, financial and analytical domains. ESA-SPIT organised events one and for all. The list of the events is attached below for further reference

1. The Guidance Forum
2. Teacher's Day Celebration
3. Alumni Talk
4. Electronics Hardware Workshop
5. LTspice Workshop
6. Webinar on VLSI
7. Alumni Talk 2.0
8. Techno Roast Battle
9. The Guidance Forum 2.0
10. I.C.E Cup

Report on Guidance Forum

Program driven by: IIC Calendar Activity

Program /Activity Name: A Guidance session for Second-year students for their HSS and Minor courses.

Event Name: Guidance

Forum Venue: Gmeet -
Online

Date: 31 August 2021

Brief-

Electronics Student's Association (ESA) organized an informative and helpful session on the 31st of August 2021 from 4.30 - 6.30 pm regarding the upcoming HSSE and Minor courses in the curriculum for the Second-year students. Their doubts were cleared, and they were provided with guidance from seniors and other important information which was necessary so that it becomes easier for them to choose the course of their preference with utmost certainty. The occasion was graced upon by Third Year students who have already taken such courses and hence having proper experience could explain and provide with actual pros and cons of each course.

The Objectives of the session-

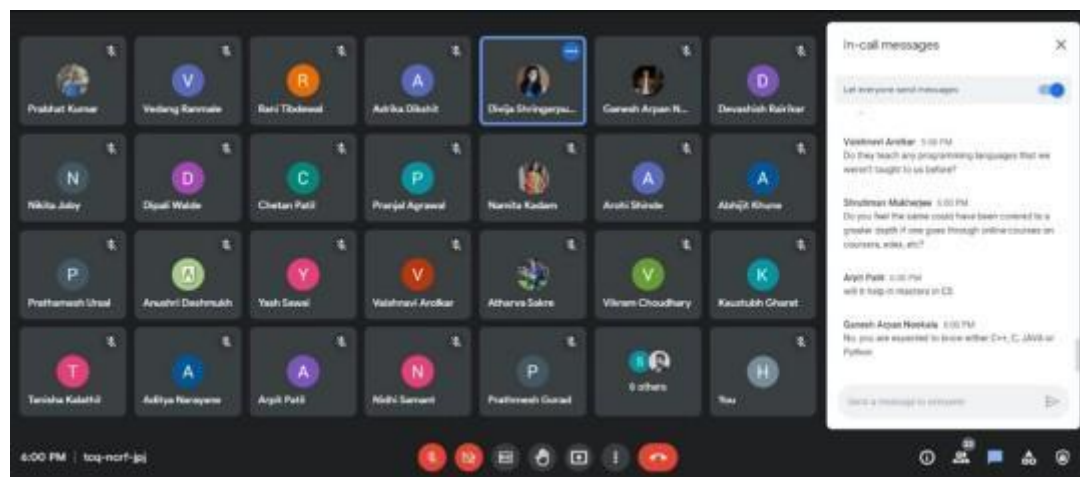

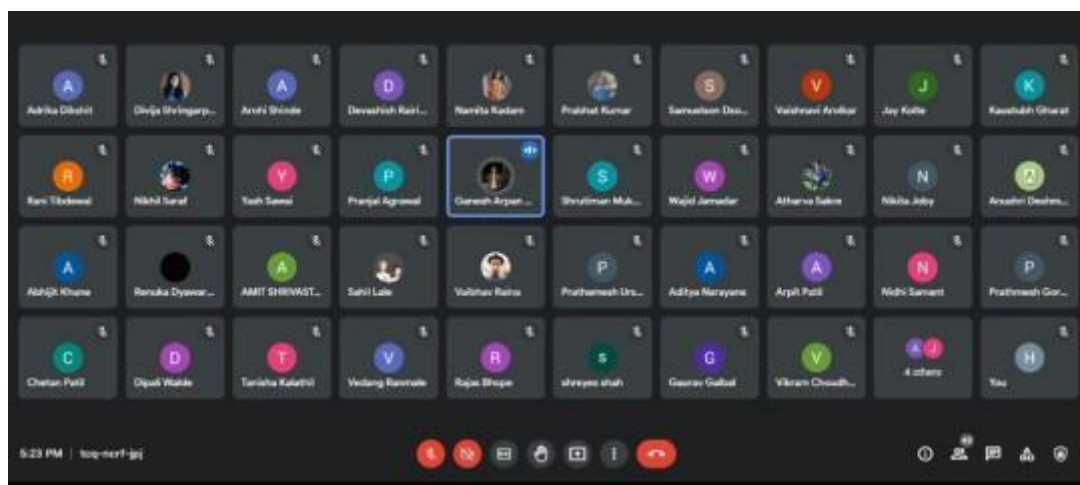

- To help the students decide whether they should take up minor courses considering many factors including difficulty level of each course, importance, time to be invested, etc.
- To give a description about each minor: Management, CS, IoT, and UI-UX Design.
- To clear doubts regarding the HSSE courses consisting of Finance, Law, Psychology, German, French, and NPTEL courses.

- To clear the major doubt of choosing between the HSSE Finance course or the Management Minor from SP Jain Institute of Management and Research with the advantages and disadvantages of both.

Event Flow-

An introduction concerning each course was given by a different speaker who was a senior from that respective course. More details and a proper description of the course were also provided. Moreover, a QnA (Question and Answer) session was held at the end of every speaker's oration where the seniors acknowledged doubts one by one.

Around 45 students attended the event with full participation and enthusiasm. Overall, students got their doubts cleared and were satisfied with the session.

Report on Teacher's Day Celebrations

Program driven by : IIC Calender Activity

Program /Activity Name: On account of teacher's day, some recreational activities, fun and entertainment specially organized for the Principal sir and the faculty members of the Electronics Department.

Event name – Teacher's Day Celebration

Venue – Google Meet (Online)

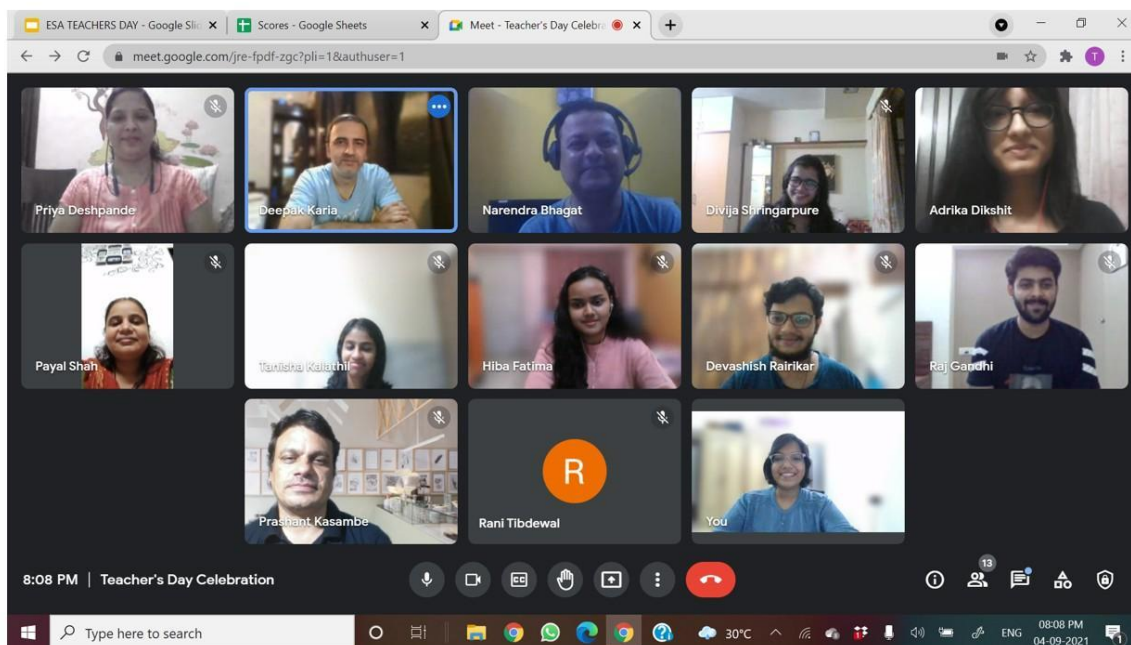

Date – 4th September 2021

The event was kicked off by Divija Shringarpure welcoming the teachers who took their precious time out of their busy schedules to mark their gracious presence which was mutually hosted by Rani Tibdewal and Divija Shringarpure, Chairperson and Vice-Chairperson for ESA 2021-2022 respectively.

Vedang Ranmale, a student from FE-ETRX played a soulful rendition of Taare Zameen Par which was followed by a series of games. The first one being “Emojis to Electronics” followed by “Tune out the music”, and “List the Lyric”. Then, Raj Gandhi, a student from FE-ETRX played the guitar and sang “Ek Ajnabee” and “O mere Dil Ke Chain” and lightened the competitive environment. This harmonious performance was followed by a fun game of “Dumb Charades” wherein Adrika Dikshit, Devashish Rairikar, Hiba Fatima, Raj Gandhi, Nikita Joby, and Tanisha Kalathil, the members of the ESA core team performed, and the teachers were made to guess the movie. The session was then concluded by a melodious singing performance by the Vice Chairperson of ESA, Divija Shringarpure on the song “Har Ghadi Badal”. The performance was then followed by the Vote of Thanks.

The faculty was seen enjoying the event which was the main reason for the event to be a success. The event was about an hour long and there was full participation by the teachers and the members of the committee which made this celebration special and memorable.

Report on Alumni Talk

Program driven by: IIC Calendar Activity

Program /Activity Name: An interactive session with Alumni of S.P.I.T. for students to calibrate a better understanding about the career paths.

Event Name: Alumni

Talk 1.0 Venue: Gmeet -

Online

Date: 25th September 2021.

It happened in two phases-

1. Alumni presentation: The alumni gave a descriptive presentation on the domain they are currently working in.
2. Student interaction with Alumni: The presentation was followed by a QnA session, where the attendees asked all the queries to the respective domain experts.

Objectives of the competition-

Benefit students as an eye-opener for them as to which domain they can choose and to have clarity on the scope of each and every domain offered to the engineering students.

Venue and time:

The event was hosted on Google meet on 25th September 2021, Saturday from 12:00-2:00 pm.

Audience:

The occasion was graced upon by four Alumni and an audience of 60 participants along with one host and the Electronic Student Association, S.P.I.T. team.

The Alumni were experienced professionals and were as follows:

Mr. Chirag Shah - Chirag Shah completed his bachelor's degree in Electronics engineering from SPIT in 2019. He currently works as Embedded Design Engineer at Sagar Defence Engineering. He has done internships at IIT Bombay, Fractal and IdeaForge and also conducted 3 workshops related to embedded design during his bachelors. His team won first place in E-Yantra robotics competition 2016 among 167 teams. He has worked on developing the electronics and embedded software for SkyDock- India's first "Drone in a box" solution.

Ms. Krisha Choksi - She has completed her diploma from VJTI and bachelor's degree in electronics engineering from SPIT in the year 2021. She was also the sports secretary of the college which adds another feather on her cap. She is currently working as a senior Analyst at GEP Worldwide.

Mr. Akash Junnarkar -Pursued Electronics Engineering at S.P.I.T. from 2017 to 2021. He currently works as Senior Developer at ICICI Lombard. His previous experiences include working with CRISIL limited, Bajaj Electricals. Mashreq Bank, the Climber and Buzz Opinion as an intern. His achievements include being the Runner-Up at KPMG Ideation Challenge & was winner at Case study competition at SIMS. Also has 3 publications in his name. Previously served as Chairperson of IEEE and Secretary General at S.P.I.T MUN.

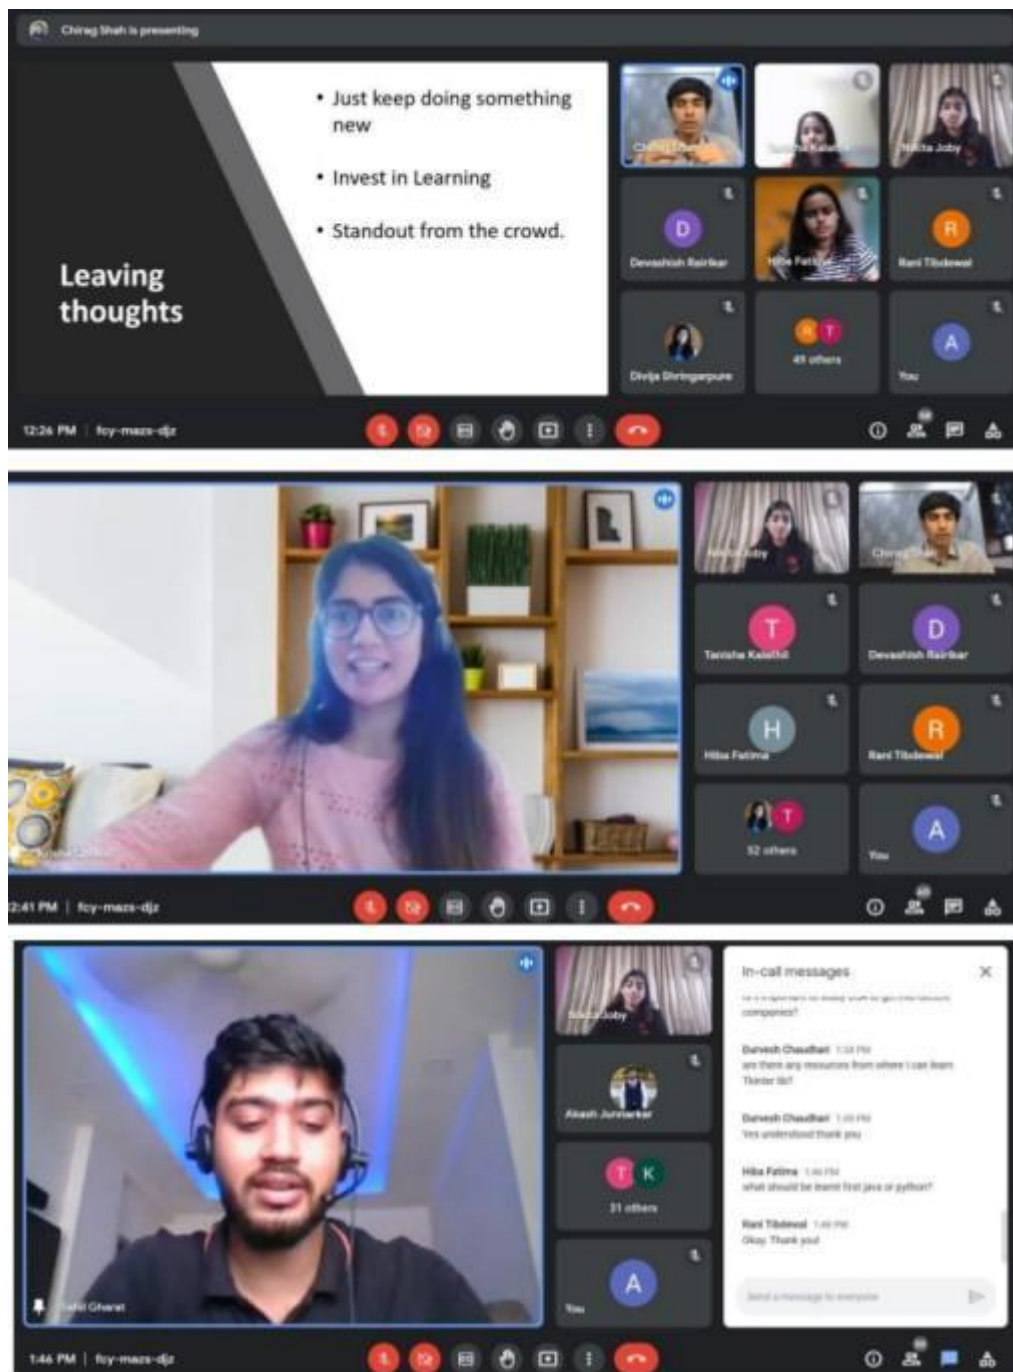

Mr. Sahil Gharat - Pursued Electronics Engineering at Sardar Patel Institute of Technology from 2017 to 2021. He's working as a software developer at ISS. His previous experiences also include working as a Data Analyst at Fox Domotics pvt limited and as a full stack web developer at TechskillsIt which is an online learning, Forum.

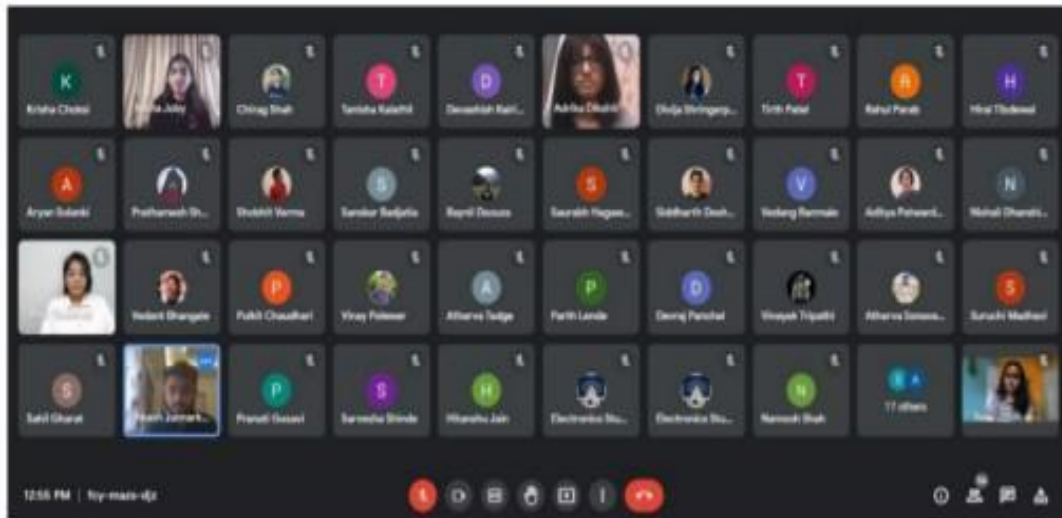

Event flow:

Mr. Chirag spoke on the aspect of being a core engineer. He gave extra input on the projects and courses that he undertook in S.P.I.T. He also added on details of how learning with dedication can lead to success. Ms. Krisha spoke on the aspects of consultancy and role of analyst at GEP Worldwide. She spoke on the demands of the recruiter and how the role of sports secretary

helped her realize her skill in management. She also pointed out the various challenges and domains of consultancy.

Mr. Akash spoke on the areas of technology domain and the requirements to enter into the role of Machine Learning Developer and its requirements. Mr. Sahil also gave an insight of a developer role and the required skill sets. All the speakers gave an insight about their preparation for placements and how to ace them and to stand out in front of recruiters. The session was an interactive as there were QnA session after the oration of speakers where they acknowledged doubts one by one.

Report on LTSpice Workshop

LTSpice is a high-performance SPICE simulation software, schematic capture and waveform viewer with enhancements and models for easing the simulation of analog circuits.

Brief:

Electronics Students Association (ESA) organized an informative and helpful session on the 8th of October 2021 from 4:30-5:30 pm for the benefit of second year students to understand the Ltspice Software Simulation. Their doubts were cleared, and they were provided with an approach on how to tackle a problem statement and do analysis through software. The occasion was graced upon by Mr. Jenil Dave (TE ETRX) who also provided its presentation for further reference.

The Objectives of the Session:

- To help the students understand the working of Ltspice Software
- Understand its technicalities and approach through problem statements

Event Flow:

An introduction to LTSpice software through presentation was given by Mr. Jenil Dave along with a live hands-on session with the software through problem statements. Moreover, a QnA (Question and Answer) session was held after the speaker's oration where he acknowledged the doubts and also provided the tips with respect to the software and problem statement analysis. Attendance:

Around 30 students attended the event with full participation and enthusiasm. Overall students were satisfied with the session.

Report on Hardware Workshop

Brief:

Electronics Students Association (ESA) organized an informative and helpful session on the 1st of October 2021 from 4:30-5:30 pm for the benefit of second year students to understand the various topics of MOSFET, diodes, motors, DSO and much more. Their doubts were cleared and was provided by the guidance from Mr. Prabhat Kumar (TE ETRX) and other information which was necessary for the foundation of the subject Electronic Devices.

The Objectives of the session:

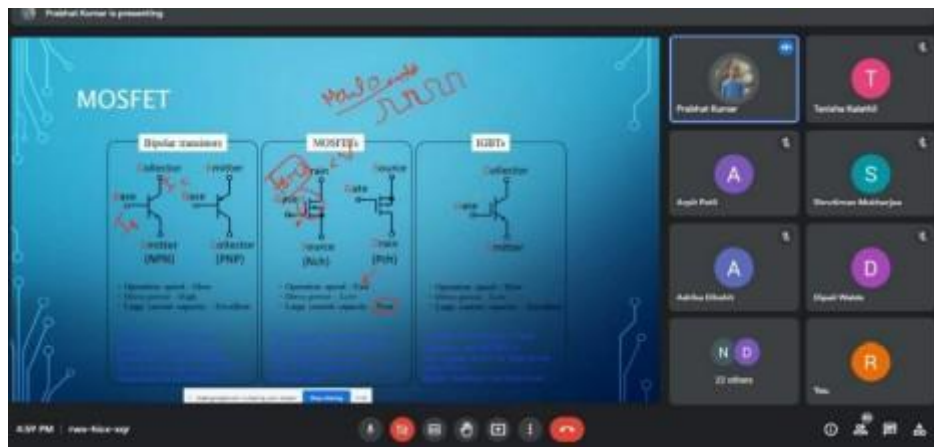

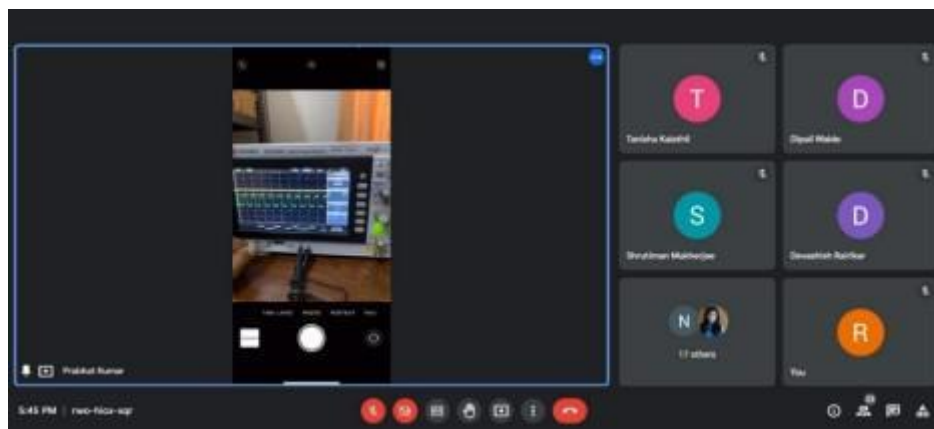

- To help the students build the foundation of subject knowledge
- Interactive session to learn about different types of electronic devices and have a basic understanding.
- Approach towards Mini - Project
- Contents covered - OP-AMPS, MOSFET, RELAYS, SCR, MOTORS

Event flow:

An introduction to different types of electronic devices was given by Mr. Prabhat Kumar along with live footage of the DSO and also conducted hands-on session based on the theoretical concepts through presentation and asking the audience questions. Moreover, a QnA (Question and Answer) session was held at the end of speaker's oration where he acknowledged the doubts.

Attendance:

Around 30 students attended the event with full participation and enthusiasm. Overall students were satisfied with the session.

Report on VLSI Webinar

Two phases of the webinar:

1. A walk through the different aspects of VLSI:

An introduction with a detailed insight was provided to the students on VLSI technology

2. QnA session:

The webinar was followed by QnA session, where the attendee asked questions and resolved their doubts.

Objective:

- To introduce the students to the concept of VLSI and its great demand in today's day and age.

Venue and Time:

The webinar took place on the Google meet platform on October 18, 2021 at 6pm

Audience:

Second year students of electronic and telecommunication and electronics of Sardar Patel Institute of technology formed an audience of about 90 along with Electronics Students Association (E.S.A.) team.

Event Flow:

Surendra Sir started the webinar with brief introduction on various domain on VLSI such as : VLSI mixed signal design, Nano electronics, ASIC design, Integrated circuit manufacturing,

VHDL, verilog system. He further went on to add about SOC and their architecture. Following that, students were taken on a tour of the initial stages of this demanding technology. The VLSI domain was started by the invention of the transistor. Later a group of 8 people known as the traitorous eight divided up and found companies like Intel, Fairchild etc. All these companies in some or the other way pioneered a part in the VLSI industry. He also pointed out the challenges in making the IC smaller. He concluded by speaking about the design and testing in the VLSI industry where he said that testing is the major part and design has a very low but highly skilled workforce. He also gave a brief insight on the various fields which an electronics or telecommunication student could explore and also talked about learning FPGAs.

Report on Alumni Talk 2.0

Program driven by: IIC Calendar Activity

Program /Activity Name: An interactive session with Alumni of S.P.I.T. for students to calibrate a better understanding about the wide aspects of further studies.

Event Name: Alumni Talk 2.0

Venue: Gmeet - Online

Date: 13th November 2021.

It happened in two phases-

1. **Alumni presentation:**
2. **Student interaction with Alumni:**

Objectives of the competition -

Benefit students as an eye-opener for them as to which domain they can choose and to have clarity on the scope of each and every domain offered to the engineering students.

Venue and time:

The event was hosted on Google meet on 13th November 2021, Saturday from 6:30-8:00 pm.

Audience:

The occasion was graced upon by four Alumni and an audience of 85 participants along with one host and the Electronic Student Association, S.P.I.T. team.

The Alumni were experienced professionals and were as follows:

Mr. Rohan Mestri -

He is an alumnus of SPIT (ETRX Batch of 2019). After graduating, his strong interests in coding, ML/AI and software motivated him to enroll for an MS in Computer Science at North Carolina State University. He now works as a Software Engineer at Amazon Web Services in Boston, as a part of the Amazon Detective team.

Mr. Chetan Jogi -

He is from batch 2013-17 ETRX Engineering. He is currently working at Adobe (aka the Photoshop company) with India's Go-to-Market team from the past 7 months, stationed currently at Mumbai. Previously, was working as a Key Account Manager with Monocept Consulting, a software services firm based in Hyderabad.

Mr. Lance Fernandez -

He is a Master of Science student at Purdue University. He is part of the Integrated Circuits and Devices Laboratory at Purdue. His master's research is focused on Ferroelectric transistors for non-volatile memory applications. Lance is also interested in Analog Circuit Design.

Event flow:

All the speakers gave an insight about their preparation for placements and how to ace them and to stand out in front of recruiters. The session was an interactive as there were QnA session after the oration of speakers where they acknowledged doubts one by one.

**Report on Techno Roast Battle**

Program driven by: IIC Calendar Activity

Program / Activity Name: A Technical Debate Competition

Event Name: Techno Roast

Battle Venue: Online

Date: 28 November 2021

Brief:

Electronics Student's Association (ESA) organized Techno Roast Battle, a technical debate and rebuttal competition on 28th November, 12 noon onwards. All the teams participating got complimentary topics allotted one day prior to the competition, for example, 5g vs 4g as they had to research on this topic. The teams then had an oxford-style debate wherein they had to roast their opponent in the form of direct statements and talk about the benefits of their topic and demerits of the opponents' topic.

Objectives:

- To help students develop effective communication skills along with helping them convey their technical knowledge.
- To help students generate effective critical thinking into primary technical issues in the given topic.
- To give importance to the electronics perspective when thinking about the technical aspect of things.

The Flow of Event:

- Participants were allotted their topics like Apple vs iPhone one day prior to the competition.
- The event was approximate 3 hours consisting of 8 teams.
- During the roast battle of 2 teams, only the 2 teams, the judges, and Esa members were allowed in the Google Meet.
- The event started with a brief introduction by the host, and the host also said the rules once. Then there were 8 rounds, with 2 teams in each round. There was a short break of 10 mins after the 4th round and the event was resumed. In the end, the result was announced a day later.
- The top three winners received cash prizes and a certificate of accomplishment and everybody got a participation certificate.

Venue and time:

The event was hosted on Google meet from 12 noon-3 pm on the 28th of November 2021, Sunday.

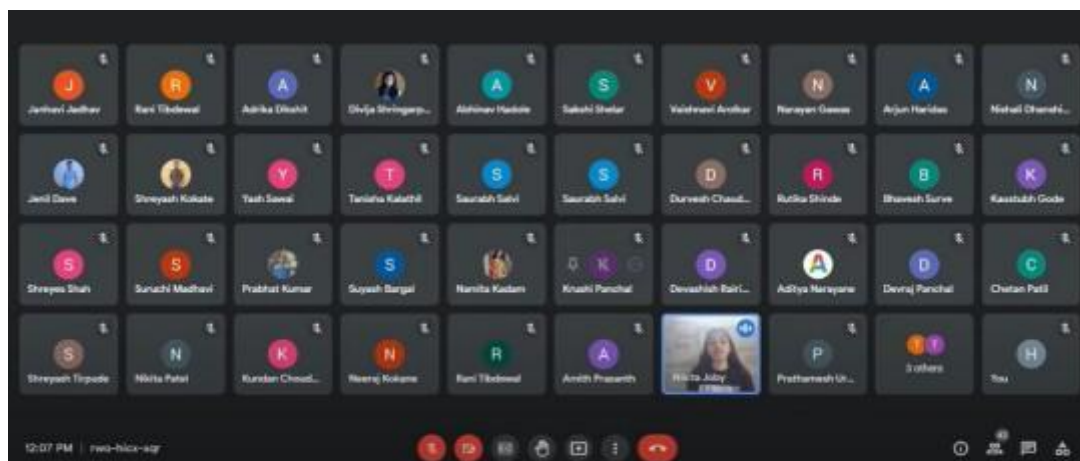

Audience:

The occasion was graced upon by Prabhat Kumar, a third-year student as the judge for the event who has a plethora of knowledge about Electronics and the technical aspects of electronic gadgets

Report on The Guidance Forum 2.0

Program driven by: IIC Calendar Activity

Program /Activity Name: A Guidance session for Second-year students for their Semester 4 Mini Project.

Event Name: Guidance Forum 2.0

Venue: Gmeet - Online Date: 22 January 2022

Brief:

Electronics Student's Association (ESA) organized an informative and helpful session regarding the upcoming Mini Project in the curriculum for the Second-year students. A one-on-one Question and Answer session also took place where doubts were cleared and further necessary information was given. The speakers were Third Year students who have already done the Mini project in their second year and hence had prior expertise and experience.

Objectives:

- To help students select domains like Microcontrollers, Analog, etc for their project.
- To clear doubts regarding what type of projects should be done.
- To provide students with a tentative timeline regarding how long a specific type of project will take and to give them tips to manage it.

Venue and time:

The event was hosted on Google meet from 12 noon-1 pm on the 22nd of January 2022, Saturday.

Attendance:

The occasion was graced upon by third-year students as speakers and around 60 students attended the event with full participation and enthusiasm.

Report on I.C.E. Cup

The annual flagship event of E.S.A. called the E.S.A. Cup was this year organized in collaboration with the I.T.S.A. (Or now A.C.S.E.S.) committee and called the I.C.E. Cup. This was the first offline event organized by the Electronics Students Association after the pandemic and it truly reminded students of the offline college life.

Date: March 12 and 13, 2022

Venue:

Volleyball: S.P.C.E. Volleyball court

Football: UMRB Turf, Andheri Sports Complex

Cricket: UMRB Turf, Andheri Sports Complex

Audience:

We received participation from students in Electronics, I.T., and the first-year students in CSE-DS and CSE- AI/ML.

The I.C.E. cup received active participation from both boys and girls, a total of around 170 children had participated in either of the sports.

Event Flow:

The tournament commenced on March 12 with Volleyball that began at 7:30am with each set comprising 25 points. A total of 6 teams had registered and were divided into 2 groups of 3 teams and a compulsion to include at least one girl in the team. Top 2 from each group had qualified for the semi-finals. From group A the FE CSE-DS and AI/ML team and the SE-IT team qualified for the semi-finals and from group B TE IT and SE ETRX team qualified for the semi-finals. There was a tough fight between all the teams. Third year IT and Second year ETRX teams had made it to the final and TE IT won by winning the deuce. This was followed by a football tournament organized at the UMRB Turf, Andheri Sports Complex. The reporting time was at 2pm and each match was of 15 minutes (each half-time of 7 mins and a timeout of a minute). Number of players in a team was 6+(1 substitute). The teams were divided into 3 groups. The team finishing first in every group directly qualified for the Semi-Finals. Of the three teams finishing second in each group, the team with the highest Goal Difference booked a slot for themselves in the Semi-Finals. The finals football match between TE IT and SE ETRX ended with a tie which was then followed by a round of penalty shoot outs won by TE IT.

Forum for Aspiring Computer Engineers (F.A.C.E.)

Core Committee for the Year 2021-2022

Position of Responsibility	Name
Chairperson	Naitik Jain
Vice Chairperson	Madhav Lahoti
Executive Head	Manan Shah
Technical Head	Samkit Shah
	Aditya Karote
Head of Events	Param Kothari
Secretary	Parth Gujarathi
Treasurer	Yash Jain
PR Heads	Paras Mehta
	Keyur Pancholi
Creative Head	Tarun Agarwal

Placement Webinar On vs Off Campus

Speakers: This event had three speakers: Neha Lakhani (BE IT), Rucha Nargunde (BE COMPS) and Rishi Kaul (BE COMPS).

Who attended: This event was open to FE, SE, TE and BE students of all colleges.

Attendance: Total of 300 plus people expressed interest in attending this event. Peak attendance in this webinar was a total of 200 participants from all branches of all colleges.

Date: 25th July, 2021.

Duration: 1 hour 30 minutes.

Platform: Google meet

Photographs:

Report of the event:

The webinar began with a short introduction of all the three speakers. They then explained why they chose their particular domain of work to the audience. This was followed by a panel discussion in which the speakers were quizzed regarding various aspects of preparing for and securing placements.

They were first asked about Pre-Placement Offers (PPOs) and the method of preparation regarding that. This was followed by them sharing their experience of applying for and successfully landing an internship. They informed the audience about what projects to take up and how to plan out their resume. Next, they spoke about hackathons and other coding competitions detailing their importance. They also talked about acing the interview process and developing interpersonal skills. The discussion was then opened to questions from the audience. After a few questions, the panel discussion was concluded.

Feedback:

The event was very well-received by the students. Everybody gained a much better understanding of the journey to getting placed. The speakers, having gone through the whole process, were able to provide advice and guidance. The event was described as being insightful and valuable.

Outcome of the event:

This event was organized mainly to enlighten students about the road map to getting placed and what are the dos and don'ts to follow. The audience was enthusiastic in asking their questions to the speakers. Everybody gained an understanding regarding placements and how they work.

Purpose of the Placement Webinar was to instill professional skills and students learnt about the path to securing great placements and the way of planning to achieve them. PO9 (Individual and Team Work), PO10 (Communication) were achieved through the event at a level 3.

Criteria for Evaluating the Event:

- 1) **Level 1:** If the POs achieved are not upto the expectations.
- 2) **Level 2:** If the POs achieved were upto the expectations but made the committee realise that it could be improved to better levels.
- 3) **Level 3:** If the POs achieved exceeded the expectations in all aspects.

Code It Out

Who attended: This event was open to FEs from all over the country.

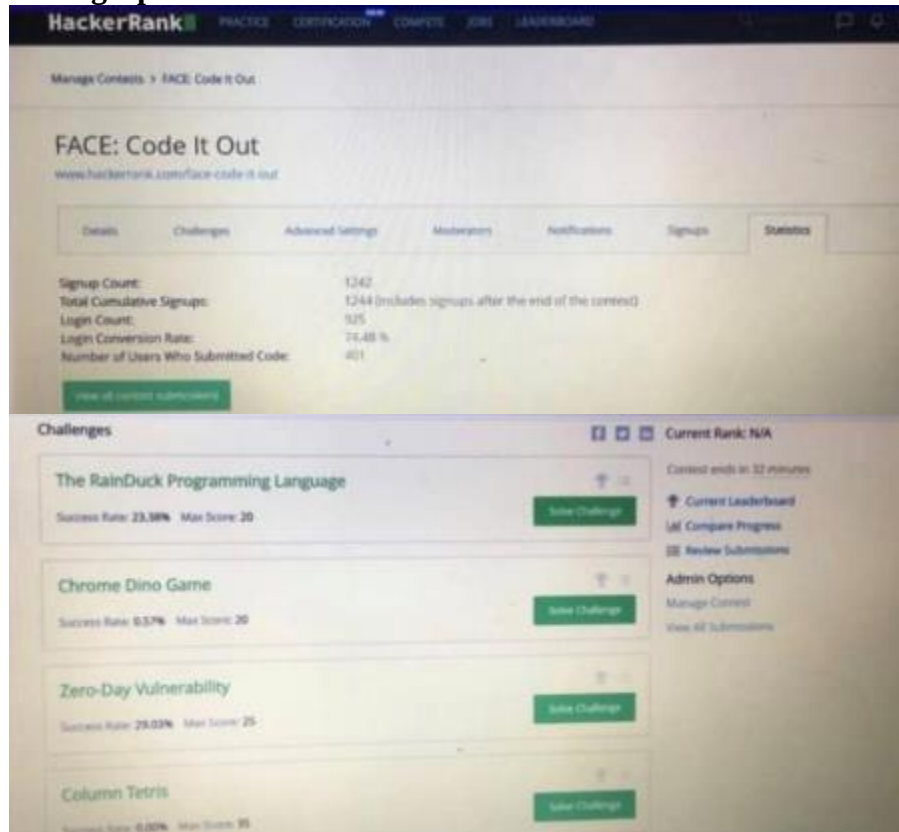

Attendance: Total of over 1000 participants

Date: 31st July, 2021.

Duration: 2hrs

Platform: HackerRank

Photographs:

Report of the event:

The event was hosted on HackerRank and had participants from all over the country had participate as it was hosted on D2C. It was scheduled on 31st of July and there where in total 4 programming questions. The participants were allowed to code in various languages like C, C++, Java, etc. The problem statements where designed by our tech head Aditya Kharote and overall the event was a massive success.

Feedback:

The event was very well-received by the students. Everybody gained a much better understanding of the journey to getting started in such coding competitions. The event was described as being insightful and valuable.

Outcome of the event:

This event was organized mainly to help the fresher students to get an idea of how such coding competitions are. The participants were enthusiastic and tried their level best to solve the

problem statements. Everybody gained an understanding regarding these kind of competitions

Purpose of the Placement Webinar was to in still a basic experience of how competitive coding works and students learnt about the it via This competition. PO2 (Problem analysis), PO3 (Conduct investigation of complex problems), PO4 (Design/development of Solution) and PO9 (Individual and Team Work) were achieved through the event at a level 3.

Criteria for Evaluating the Event:

- 1) **Level 1:** If the POs achieved are not up to the expectations.
- 2) **Level 2:** If the POs achieved were up to the expectations but made the committee realise that it could be improved to better levels.
- 3) **Level 3:** If the POs achieved exceeded the expectations in all aspects.

Competitive Programming Webinar

Speakers: This event had three speakers: Mahipal Purohit(BE COMPS), Bhavya Shah(TE COMPS) and Sahil Marwaha(TE COMPS).

Who attended: This event was open to SE,TE ,BE and MCA students of SPIT.

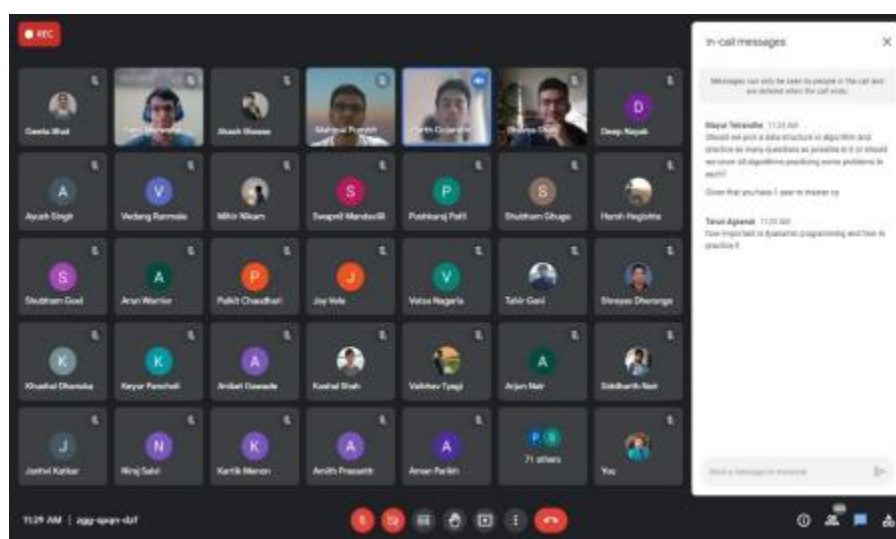

Attendance: Total of 150 plus people expressed interest in attending this event. Peak attendance in this webinar was a total of 105 participants from all branches of SPIT.

Date: 2nd October,2021.

Duration: 1 hour

Platform: Google meet

Photographs:

Report of the event:

The webinar began with a short introduction of all the three speakers. They then explained their journey of competitive programming. This was followed by a panel discussion in which the speakers were quizzed regarding various aspects of preparing competitive programming

They were first asked about resources for competitive programming which they referred to as beginners. They were informed about the language they preferred for competitive programming and also provided valuable tips to tackle different kind of errors and difficulties faced by the students. They also stressed on the fact that competitive programming is a very important factor for getting placements. The discussion was then opened to questions from the audience. After a few questions, the panel discussion was concluded.

Feedback:

The event was very well-received by the students. Everybody gained a much better understanding of the journey to start or excel in competitive programming. The speakers, having gone through the whole process, were able to provide advice and guidance. The event was described as being insightful and valuable.

Outcome of the event:

This event was organized mainly to enlighten students about the road map to excel in competitive programming and what are the dos and don'ts to follow. The audience was enthusiastic in asking their questions to the speakers. Everybody gained an understanding regarding it and how they work.

Purpose of the Competitive Programming Webinar was to instill coding skills and students learnt about the to doing well in such coding competitions and the way of planning to achieve them. PO5 (Modern Tool Usage), PO10 (Communication) were achieved at a very level 3. PO2 (Problem analysis), PO3 (Conduct investigation of complex problems), PO4 (Design/development of Solution), PO6(Environment and Sustainability), PO8(Individual and Team Work),PO11 (Project Management and Finance),PO12 (Life-Long Learning) were achieved at level 2.

Criteria for Evaluating the Event:

- 1) **Level 1:** If the POs achieved are not upto the expectations.
- 2) **Level 2:** If the POs achieved were upto the expectations but made the committee realise that it could be improved to better levels.
- 3) **Level 3:** If the POs achieved exceeded the expectations in all aspects.

Bid To Win-Football Auction

Speakers: This event was hosted by the FACE Core of 2021-22. The auction was conducted physically in the college by the members of the committee. It was the first offline event conducted by FACE after the pandemic

Attendees:

Football Auction had 10 teams of 2-4 people each.

Date: 10th October 2021.

Duration: 3 hours 30 minutes

Photographs:

Report:

This event was conducted on Sunday in the college in the conference room. There were 10 teams participating in the auction. Each team was assigned a real-world Barclays Premier League team to play as and the auctioning began. Players were displayed one by one on the projector and teams bid for their preferred players. The live status of each player was updated and displayed to the participants through an Excel sheet.

At the end of the bidding the teams were recorded and the auctioning ended. The scoring was uniquely based on the real-life performance of the players in the Barclays Premier League for the next 3 weekends. A detailed scoring system was sent to the participants beforehand which was based on player's actual match performance. Apart from this there were also special power cards. The scores were updated and displayed to the participants on a daily basis using Excel sheets. The points after the 3 weekends were tallied and the winning teams were declared and awarded.

Feedback:

The event was competitive and very well received by football fans and non-football fans alike. Post the event most of the participants gave very positive feedback. The participants stated that the event was very well conducted in offline mode and that it kept them engaged throughout.

Outcome of the event:

This event was a fun event and was organised to bring in the start of the football season post lockdown. It built up the atmosphere to the football season by involving participants on a personal level for prizes. It also provided a refreshing break.

Purpose of the football auction was to instil technical and professional skills and students learnt about adapting to changes, quick decision making and critical thinking. PO5 (Modern Tool Usage), PO9 (Individual and Team Work) were achieved through the event at a level 3 and PO12 (Life-Long Learning) was achieved through the event at a level 2.

Criteria for Evaluating the Event:

1. **Level 1:** If the POs achieved are not upto the expectations in terms of number of attendees, feedback from students.
2. **Level 2:** If the POs achieved were upto the expectations but made the committee realise that it could be improved to better levels.
3. **Level 3:** If the POs achieved exceeded the expectations in terms of number of attendees, feedback from students, management and expenses from the committee end.

Event FACE CUP

Speakers: This event was hosted by the FACE Core of 2021-22. The FACE CUP was conducted both in online and offline mode.

Attendees: The FACE CUP had all four years the computer science branch participating in it. The event took place over a span of 3 months

Date: February 2022-April 2022

Report:

The legacy of FACE, the FACE CUP, is a signature event held every year among the four years of the computer department. The tradition continued this year, with the events starting in February with the first event being F.C.Q.C with the third years coming first.

F.Q.P.C was followed by offline sports like cricket, football and dodgeball, all 3 being held in February itself. While the fourth years won cricket and football, the second years reigned champions in dodgeball. This ended the first phase of the FACE CUP.

The second phase took place in March where offline sports continued. The fourth years won both volleyball and throwball, while table tennis was won by the first years and carrom by the second years. The third years showed their muscle in tug of war and won it emphatically.

After this the FACE CUP again moved to the online mode where chess and e-sports like valorant and pubg were played. The first years clean swept the chess competition. Valorant was won by the second years while the first years won pubg.

This marked the end of the championship with the fourth years winning it by a narrow margin of 25 points.

Feedback:

The event was competitive and very well received by all students of the computer department. All the sports received great participation and were well contested. All the students gave positive feedback when the event was done and dusted. The participants stated that the whole championship was conducted very well with no hiccups in between. All in all, the event was a huge success and was enjoyed by everyone participating.

Outcome of the event:

This event was a fun event and was organised to increase the bonding among students of different year. It created the sense of teamwork among the students with different year students competing against each other. It also provided a refreshing break.

Purpose of the FACE CUP was to instil technical and professional skills and students learnt about adapting to changes, quick decision making and critical thinking. PO5 (Modern Tool Usage), PO9 (Individual and Team Work) were achieved through the event at a level 3 and PO12 (Life-Long Learning) was achieved through the event at a level 2. PO5 (Modern Tool Usage), PO10 (Communication) were achieved through the event at Level 3 and PO2 (Problem analysis), PO3 (Conduct investigation of complex problems), PO8 (Individual and Team Work), PO11 (Project Management and Finance) and PO12 (Life-Long Learning) were achieved through the event at Level 2.

Criteria for Evaluating the Event:

1. **Level 1:** If the POs achieved are not upto the expectations in terms of number of attendees, feedback from students.
2. **Level 2:** If the POs achieved were upto the expectations but made the committee realise that it could be improved to better levels.
3. **Level 3:** If the POs achieved exceeded the expectations in terms of number of attendees, feedback from students, management and expenses from the committee end.

IEEE Women in Engineering (WIE) Events

“IEEE Women in Engineering is one of the largest international professional organizations dedicated to promoting women engineers and scientists, and inspiring girls around the world to follow their academic interests in a career in engineering.” WIE-IEEE-S.P.I.T. is a students’ committee at Sardar Patel Institute of Technology working towards creating a stage for women to network through workshops, seminars to enhance knowledge and to improve skills, also to create leadership roles and career development for women.

IEEE is the world’s largest technical professional organization dedicated to advancing technology for the benefit of humanity.

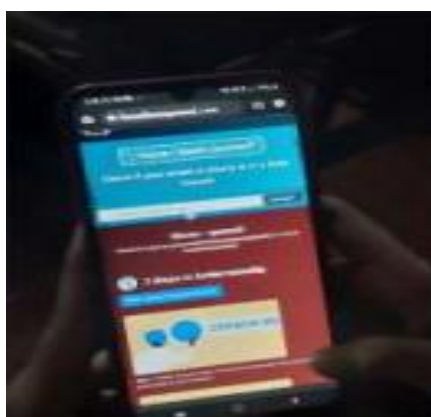

IEEE-WIE pledges to work towards gender-diversified panels at all IEEE meetings, conferences, and events, including our own. Our goal is to facilitate the recruitment and retention of women in technical disciplines globally. We envision a vibrant community of IEEE women and men collectively using their diverse talents to innovate for the benefit of humanity.

WIE-IEEE in association with WDC and IIC- S.P.I.T. has conducted informative seminars on topics such as Cyber Crime awareness and Breast Cancer Awareness. A webinar was conducted which was by an alumna of our college, currently working as SWE intern at Google. An interactive essay competition was held on the account of National Science Day, wherein students were given different topics on the spot, to brainstorm and present their thoughts. Lastly, our flagship Women’s week was celebrated which included an ‘all girls Coding Contest’, a celebration of women’s day, and a fun day for all the teaching and non-teaching faculty. These were the events conducted by WIE-IEEE-S.P.I.T. in association with WDC and IIC in the year 2022-23.

Girls Coding Contest

Women's day Celebration

Fun Event for Teaching and Non-teaching Faculty on the occasion of Women's Day.

NISP

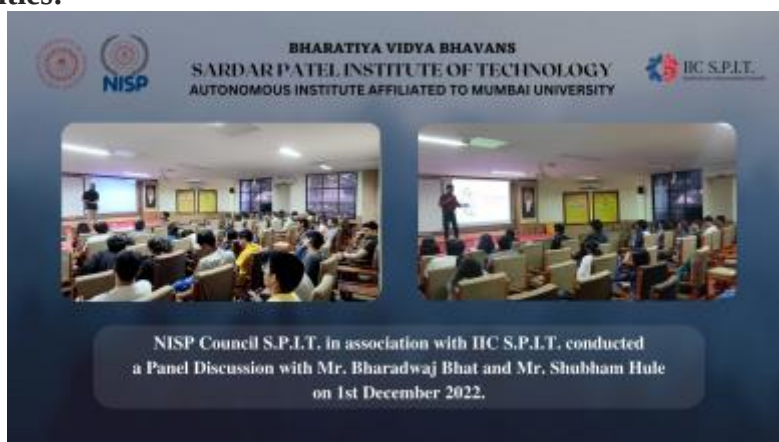

NISP Council S.P.I.T. intends to guide HEIs for promoting students' driven innovations & start-ups and to engage the students and faculty in innovation and start-up activities on campus. It aims at enabling HEIs to build, streamline and strengthen the innovation and entrepreneurial ecosystem in campus and will be instrumental in leveraging the potential of student's creative problem solving and entrepreneurial mind-set.

The National Innovation & Startup Policy (NISP) is being implemented by MoE's Innovation Cell and in coordination AICTE, UGC, state/ UT governments and universities in promoting a strong intra and interinstitutional partnerships with ecosystem enablers and different stakeholders at regional, national and international level. Implementation of policy has been undertaken for quick adoption by HEIs.

This year, so far, NISP Council S.P.I.T. conducted a panel discussion with Mr. Bharadwaj Bhat and Mr. Shubham Hule on 1st December 2022 followed by an Industrial Visit to LTIMindtree and SSIGMA, Pune on 4th February 2023.

The Council also celebrated the National Startup Day in the college with Mr. Pranav Chaware and Mr. Saurabh Soni and conducted a session on Ideation with Mr. Dinesh Israni on 16th & 23rd February 2023.

Research Lecture Series

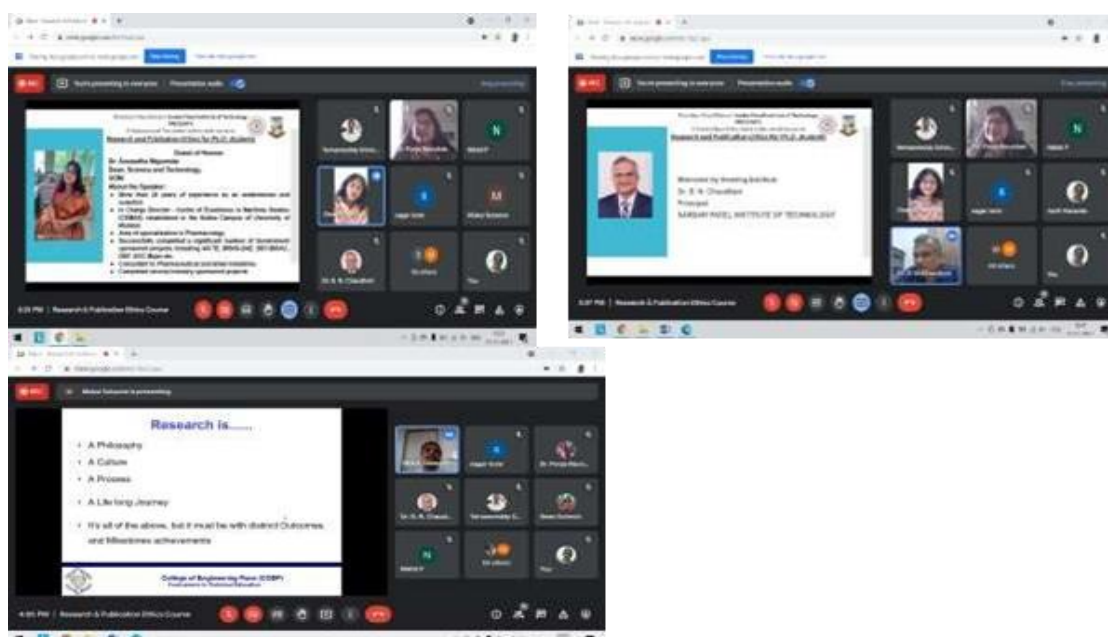

Research and Publication Ethics for Ph.D. students

Date: 15/11/2021

Time: 3.00 pm to 4.30 pm

Report on Inaugural Function

1. Chief Guest: Dr. Sutaone, Dy. Director COEP Pune
2. Guest of honor: Dr. Anuradha Majumdar, Dean Science & Technology UoM
3. Dr. Chaudhari sir, Principal S.P.I.T. Mumbai
4. Dr. Y. S. Rao, Dean R & D S.P.I.T. Mumbai
 - Dr. Y.S. Rao welcomed all attendees including the speakers and participants. He addressed the main objective of this credit course considering the requirement of the research work w.r.t. Ph.D. research work.
 - Dr. Mujumdar focused on the mindfulness of the research. A wide focus on ethics is important. She complied with the view of UGC w.r.t UoM. She explained different research areas with the need to focus on indexing.
 - Dr. B. Chaudhari admired the structure of the credit course focusing on the concern of the cs in doing the research. He suggested research scholars on research work along with publications. Dr. Sutaone focused on the what, how and why of the research. He enlightened the session with different and important scenarios in the role of research.
 - Dr. Pooja thanked all the attendees, including guests of honors and dignitaries of the hosting session and all participants, for making this event a good start. Session was concluded with a group photo session.

Date: 16/11/2021

Time: 3:00 pm to 4:30 pm

Day: 2 Session: 1

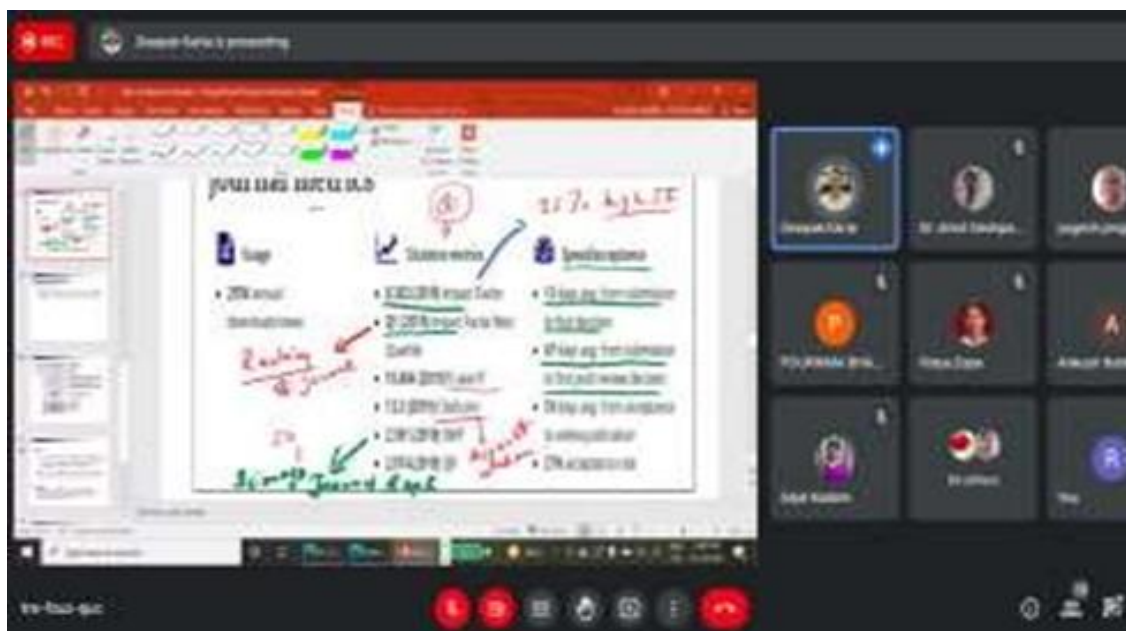

Speaker Name: Dr. Deepak Karia, HOD at SPIT Mumbai

Topic: Research Metrics

Report:

The first session was on Research Metrics. Rani Vaswani started with the welcome speech of the speaker Dr. Deepak Karia Sir briefing about the decade of experience he has in teaching and publications. Dr. Karia started the session by explaining that Metrics are nothing but the parameters of research. He proceeded further with the Quality of publication and research. Being an IEEE reviewer, he explained very nicely on the Journal selection and tools that can help to select a journal. The session concluded with an interactive Q&A session on Impact Factor and vote of thanks to Dr. Deepak Karia Sir for giving his valuable time & feedback to all the participants.

Feedback Analysis :

Report Prepared By: Rani Sneha Vaswani

Date: 17/11/2021

Time: 5.30 pm to 7:00 pm

Day: 2 Session: 2

Speaker Name: Dr. B. K Naik, NITIE, Mumbai

Topic: Copyright & Plagiarism: Need for Academic Publication

Report on the session:

The following Topics were covered in the session:

- Reference books-literally, work are copyright Magazines and newspapers literally work

Algorithms, electronic databases, standard time zones technical drawings are copyright. Photography, cinematography, musical composition, choreography Rights: economic rights, moral rights .

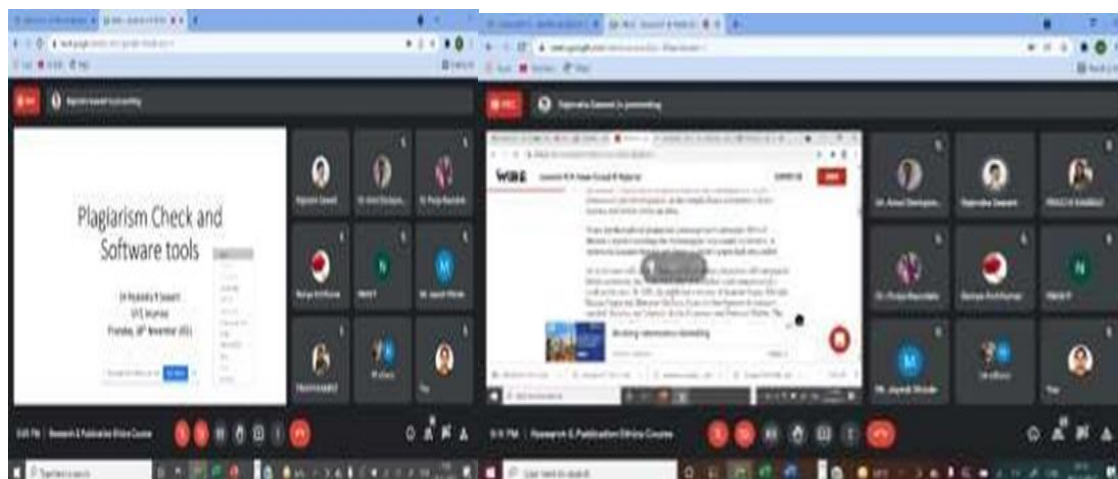

- Copyrights and Related Rights-Rights: economic rights, moral rights, Related rights: neighbouring rights
- Exceptions to protection: quotations for commentary, illustration for teaching, news reporting, court orders, question paper setting.
- Celebrity endorsement
- Berne convention 1886: principal of national treatment, principal of automatic protection, principal of independence of protection.
- minimum standard of protection.
- What is plagiarism? Intentional and Unintentional.
- Rationale for academic integrity: Honesty, doubtful: cite the source
- Strategies to avoid a plagiarism
- Cite your sources.
- Know when to cite.
- UGC policy on plagiarism.

Speaker Name: Dr. R.R. Sawant

Topic Name: Plagiarism

Report on the session: Very informative and valuable session on **Plagiarism** in detail with more than 75 participants. The content involved meaning and concerns of plagiarism, Plagiarism forms and types, software tools, Turnitin s/w demo and assignments.

MOUs

Following is a list of the functional MOUs between various organizations and reputed institutes till academic year 2021-22. The basic purpose and the details of these organizations are described below.

Sr. No.	Details of organization	Purpose
1	Bombay College of Pharmacy, Mumbai and Department of Geography, University of Mumbai, Mumbai	The parties are desirous of developing and enhancing institutional cooperation for the advancement of teaching, research, community, and industry outreach through knowledge transfer and to promote research activities in the field of engineering and Technology for mutual benefit of the collaborative institutions.
2.	SKIN and VD Department, Seth G.S.Medical College and KEM Hospital, Parel, Mumbai	The SKIN and VD Department, Seth G.S.Medical College and KEM Hospital is desirous to conduct research in the area of Skin Disease Analysis and execute a project titled “Skin Image Analysis Software for diagnosis of chronic pruritic skin diseases”.
3.	Centre of Excellence in Basic Sciences, University of Mumbai -Department of Atomic Energy (UM-DAE-CEBS), Mumbai	In accordance with the mutual desire, both parties are agreeable to enter into a Memorandum of understanding (MoU) for working and cooperating with one another for the purpose of Academic interaction.
4.	Sileaf Technologies Pvt Ltd., Adisa Icon, Mumbai Bangalore Highway, opposite HEMRL, Bavdhan, Pune 411 021	Sileaf is in the business of design, development and manufacture of water pumps for solar applications and other components required in the field of renewable energy sector. Sileaf is based on the philosophy of innovation. Our R&D centers consistently develop innovative products for futuristic needs and to address specific issues. The products are designed and developed to meet global standards. Sileaf products are appreciated for superior quality all over the world.
5.	Riddhi Heatron, Rainbow Industrial Premises next to Floral Deck Plaza, Road No. 23, Andheri (East) , Mumbai, 400 093	Riddhi Heatron is a Mumbai based proprietary company working since last 15 years and is a pioneer OEM company to make electric furnaces of jewelry industry. The company has ventured nationally and internationally also and is growing steadily towards customer satisfaction and innovative products.

Sr. No.	Details of organization	Purpose
6.	Suyog Telematics Limited, 41, Suyog Industrial Estate, 1st floor L.B.S marg, Vikhroli(W), Mumbai-83,	Suyog Telematics Limited is currently looking for development of mobile application to monitor maintenance activities through mobile application to their 1800 cell sites. In this context through this MoU, SPIT will develop mobile application for servicing maintenance calls, opening and closing of maintenance service tickets and keeping track with all the data-bases stored in clouds server to track history and record.
7.	Zeuva Automotive Private Limited, B wing, 5th floor, Ackruti Trade Center MIDC, Andheri East, Mumbai-93	Zeuva automotive is a startup with a mission to enable adoption of electric vehicle technology. Currently they are developing a battery management system including proprietary and patent pending thermal management system for light electric vehicles.
8.	Hardcarb Technologies Pvt. Ltd, Navi Mumbai	Engage mutual Corporation in research and development primarily in the field of embedded systems, instrumentation and automation, power Electronics industrial electronics communication and computing
9.	General Auto Electric Corporation, Andheri East, Mumbai	Design and development of battery charging system 4.5 KW for railway coaches meant for use in Indian Railways
10.	Zeuva Automotive	Engage mutual Corporation research and development primary in the field of embedded systems, instrumentation and automation. Power Electronics, industrial electronics, communication and computing in areas of electrical vehicles technology which may include battery management system
11.	Veermata JijaBai Technological Institute, Mumbai	For purpose of enhancing quality of technical education imparted by both Institutes All collaboration possible under the aegis of national education policy 2020

Sr. No.	Details of organization	Purpose
12.	Fr. Conceicao Rodrigues College of Engineering, Mumbai	For the purpose of Financing quality of technical education important by both Institute Mutually agree to identify various areas of academic or research interest and depute students' staff or faculty on Exchange as per requirements for conducting courses or research in various semester
13.	Crypto University	As part of its industry Academia cooperation, it enables Academia to get insights into fast growing blockchain and cryptocurrency landscape thereby enhancing career opportunities to young professionals
14.	College of Engineering, Pune	Enhancing quality of technical education imparted by both Institute by student exchange, faculty exchange etc
15.	G.H. Raisoni College of Engineering, Nagpur	To implement student - faculty exchange leading to enhancement in inter Institute activities To agree for academic and Research cooperation between All the departments for implementation of best practices for enriching, teaching, learning and Research process
16.	US institute of 3D technology, New Delhi	In accordance with the mutual desire, both parties are agreeable to enter into a Memorandum of understanding (MoU) for working and cooperating with one another for the purpose of Academic interaction.
17.	Zargun Electronics and Science Pvt. Ltd., Jogeshwari West, Mumbai	Zargun Electronics and Science was formed in January 2019 with an objective to solve real world issues like waste-disposal, water management etc by leveraging technology and collaborating with stakeholders.
18.	SGGS Institute of Engineering and Technology, Nanded	For the purpose of collaborating in areas of credit transfer, Joint projects of students and faculty, join publications., joint faculty and staff development programmes.

Sr. No.	Details of organization	Purpose
19.	Smartly Built, Mumbai	For the purpose of helping build smart business through strategy consultation, web development and competitive pricing.
20.	Fontys University of Applied Sciences, The Netherlands	Both the parties agree to cooperate within fields of scholar exchange programme, student exchange or study abroad programmes.
21.	North south Foundation India, Panjagatta, Hyderabad	NorthSouth India would like to award scholarships to academically meritorious students who need financial resources, provided the students satisfy all the norms set by NORTH SOUTH India.
22.	XinFin Fintech Pvt. Ltd., Singapore	The main purpose is to include a curriculum and educate on Blockchain Technology to the young interested students.
23.	Credit Suisse Business Analytics (India) Private Limited, Mumbai	Credit Suisse will provide opportunities for students of SPIT to learn practical knowledge through the CS labs program which is designed to provide a strong synergy between SPIT and credit suisse to tackle some of the real-world and complex problems.
24.	Digital Dojo, Borivali East, Mumbai	In august 2018, Digital Doo launched DDLP (Digital Dojo Learning Platform). DDLP is an online learning platform to upskill people and brands with digital skills required to succeed in the digital economy.
25.	ImaginXPTM, Baner Road, Baner	ImaginXPTM is a brand trademarked under Giggle Galaxy Private Limited, providing future skills and offering degrees and for-credit certification programs for university aspirants and standalone certification programs for working professionals.
26.	AlmaShines, Nehru Nagar, Satellite, Ahmedabad	Almashines to provide a dedicated platform to the institute authorities for facilitating interaction with the alumni and students, primarily.

Sr. No.	Details of organization	Purpose
27.	North South Foundation, Panjagutta, Hyderabad	NorthSouth India would like to award scholarships to academically meritorious students who need financial resources, provided the students satisfy all the norms set by NORTH SOUTH India.
28.	Zargun Electronics & Science (OPC) Pvt. Ltd., Jogeshwari, Mumbai	Zargun Electronics and Science is actively involved in consulting startups, private and public sector for adopting cost- effective solutions. Also, it is developing customized products to meet end-user requirements.

Grants/Funds by Faculty

Name of Faculty	Name of the Funding agency	Title of the Project	Amount Received (In Lacs)
Dr. B. N. Chaudhari	DST, New Delhi	Establishment of PRAYAS Centre	213
Dr. Y. S. Rao	AICTE, New Delhi	AICTEII - IDEA Lab Project	15
Dr. Y. S. Rao/ Prof. Milind Paraye	AICTE, New Delhi	MODROB Renewal Energy Laboratory	8.8
Dr. S. S. Rathod	AICTE, New Delhi	MODROB Advanced Digital Laboratory	8.8
Dr. Deepak Karia	AICTE, New Delhi	MODROB Real Time Signal Processing Laboratory	1.5
Dr. R. R. Sawant	DST, New Delhi	Core Research Grant	68
Dr. Sujata Kulkarni	AICTE ATAL FDP	Design Thinking: Practical Perspective on Decision Making Education	0.93
Dr. P. V. Kasambe/ Prof. Najib Ghatte	AICTE, New Delhi	AICTE-SPICES	2

SP-PDC

Vision and Mission: The vision and mission of this program revolves around the overall development of students in the sphere of innovation. The main aim is to instil a sense of creativity in sync with technical aspects. All in all, to harness invention and innovation.

Objective:

- To convert project to prototype for commercialization
- To develop and test hardware/Software products
- To provide technology support for creative product development
- To develop skills required for end-to-end product development

Asset Cost: Rs. 21,00,000, Civil Infrastructure: 14.15 Lakhs, Equipment: 6.85 Lakhs

Contributor: SPIT Alumni Network, SPTBI, SPIT

Consultancy Projects: Two Consultancy Projects Completed: (1) casting Battery Charging Systems for Indian Railways (2) Induction heating machine for jewelry casting

Internship Generated (1st Jan to 30th June 2022): 13 (Thirteen), Successfully completed.

Forthcoming National Level Activity: AICTE IDEALAB (Rs. 1.47 Crore), Proposal. The existing PDC serves as an important foundation for this proposal. The Proposed IDEALAB would be jointly funded by SPIT, SPCE, SPTBI, Industries and AICTE. The minimum required infrastructure is created to offer work on various products and projects by PDC.

- Few testings equipment worth 7 Lakhs like CROs, Multimeters etc. are procured under PDC and would be made available for proposed IDEALAB
- The facilities like Wireless LAN, internet connectivity, pantry, product show-cases and display-boards are created for PDC would be available for IdeaLAB.

SP-TBI

SP-TBI Introduction:

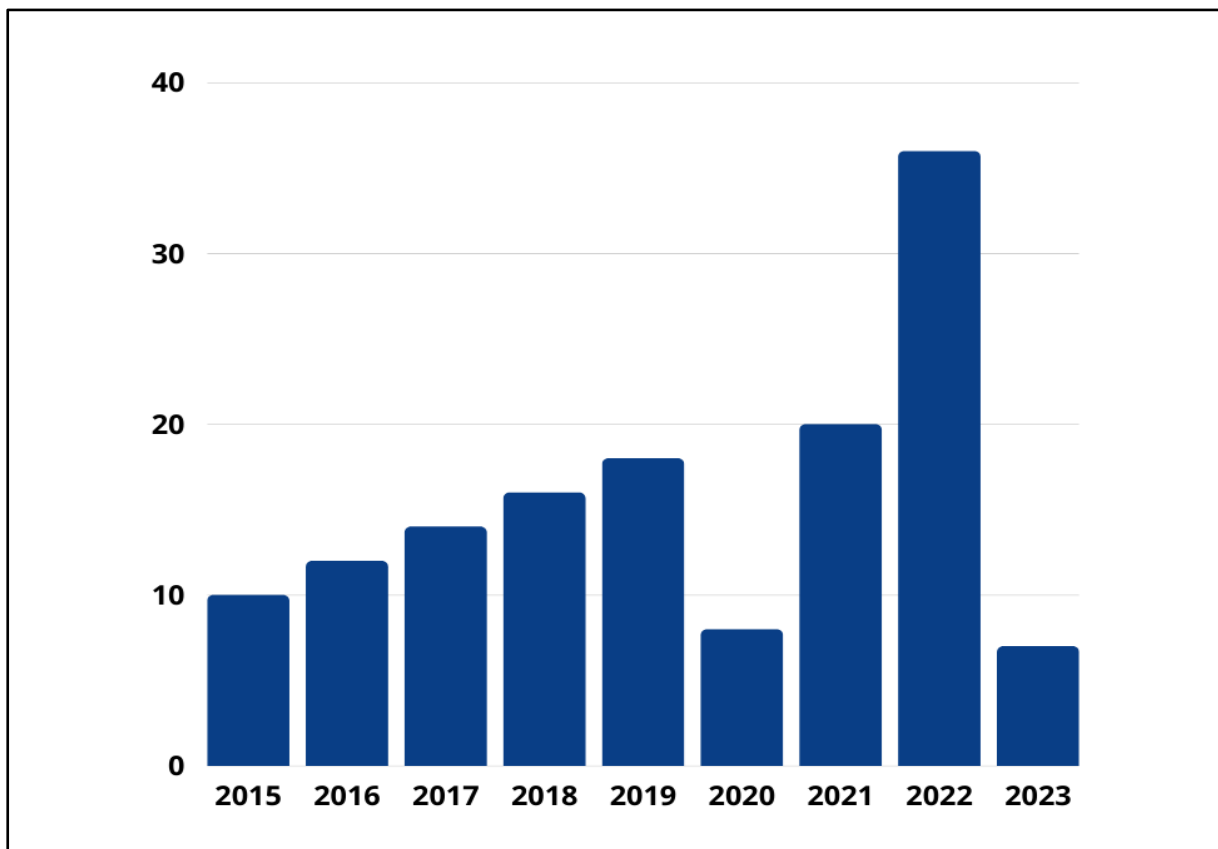

- Sardar Patel Technology Business Incubator (SP-TBI) is an incubation center founded in 2015 as an initiative of Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology and is affiliated with the Department of Science and Technology, Government of India.
- We are affiliated with Bharatiya Vidya Bhavan, which is an organisation that houses various colleges like SP Jain Institute of Management and Research (SPJIMR), SPIT, SPCE to name a few.

- Total Area: over 15,000 sq feet
- Infra:
 - AR VR
 - IoT lab
 - Digital Studio (working lab)
 - 26 dedicated rooms for startups
 - 5 meeting rooms
 - 1 conference room
 - 60-seater co-working space
 - Product Development Centre
 - Prayas Lab (Funded under Nidhi Prayas)

SP-TBI Overview:

SP-TBI has incubated 141 startups since its inception. Currently, 53 startups are incubated.

Above are the startups incubated year-wise. Till now we SP-TBI has supported over 175 Entrepreneurs and have created over 750 jobs. Apart from this, SP-TBI has supported Students, Faculty and even PwD startups.

Currently, there are **16 Physically incubated startups and 28 Virtually incubated startups.**

SP-TBI Funded Startups:

SP-TBI has various government funding schemes such as NIDHI- SSS, NIDHI Prayas, SICOM, and SISFS. Under NIDHI-SSS (National Initiative for Developing and Harnessing Innovations –Seed Support Scheme), SP-TBI has supported 6 startups with an equity partnership. Below is the list of these startups along with their incorporation details.

Sr. No.	Startup	Committed (in INR)
1	Zeuva Automotive Pvt Ltd	50,00,000
2	Avileen Academic Services Pvt Ltd (AAS VIDAYALAYA)	50,00,000
3	Rethynk Tech Private Limited (Eatabl)	25,00,000
4	Skinzy Software Solution Pvt Ltd	25,00,000
5	Rama Lifescience Pvt Ltd	25,00,000
6	DVDP Technologies Pvt Ltd (PeAR Tech)	25,00,000
7	Immersive Engagement Tech Pvt Ltd	30,00,000
Total		2,30,00,000

Under SICOM (State Industrial Investment Corporation of Maharashtra), SP-TBI has supported 5 startups with equity partnership. Below is the list of these startups along with their incorporation details.

Sr. No.	Startup	Committed (in INR)
1	Parashar Hospitality Solutions Pvt. Ltd.	10,00,000
2	SR Learning Pvt. Ltd.	10,00,000
3	RGM Technologies Pvt. Ltd	10,00,000
4	Liminal Tech Pvt. Ltd.	10,00,000
5	Inspilearn Education Pvt. Ltd.	10,00,000
Total		50,00,000

Under SISFS and NIDHI Prayas, SP-TBI has supported 5 startups and 10 startups for prototype grant, respectively. Below is the list of these startups along with their incorporation details.

Sr. No.	Startup	Committed (in INR)
1	Sahayak Technologies Private Limited	25,00,000
2	Mechgreen Tech Mobility Solutions Private Limited	10,00,000
3	Ambronics Private Limited	25,00,000
4	Arkashine Innovations Private Limited	10,00,000
5	Blue Phoenix Technologies Private Limited	25,00,000
6	Unlisted Assets 3.0 Pvt Ltd	25,00,000
7	Jeevamrut Pvt Ltd	25,00,000
8	Dagro Supermarts Private Limited	5,00,000
9	369 Zosswater Products Private Limited	35,00,000
Total		1,85,00,000

Sr. No.	Startup/ Prayasee Name	Committed (in INR)
1	Via Energicals Pvt. Ltd.	10,00,000
2	Urbanblue Technologies Pvt. Ltd	10,00,000
3	Rohan Kaundal	7,00,000
4	Allytriz Technologies	9,75,000
5	Nutricape Private Limited	7,20,000
6	Amos Ramesh	7,50,000
7	Space Philic Private Limited	9,00,000
8	Anoma Greens	8,75,000
9	Mavmo Pvt. Ltd.	8,50,000
10	Yerramreddy's Go Green Technologies Private Limited	8,75,000
11	Darshana Sankhe	6,50,000
Total		92,95,000

Prayas Lab (Funded under Nidhi Prayas):

SP-TBI with the support of DST (Department of Science and Technology) is setting up a Nidhi Prayas Shala Lab for developing the prototype to support, harness, and grow Hardware startups.

Procurement of all the equipment is done.

The SP-TBI's Nidhi Prayas Shala lab equipment is divided into six segments:

- Prototyping Facility
- Metal Working Facility
- Electronic Facility
- Power tools
- Supply and measuring Equipment
-

Below is the list of a few equipment-

Sr. No.	Equipment Name
1	Digital Storage Oscilloscope
2	Vinyl cutter
3	PCB Milling machine
4	Laser cutter and engraver
5	Reflow Oven
6	Mini desktop lathe cum milling
7	Jigsaw Machines
8	Drill stand convert hand
9	MiG and Arc Welding Machine
10	DC Regulated Power Supply
11	Programmable arbitrary Waveform Generator
12	Programmable DC Source/ Solar Simulator

Flagship Events:

1. FDP(Faculty Development Programme)

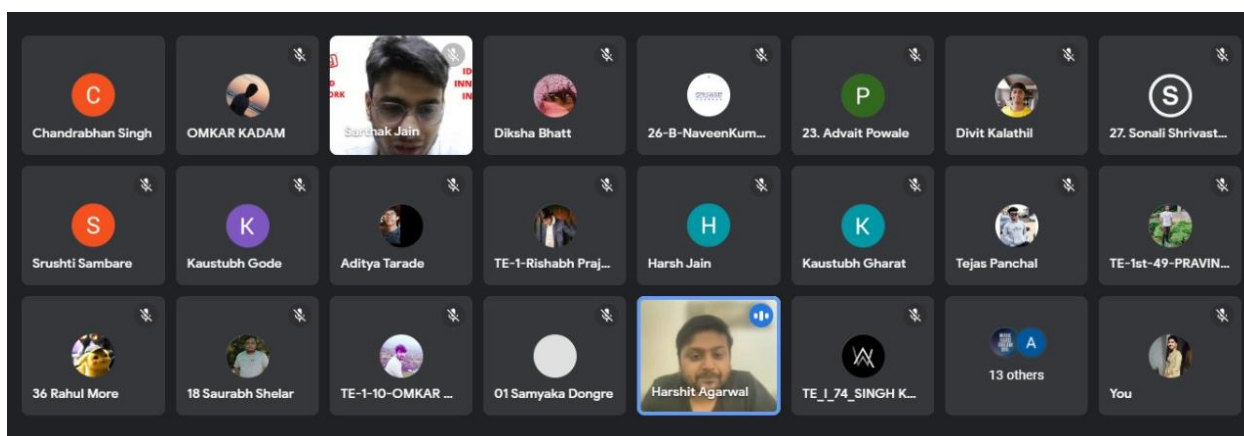

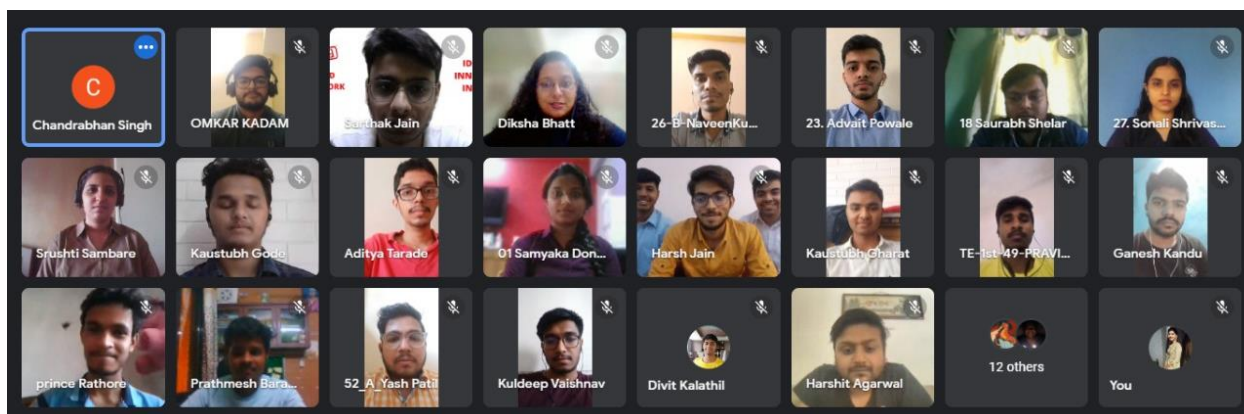

The theme of the event was to create an entrepreneurial mindset and skillset, both of which are much needed in the marketplace today, and to give insights on how entrepreneurship has impacts on the attributes of: design, investigation, problem analysis, life-long learning, communication, individual and team work, economics and project management.

The event was attended by 31 participants (16 women and 15 men).

2. Start-a-thon

SP-TBI's Start-a-Thon 3.0, a national-level startup ideation challenge by SP-TBI to foster and promote the development of entrepreneurs and startups was made live on 25th January 2022. It had received nationwide recognition by all students (engineering, management, commerce, and even schools) including faculties of colleges. The event received a total of 34,758 views on a competitive website platform Dare2Compete. A total number of 149 participants from all over India have taken part, divided into 75 teams. There were teams from top colleges in India like IIM Jammu, VJTI, SPIT, MGM CET, Terna and BITS Pilani.

The judges marked the teams based on Idea, Presentation, Solution, Technology(idea, uniqueness), Presentation etc. In the end, after the score tally, Team Octaflyte emerged at the first position and Team Btechis secured second place. Team Neo-Nomics and Team Innovative Envisioners bagged the 3rd rank. Team Elecle, AI Tronics, were among the top five teams.

Research and Development Activities

Technical Paper Presentation

The Research and Development Committee organized a Technical Paper Presentation Competition between Thursday 05th November 2020 and Saturday 07th November 2020. Competition was conducted on departmental level between Category-I students of B.E. (all four branches) via online mode amidst lockdown using Google Meet. Computer Engineering and Information Technology was one chosen as one of the departments while Electronics Engineering and Electronics & Telecommunication Engineering the other department. This event has been conducted twice in an academic year one for the Category 1 students while the other for Category 2 students.

The Technical Paper Presentation started as per Schedule. Expert Faculties from EXTC Department were appointed and worked as Judge/Evaluator for this TPP event for Electronics Engineering Department and vice versa. Expert Faculties from Computer Department were appointed and worked as Judge/Evaluator for this TPP event for IT Engineering Department and vice versa.

Evaluation of Presentation was done using assessment sheet given to the by R & D Committee. Technical papers written by students were also evaluated. Best group was identified as winner of this event.

The Evaluation was done in two Phases:

A) Technical Paper Writing

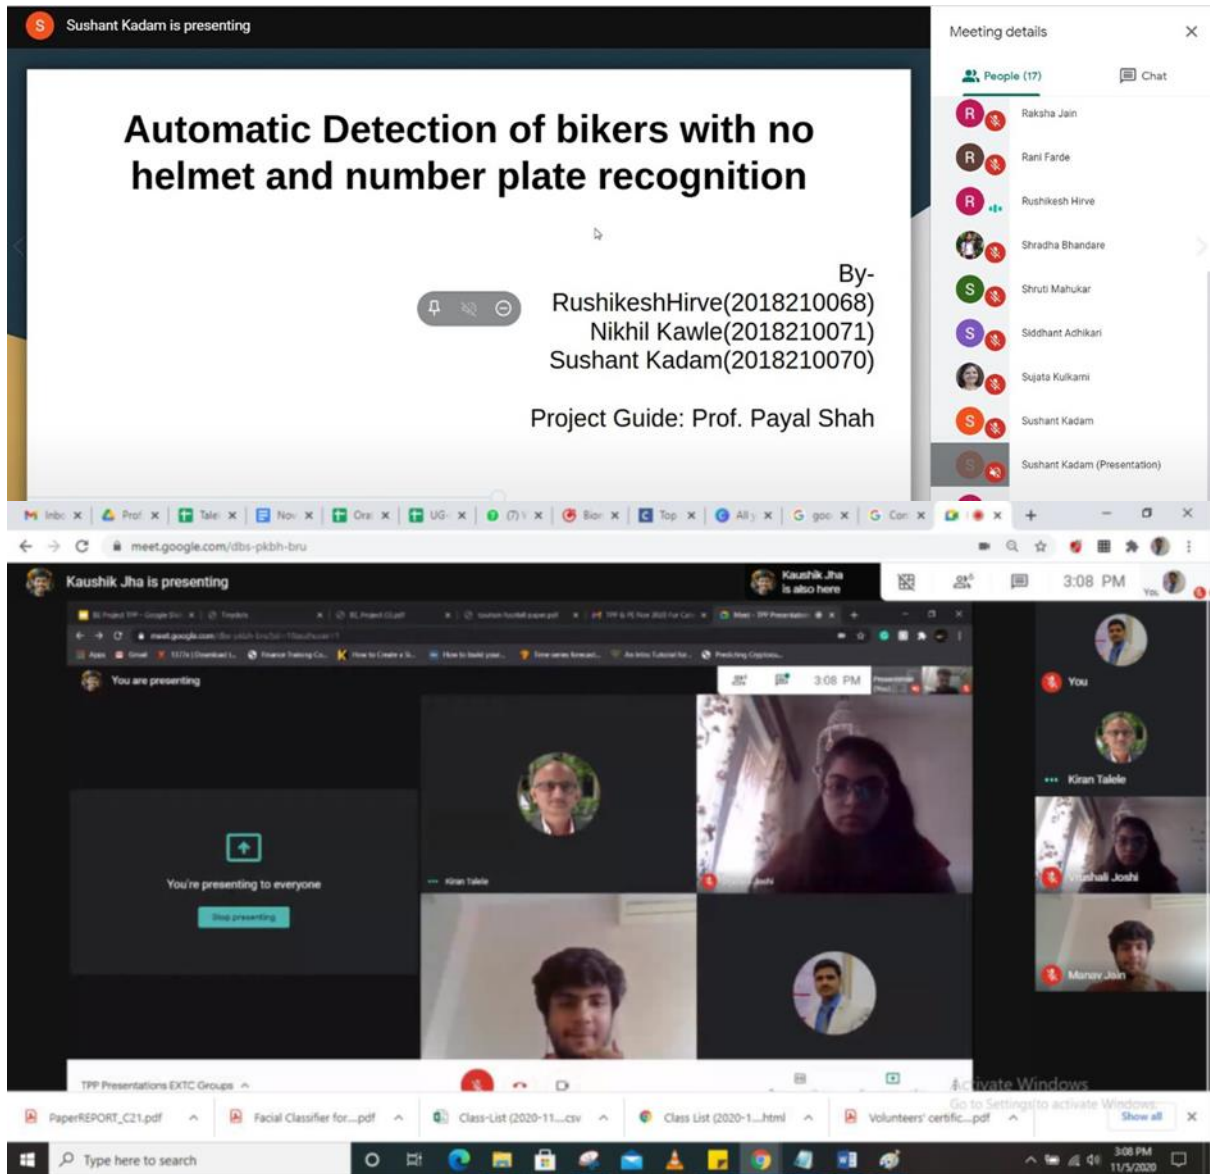

Technical Papers written by the students were collected few days prior to the event and were given to Expert Faculties along with pre-defined Rubrics for Technical Paper Writing for evaluation. Marks out of 25 were awarded to students under this segment.

B) Technical Paper Presentation

Students were supposed to present the papers by means of PowerPoint Presentation for time limit not exceeding 7 minutes and additional 3 minutes were reserved for Question-Answer session. Marks out of 25 were awarded on basis of pre-defined Rubrics for Technical Paper Presentation.

Event Photographs

Group presenting their technical paper

The screenshot displays a Google Meet interface during a presentation. The main window shows a slide titled "Automatic Detection of bikers with no helmet and number plate recognition" by Rushikesh Hirve (2018210068), Nikhil Kawle (2018210071), and Sushant Kadam (2018210070), with Project Guide Prof. Payal Shah. The meeting details on the right list 17 participants, including Raksha Jain, Rani Farde, Rushikesh Hirve, Shradha Bhandare, Shruti Mahurkar, Siddhant Adhikari, Sujata Kulkarni, Sushant Kadam, and Sushant Kadam (Presentation). The bottom of the screen shows a Windows taskbar with various open applications and the system clock at 3:08 PM on 11/5/2020.

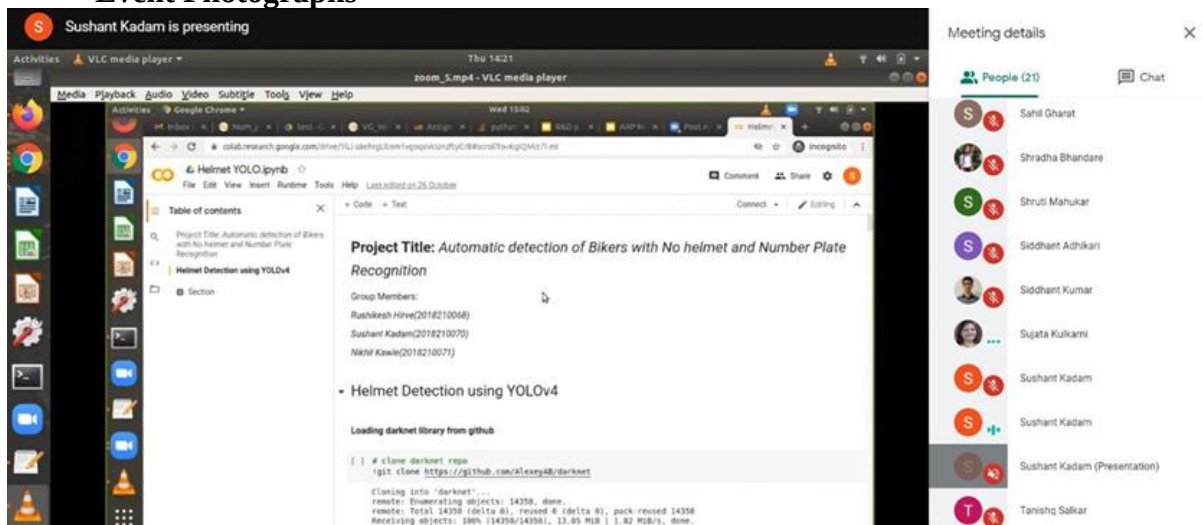

Project Presentation

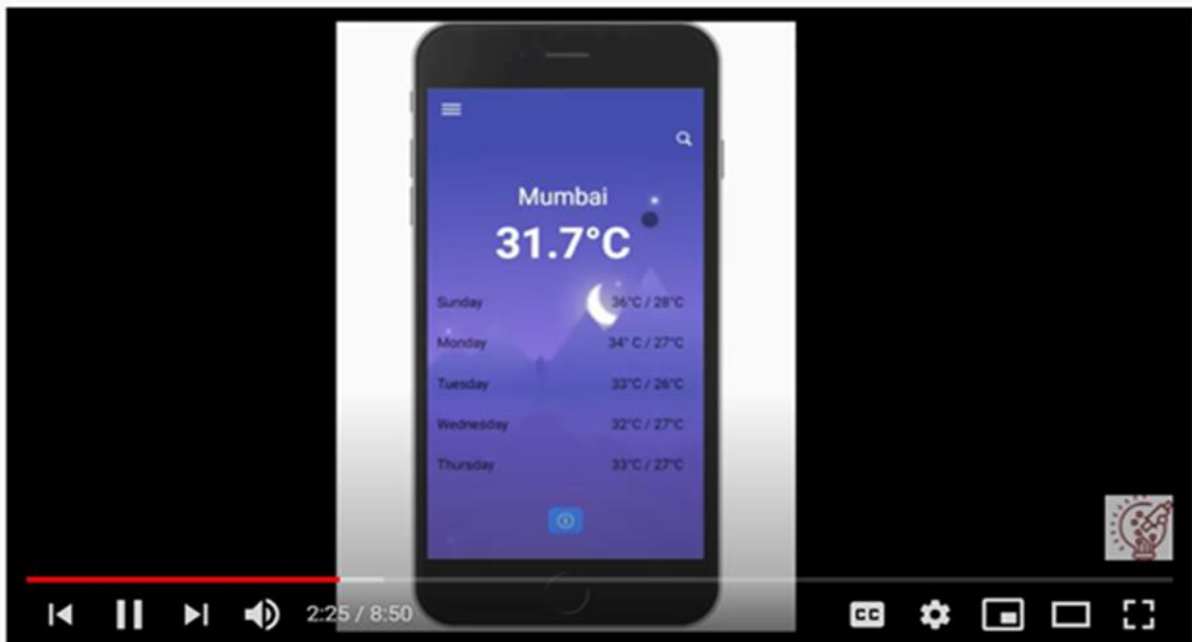

The Research and Development Committee organized a Project Presentation Competition between Thursday 05th November 2020 and Saturday 07th November 2020. Competition was conducted on departmental level between Category-I students of B.E. (all four branches) via online mode amidst lockdown using Google Meet. Computer Engineering and Information Technology was one chosen as one of the departments while Electronics Engineering and Electronics & Telecommunication Engineering the other department. This event has been conducted twice in an academic year one for the Category 1 students while the other for Category 2 students.

The Project Presentation started as per Schedule. Expert Faculties from EXTC Department were appointed and worked as Judge/Evaluator for this event for Electronics Engineering Department and vice versa. Expert Faculties from Computer Department were appointed and worked as Judge/Evaluator for this event for IT Engineering Department and vice versa.

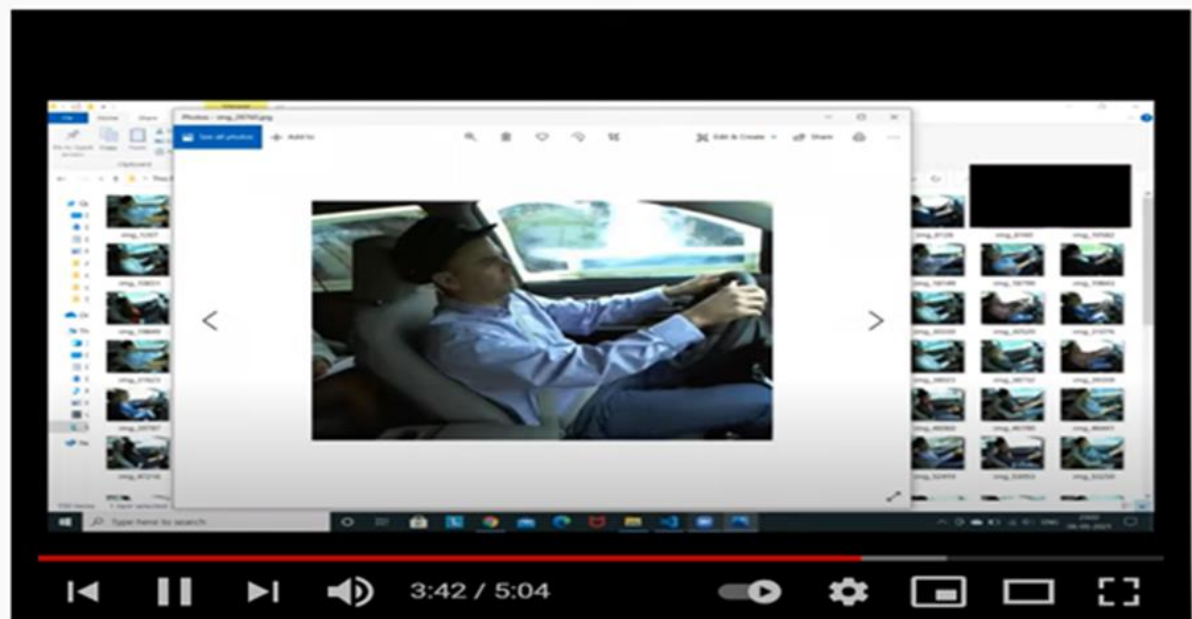

Evaluation of Presentation was done using assessment sheet given to the by R & D Committee. Best group was identified as winner of this event.

Library

Introduction

About Library - SPIT library is a knowledge resource center, which has an invaluable resource for the students and faculty members in the area of Engineering and Technology. It is providing effective information services to the users within a shortest possible time using SLIM library management software. Library is Wi-Fi enabled.

Library has a collection of more than 24000+ books and 8000+ e-books. Library has subscribed to National and International periodicals along with online journals like IEEE ASPP + POP and ACM Digital Library. It is a member of National Digital Library. Library has E-books with multi user, IP based 24X7 access with no limit on the number of downloads.

SPIT library maintains Institution Repository with open-source software: DSpace having Institution events, reports, institutional magazines, faculty publication, academic rules, question papers, syllabus etc. Library has NPTEL online lectures of eminent personality of various IITs, and there are made available to user online through Intranet. Library provides Book Bank facility to students. SPIT Library is open to other academic users for reference.

Objectives of the Library –

- To develop an enriched collection of books and other resources to the students and staff of SPIT.
- To implement new technologies learnt for betterment of our library services.
- To see institute library as the front runner in implementing the new information and communication technologies

Working Hours

Issue/Return of books 9.30 A.M. TO 5.30 P.M.

For reference 10:00 A.M. TO 6.00 P.M.

IEEE All Society Periodicals Package + IEEE Proceedings Order Plans (ASPP+POP)

IEEE ASPP Online combines high-quality technical literature with the power of online searching, including:

- 190 IEEE online society-sponsored journals, transactions, and magazines — [Download complete list of titles \(XLS\)](#) included in IEEE ASPP
- Peer-reviewed publications, concentrating on theoretical and experimental papers
- Quality magazines focusing on practical applications in research, design, and specification
- More than 461,000 documents, many of them available in HTML as well as the original PDF format
- Complimentary access to content from Nokia's *Bell Labs Technical Journal*
- The most highly-cited journals in the field
- Approximately 5 million abstract records
- Backfile to 2010

- Robust search tools with a user-friendly interface
- Daily updates—hundreds of papers added each week
- Abstract/citation and bibliographic records for subscribed content
- Title lists with persistent links and new periodical titles: www.ieee.org/kbart
- Online access to articles accepted for future print publication.

ACM Digital Library Subscription 2021

The ACM Digital Library is a research, discovery and networking platform containing:

- The Full-Text Collection of all ACM publications, including journals, conference proceedings, technical magazines, newsletters and books.
- A collection of curated and hosted full-text publications from select publishers.
- The ACM Guide to Computing Literature, a comprehensive bibliographic database focused exclusively on the field of computing.

A richly interlinked set of connections among authors, works, institutions, and specialized communities.

ACM Journals/Transactions (2021)

1. Collective Intelligence (COLA)
2. ACM Computing Surveys (CSUR)
3. Digital Government: Research and Practice (DGOV)
4. Digital Threats: Research and Practice (DTRAP)
5. ACM Transactions on Computing for Healthcare (HEALTH)
6. Proceeding of the ACM on Interactive Mobile, Wearable & Ubiquitous Technologies
7. Journal of the ACM (JACM)
8. Journal of Data and Information Quality (JDIQ)
9. Journal of Experimental Algorithmics (JEA)
10. ACM Journal on Emerging Technologies in Computing Systems (JETC)
11. Journal on Computing and Cultural Heritage (JOCCH)
12. Proceedings of the ACM on Computer Graphics and Interactive Techniques (PACMCGIT)
13. Proceeding of the ACM on Human - Computer Interaction (PACMHCI)
14. Proceeding of the ACM on Programming Languages (PACMPL)
15. Proceeding of the ACM on Measurement & Analysis of Computing Systems (POMACS)

Feedback

FEEDBACK ON BEST PRACTICES

As part of the preparation for NAAC accreditation, a survey was undertaken to determine the perception of best practices at S.P.I.T. The survey template developed by IQAC was circulated amongst all stakeholders of the institute like faculty, students, industry experts, office staff, domain experts, teachers of other higher education institutions and so on. The survey had 37 respondents.

Stakeholder
37 responses

Highlights of the feedback:

- Considerate of student needs related to academics and internships and taking appropriate steps
- Various opportunities to enhance co curricular skills
- Practical knowledge demonstration
- Easily accessible professors for help
- Best TPO
- Scope courses, Freedom to choose electives, Innovative labs
- Autonomy, giving motivation for startups, research internships
- Flexibility in the Work Environment and encouraging the performer
- Good Faculties
- Good Placements
- Focus on assignments and studies
- Good Extracurricular Activities
- Relative grading
- Improving sports facilities and infrastructure
- ESE gets finished within a short span of time
- Holistic Development by involving SEVA/SATVA/HSSA and other allied subjects
- Industry and Research Internship at 6th/8th Semester facilitates student to gain industrial research experience and understand corporate work culture before actual getting into corporate/PG Courses

- Provision of PDC, Idea Lab, TBI which encourages and boost students to go ahead with entrepreneurship/research/product formulation/patenting.
- Conducting regular ISEs and MSEs to ensure concept understanding
- A practical approach to every subject in labs, including presentations as a part of the exam.
- Conducting technical and cultural events
- Paper publication encouragement for BE students, use of innovative teaching learning, emphasis of all round development through seva courses
- Best Community of Students
- Work culture, approachable colleagues, encouragement for continuous improvement.
- Encouragement of students to participate in funded projects/competitions /extracurricular activities/outreach.
- Class size is small so faculty can better interact with students.
- Liberty for teachers to make innovations while taking lectures.
- Tutorials are also conducted batch wise Which helps both teachers and students to have smooth communication.
- Taking care of the students when in campus. Counsellor for mental health is available
- Labs are open 24x7 for students by key permission, Proactively Activity-based Learning,
- Integrity, Positive approach and transparency
- It allows its students to choose from a variety of fields helping them to improve life skills and overall development of an individual.
- Quality intake, Best Pay Package to Students, Adequate Work freedom, Consistency in adopting best practices.

PARENTS FEEDBACK ANALYSIS

S.P.I.T. collects the feedback on perception, Mission of the institute, curriculum aspects, Teaching Learning, Infrastructure from different stakeholders such as the Parents, students, alumni, Faculty and Employers. The Institution has established the Academic Council in order to ensure and analyze the academic excellence at student and faculty levels. The institute thoroughly reviews the curriculum for every academic year. The college maintains an IQAC as a quality consistence and quality enhancement measure. Various departments and committees work for Career Guidance, Anti-Ragging and Sexual Harassment Committee, etc. reinforce the curriculum by incorporating suggestions from various stakeholders and experts. The college conducts annual Alumni Meet, in which suggestions and feedback is received from Alumni students. Feedback from industry/ recruiters and professionals is obtained through department feedback committee. The provided feedback data is analyzed and incorporated for necessary implementation in curriculum and other developments.

Parent feedback is important for an engineering institute because it provides valuable insights into the experiences and expectations of the students' families. This information can help the institute identify areas where they are doing well and areas where they can improve, which can ultimately lead to a better overall learning experience for the students. Additionally, parent feedback can help the institute feel more connected to the families and foster a stronger sense of community.

Methodology

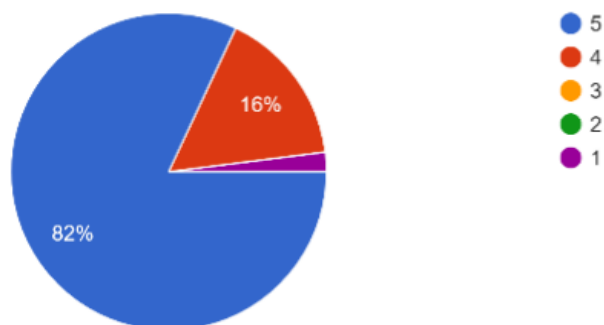

A google form was designed based on a template developed by the IQAC and circulated among parents of all students belonging to UG as well as PG program. The feedback was divided into different categories like perception, Institute's adherence to its mission statement, Curriculum, Teaching, Learning and Student performance, and Infrastructure and Facilities with few questions under each category. A total of 52 parents responded to the survey with 98% of the responses from the UG category.

Feedback Analysis

Perception: Nearly 82% of the parents expressed pride at their ward being students of S.P.I.T. while 90% of the parents have appreciated the learning environment especially in online mode

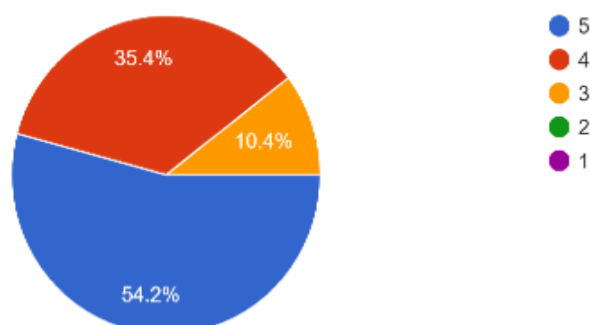

Getting admission in S.P.I.T. for my son/daughter is a matter of pride for me

50 responses

The atmosphere at S.P.I.T is helpful for learning specially in the current online teaching learning mode?

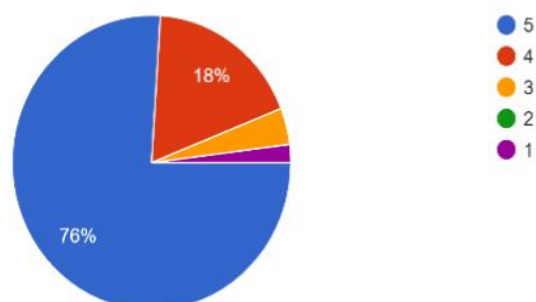

48 responses

Nearly 95% parents also feel that employability is the one of the prime focus areas of S.P.I.T

Employability is one of the prime focus in the Institute, as well as is the higher education

50 responses

Feedback on Mission Statement

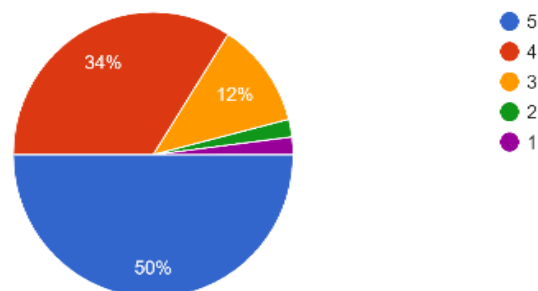

Feedback was collected from parents on various aspects of our mission statement which is as follows:

- Provide high quality education in engineering and technology promoting the Indian Values and Ethos that will prepare the participants to lead lives of personal integrity and civic responsibility in a global society.
- Promote an Educational Environment that combines academic study with the excitement of intellectual curiosity for engineers of tomorrow.
- Enhance career opportunities for students through Industry-Institute interaction, value-added courses and projects in cutting edge technology.
- Inculcate Entrepreneurial mindset in students to make them job creators.
- Focus on applied research to create next generation technologies.

The responses are outlined below:

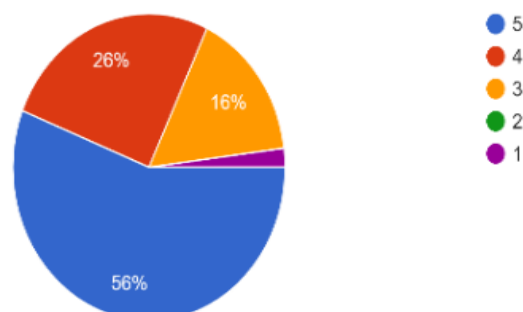

Institute takes efforts in generating awareness about Indian values, personal integrity and civic responsibility (through campaigns like communit...ronment and sustainability/ ethics and values etc.)

50 responses

Students are motivated to participate in various competitions (such as Hackathon/ trouble-shooting, coding/ethical hacking/ Moot courts for legal aspects/ debates)

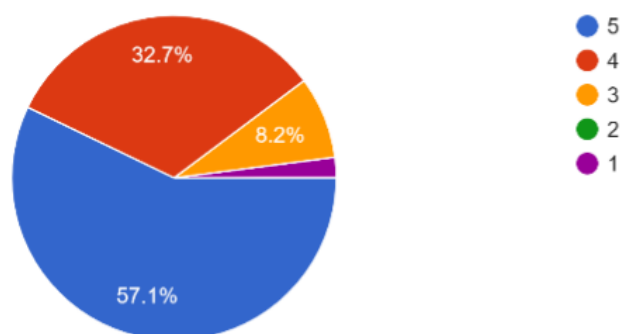

50 responses

Industry supported skill based courses are introduced in the syllabus
internships, visits, consultancy, projects, etc.)

(through

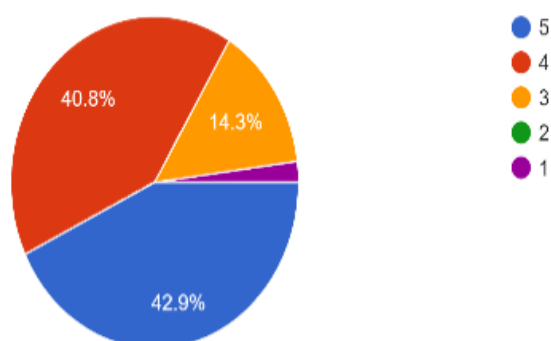

49 responses

Courses in the syllabus promote Entrepreneurship
encouraged and supported to initiate startups by Startup school mentor-ship)

(students are

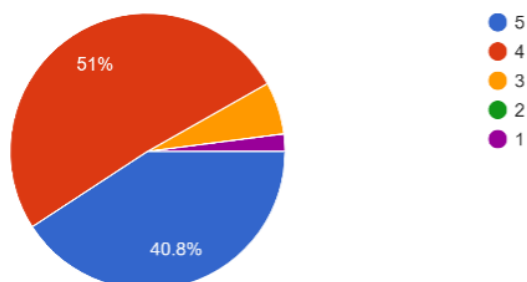

49 responses

Research culture is encouraged
presentation / publications in journals/ motivation ...arch projects / Faculty serving as research guides)

(technical paper

49 responses

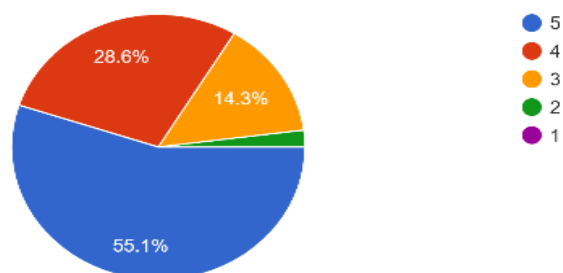

Feedback on Curriculum

Most parents feel that the curriculum gets the students ready for industry by imparting analytical and reasoning skills as well as language and soft skills apart from technical competencies required by industry at the same time providing academic flexibility and facilitating holistic development of students.

The academic flexibility provides opportunities to students to pursue their interest.

...er of pathways / electives from different areas of specialization)

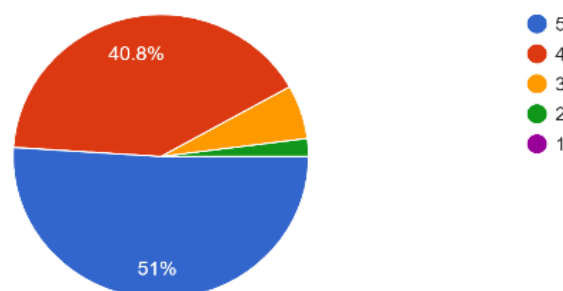

49 responses

Holistic development of students is encouraged.
sports, cultural and co-curricular activities)

(participation in various

Feedback on Teaching, Learning and Students Performance

Most parents are satisfied with the quality of teaching offered and mentorship and career guidance being provided by S.P.I.T.

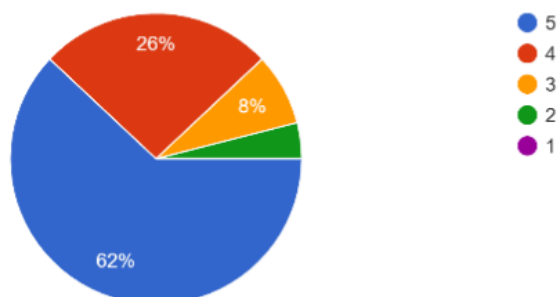

Rate the satisfaction level about the quality of teaching offered to your ward?

49 responses

Are you happy with the mentor-ship and career guidance your ward receives?

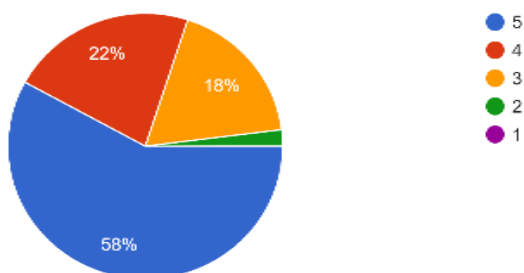

50 responses

They have also expressed satisfaction with the information dissemination system of the institute and the unbiased evaluation process.

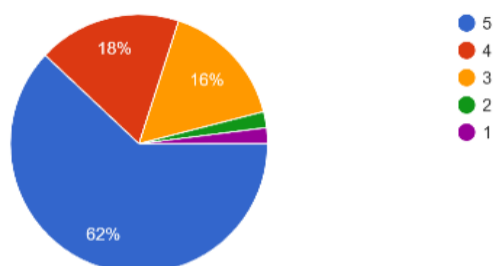

Information distributed through website/circular/e-mails/notices/announcements regarding rules and regulations, events, curriculum, examination are satisfactory?

50 responses

Do you agree that the evaluation methods are sufficient and unbiased to assess the potential of the son/daughter?

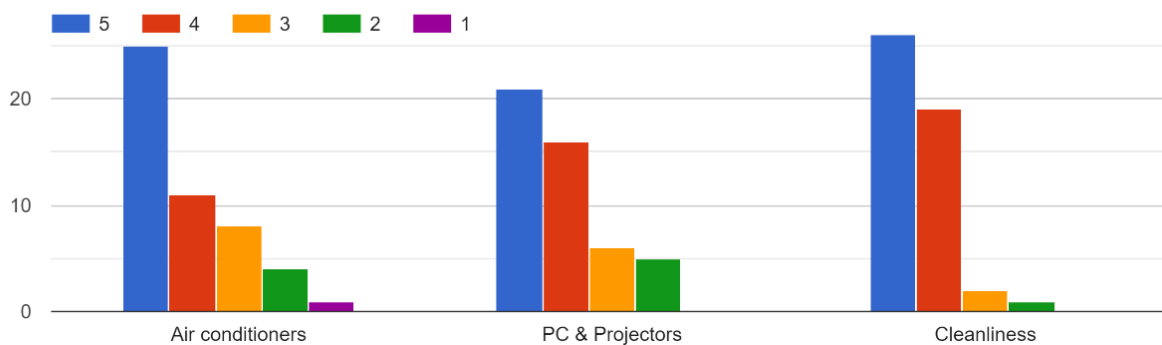

50 responses

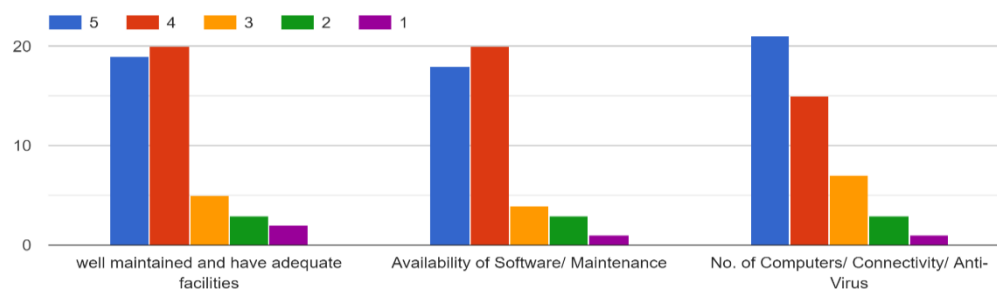

Feedback on Infrastructure

Parents have rated the various infrastructure parameters of S.P.I.T as follows

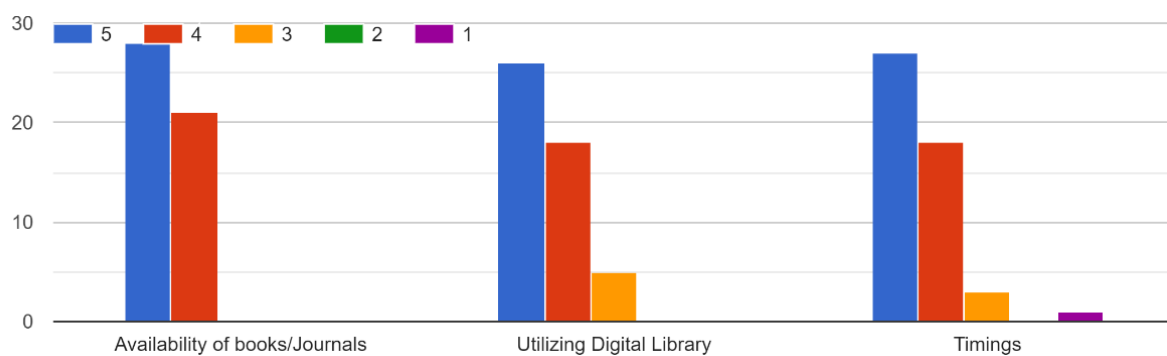

Class Room

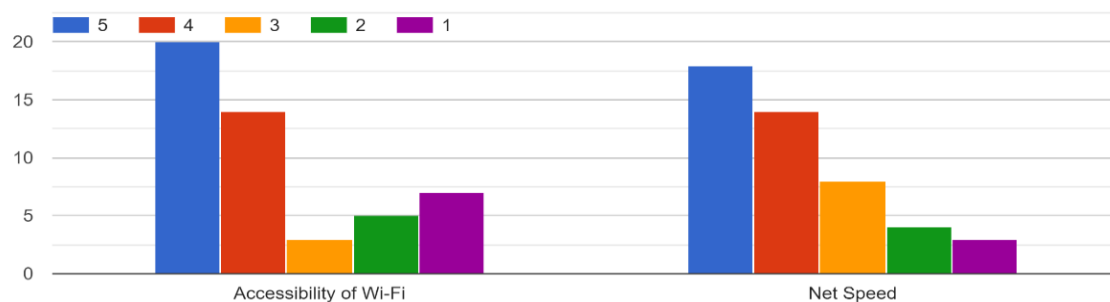

Labs

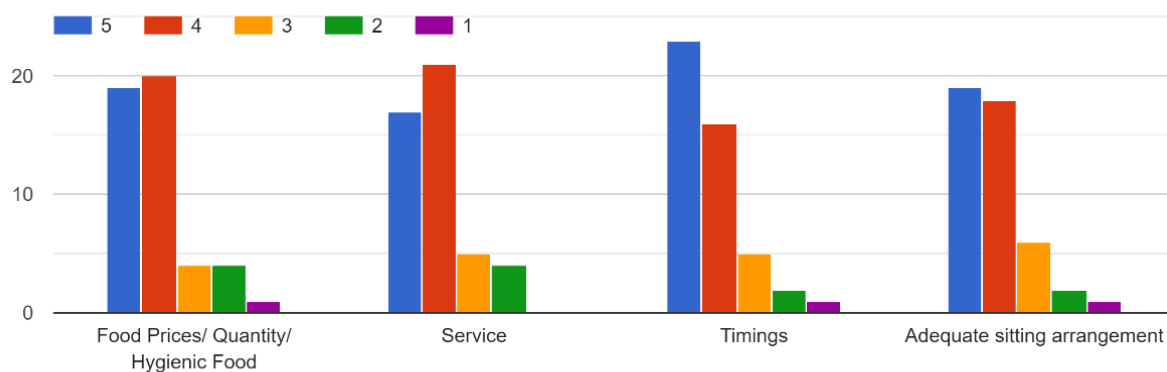

Library

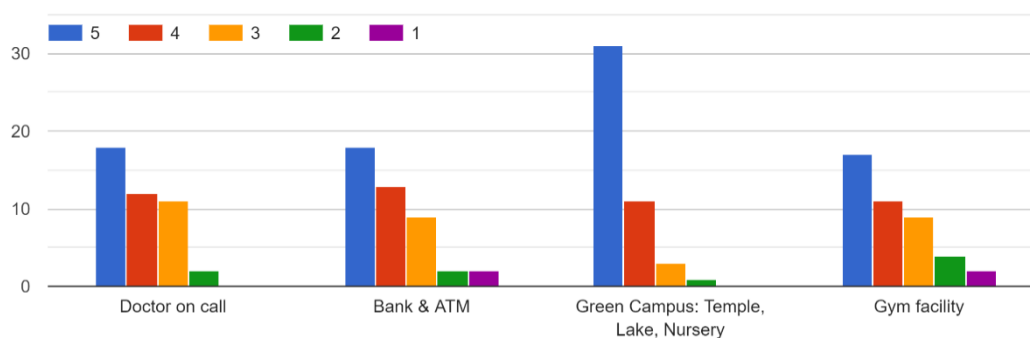

Wi-Fi and Internet Facility

Campus Canteen

Other facilities

Suggestions for improvement

Some of the suggestions given by parents include timely declaration of results, regular update about their ward's performance, effective design of timetable which ensures students do not waste time in between lectures and use their time more efficiently. Parents have also suggested that equal emphasis should be placed on placements and higher education and students interested in higher education should be mentored as effectively as their placement counterparts. They have suggested that the Institute should invite foreign universities for seminars and guidance on admission processes there. Many parents from across the state have requested development of suitable hostel facilities.
